## The Work of the Court

The quality of justice in Robeson County will be no better than the quality of its District Courts. Thousands of citizens have important issues resolved each year in those courts.

Better courts demand judges willing to work hard and be fair. For years, T. Diane Phillips has been working long days and often long nights fighting for her clients in all types of cases. As a judge, she will only redouble her efforts to elevate the level of justice in our county.

On May 3rd elect a judge who understands that courts work only when the judge works.
