THERE'S A FINE LINE BETWEEN THE 20TH CENTURY AND THE 21ST. IT'S CALLED IRS e-file for Business.

In the 21st century you run your entire business electronically. So why not file your business taxes the same way? Now business taxpayers and tax preparers can file by phone, by Internet or by PC software. It's more economical with less paperwork. It's more efficient with increased accuracy. And it's more effective since you'll spend less time filing tax returns and more time focused on your business. If you're a business taxpayer, ask your tax preparer about e-filing. If you're a tax professional, ask your software developer about enabling your programs to take advantage of electronic filing. And to find out more about what life looks like on this side of the line, visit www.irs.gov. File Smart. File Electronic.

E-FICIENT. E-EFFECTIVE. E-ECONOMICAL.

Play it Safe

"It's all fun and games until someone loses an eye..."

That's what your parents told you when you were a kid. Shouldn't you tell your children?

Each year thousands of children suffer unnecessary sports-related eye injuries — bruised eyes, scraped or torn corneas, detached retinas and eye hemorrhaging.

Vision Council of America, a nonprofit trade association representing the optical industry, wants parents to know that wearing protective eyewear can prevent or lessen the severity of most eye injuries.

Talk to your eyecare professional about protecting your child's eyes. Safety standards do exist for many sports and your eyecare professional will be able to help you find the eyewear appropriate for your child's activities.

For more information, talk to your eyecare professional or visit the consumer area of VCA's Web site, www.visionsite.org.
