Lumbee Bank Is Now Celebrating Fifteen Years Of Service

The Lumtee Bank is in its 15th year of operation. This has prompted a celebration by staff, directors and friends of the Bank. While preparing for this celebration it was hard not to remember the beginning of this unique organization. The idea sprang forth during a time of new ideas, changes, and revolutions--1960's. Someone said why don't the Lumbee Indians have their own bank? This would create many opportunities for the community. It would afford the economic development of an economically depressed area.

The idea became reality with people such as Howard Brooks, Dr. Martin Brooks, L.H. Moore, John Robert Jones, Congressman Charlie Rose, Adolph Dial, Ray Liles and others. The above individuals were the original organizers with Howard Brooks

being the first Chairman of the Board of Directors and Ray Liles being the first

From a log cabin office on Third Street in Pembroke, the organizers set out to sell the necessary stock needed to open the Bank. The community was very excited about the prospects of the first Indian Bank in the nation. Some folks who were financially able, purchased large blocks of stock and others' purchased one (1) to ten (10) shares of stock. Several families purchased one share of stock for each member of the family.

The Lumbee Bank was officially chartered September 29, 1971. With the necessary stock being sold, the Bank opened for operations on December 22, 1971. The office was a mobile home unit located near the Bank's pres-

ent location. The original staff was Curtis Pierce, Ester Hedrick, Brenda Shoemake, and Vernice Oxendine. As a result of the sale of 67,189 shares of stock, the Bank began with assets totaling \$670,000. Today the Bank's total assets are

\$16,000,000. The early days for Lumbee Bank was a struggle for its Board and staff. The operation of a bank was new to everyone except Mr. Liles, the President. There was also skepticism from a portion of the community. But with the opening of a new, beautiful office in March, 1973, it created more of an image of stability and permanency.

With the continued growth of Lumbee Bank over the past 15 years, there has been a real economic impact in the community. Many businesses were assisted in inception by the Lumbee Bank. With len-

LUMBEE BANK'S

ANNUALGROWTH

ding in the local market, many jobs were created which possibly would not have occurred otherwise.

In August 1977 James Hunt became President of Lumbee Bank. Under Mr. Hunt's leadership the Bank experienced rapid growth from \$5,000,000 to \$10,000,000 in total assets. Mr. Hunt left the Bank in August of 1984 and was replaced by Curtis Pierce as President. Mr. Pierce had begun with the Bank in 1971 as the Bank's Cashier.

The Bank has had customers such as General Motors, Chrysler Corporation, Ford Motors. Dapont, etc. But as with all community banks, the real support has come from the local community.

The Bank has strived to be part of the community by providing a personable service and staying competitive.

The present building housing Lumbee Bank has been

expanded twice and looks to more expansion in the near future. As the surrounding area grows, so will the Lumbee Bank.

Presently the Directors of Lumbee Bank are Arnold Locklear, Chairman; Dr. Martin Brooks; Larry Brooks; Redell Collins; Sybil Bullard; Carl Ricky Jones; and Charles Maynor. Alton

The officers are Curtis Pierce, CEO; James Hedgpeth, Sr. Vice President: Thresia Locklear, Vice President; Linda Chavis, Cashier; Charles Jowers, Assistant Vice President. The management and staff are working towards better quality service, future expansion, and improvement in economics of the communities Lumbee Bank serves. The next fifteen years of service to the Lumbee Bank market will progress at an even greater pace than the

Father And Son From Pembroke Join PSU Chancellor's Club

Father and Son Join PSU Chancellor's Club -- Rev. Charles Wesley Maynor [left] and his son, Charles Alton Maynor [right], both of Pembroke, become the first father and son to join the Chancellor's Club together at PSU. Shown accepting the first of their \$1,000 checks to the PSU Foundation, Inc. is Chancellor Paul Givens of PSU. Chancellor's Club members donate \$1,000 a year to the institution over a period of 10 years.

by Gene Warren Pembroke- Rev. Charles Wesley Maynor and his son, Charles Alton Maynor, have provided a first for Pembroke State University.

They are the first father and son to join PSU's Chancell or's Club together, meaning they pledge to donate \$1,000 a year to PSU's Foundation,

Inc., for the next ten years. The gift by Rev. Maynor, 71, is indeed meaningful because he was the first graduate of Pembroke State when it became a four year college in the 1939-40 academic year. Pembroke state was on the quarter system then, and Maynor completed

quarters. "I finished in March, but was asked to come back in June for the commencement exercises," said Maynor. "Be cause I was the first graduate, they placed me at the front of the line and the others in alphabetical order behind

Rev. Maynor also had the distinction of carrying the golden mace last Sept. 3 for the PSU convocation which launched the University's centennial year.

Charles Wesley Maynor graduated with a B.S. education, while his son, Charles Alton Maynor, earned his degree at PSU in 1963 with a B.S. in mathematics. The younger Maynor later earned his M.A. in Educational Administration through PSU's cooperative Master's program with Appalachian State University during the mid-1970's.

Lowry Music Scholarship at

Sharon Davis, a senior mus

department major at PSU

This father and son represent the 34th and 35th members of the PSU Chancellor's Club, the most supportive group financially of the University.

The senior Maynor, who is serving as interim pastor of Bear Swamp Baptist Church near Pembroke, is a retired teacher, farmer and minister. He said he is providing this financial support to PSU "because my life would have been different had it not been for this institution. I owe so much to it. And in giving to it, I

hope it encourages others to

do the same." Rev. Maynor said oducation opened all kinds of doors for him. His services to the community have included his serving as chairman of the board of the Lumbee Bank for nine years. "When I first went off the board, my son, my place on it," said Rev. Maynor.

The younger Maynor, who is 45, has served as a teacher and principal in the Robeson County Schools system. He is now a member of the

Board of Education. He also served actively in the U.S. Army, went to Officers Candidate School, and has been commanding officer of the U.S. Army Reserve Unit at Pembroke.

While a student at PSU, the younger Maynor was representative to the student government and a member of Who's Who in American Colleges and Universities."

Charles Alton Maynor and his wife, the former Shelia Oxendine, opened Southern Interiors at Pembroke three and a half years ago. They contributed the carpeting for the Braves Club Room at PSU and shared in the next carpeting of the room.

The younger Maynor said that Oceanus Lowry (of Pembroke) came to see him awhile back about providing financial support to PSU. "I told him then that my father and I would like to be the first father and son team to join the Chancellor's Club together. and now we are following through with that commit-

ment," said Maynor. "Education has been an integral part of my life. It is my love--and I want to have some role in the educational program of this area. I'd I'ke to be an example in this regard," stated Maynor.

Rev. Maynor is married to Charles Alton Maynor, took the former Arpie Cummings of Pembroke. They are parents of six children, three of whom graduated from PSU. The ones along with Charles Alton who graduated from PSU are Edith Maynor Taylor of Chesapeake, Va., and Eunila Maynor Locklear of Pembroke.

> Chancellor Paul Givens of PSU, whose gifts to the new Chancellor's Club members included new hard-bound editions of the centennial history of PSU, told the father and son: "We of Pembroke State are delighted that you are joining. This institution has made a great contribution to this area and will continue to do so long after you and I
