Carnell Locklear to Chair Bike-a-thon

St. Jude Children's Research Hospital announced today that Carnell Locklear has agreed to be the coordinator of the St. Jude Children's Research Hospital Bike-A-Thon in Pembroke on November 18, 1989.

St. Jude Children's Research Hospital was funded by entertainer Danny Thomas. The institution opened its doors to the public in 1962 to combat catastrophic diseases which afflict our children. St. Jude Hospital is non-sectarian, non-discriminatory, and provides total medical care to all patients.

At St. Jude, scientists and physicians are working side by side seeking not only a better means of treatment, but also the causes, cures and prevention of these terrible killers.

All findings and information gained at the Hospital are shared freely with doctors and hospitals all over

the world. Thanks to St. Jude Hospital, children who have leukemia, Hodgkin's disease, sickle-cell anemia, and other child-killing diseases now have a better chance to live.

The Bike-A-Thon program this year is dedicated to Ellen Marie Haynes, a five-year-old solid tumor patient at St. Jude Children's Research Hospital.

Ellen developed a malignant tumor in her abdomen which was diagnosed in June 1986. After treatment at St. Jude Hospital, which consisted of surgery, radiation and chemotherapy Ellen Marie was taken off all therapy in January 1987. Although she isn't cured of her cancer yet, as long as she has people helping her through the Bike-A-Thon program, there is always hope. Ellen Marie is a living example of the research, patient care and educational programs of this internationally recognized hospital.
