## Pembroke Jaycees In Action

Pembroke-The Pembroke Jaycees are as busy as ever providing the leadership in the Pembroke area that has been so vital over the years. The Jaycees cut wood on Saturday, Nov. 27, and seven families were provided with wood. The Jaycees are always happy to give a helping hand to anyone who needs it. The Jaycees provide leadership, growth, development, work attitudes, develops one's personality in order that they may grow to challenge the difficult decisions one must make in the world today. ## EIGHTY-SECOND ANNUAL LUMBER RIVER CONFERENCE

by Jason B. Lowry  
[First in a series of articles about the Lumber River Conference of the Holiness Methodist Church]

The Eighty-Second Annual Session of the Lumber River Conference of the Holiness Methodist Church held at Riverside Holiness Methodist Memorial Church November 12, 13, 14, 1982 is now history.

These annual sessions are the involvement of eight churches, primarily of Indian origin scattered over Robeson County and one church in adjoining Hoke County may carry a lot more importance in the total human behavior patterns in Robeson County than one might believe. Over the years, our people generally have a connection with some of our churches around in the area. This church conference was organized in 1900 at what is now known as Union Chapel Church. We will discuss the origin in a future article of a series of articles, but for now we would like to share with the reading audience some of the most recent events happening in and around the people of the Lumber River Conference.

The host church where the conference is held annually for the past eighty-two years, always make good preparations for a convenient place to hold the conference as well as handling in a good way all the details of feeding the members and all the congregation. It is astounding how all the smaller churches in the conference organize their people in handling all the details of feeding and making the group feel so welcome while visiting their church.

In recent years, we have had several new denominations of faith to enter our communities, but by and large the two main ones have been and still are Methodist and Baptist that lead in numbers in Robeson County. While the Baptist and new denominations of the area have grown in numbers over the years while the Lumber River Conference, eighty-two years in existence have elected to stay about the same size.
