

EDUCATIONAL LOAN FUND CONSTANTLY INCREASING

Since 1903 Money Available For Building and Improving Schoolhouses Has More Than Doubled—Many Counties Have Taken Advantage of Law.

(Special to Daily News.) Raleigh, April 14.—A statement from the state department of education on the status of North Carolina educational loan fund, set aside by the legislature for loans to school districts through the counties, more especially for improving schoolhouses, shows that the fund has grown since 1903 from \$200,000 to about \$425,000. The first loans by the state board of education, which must approve all loans, were in August, 1903, and aggregated \$29,691. Since that time loans have been made in 69 counties, aggregating \$323,230.60. These loans have been in aid of 1,109 districts, having 159,175 children of school age and have resulted in the building of 935 new school houses, the value of the new houses erected being \$1,256,788. These took the place of old houses that were valued at only \$155,601. These loans are thoroughly safeguarded so that there is no possible chance of any losses, the loans being secured by notes of the county boards of education. These loans are repaid in ten annual payments of interest and principal payments of principal. The fund is increasing constantly from the interest derived from the loans and from the sale of swamp lands all of which goes into this fund.

PIE HUNTERS SEEK RELIEF FROM GREAT ANXIETY

(Special to Daily News.) Raleigh, April 14.—With reference to the appointment by Governor Kitchin of a successor to E. R. Jones as judge of the Eleventh district of the Superior court, resigned, the point has been raised that the governor cannot legally appoint a successor until the vacancy actually occurs. The resignation is not effective until May 7, therefore, according to this issue raised the governor cannot appoint until this time. Others think, however, that the governor could at least indicate the appointment he intends to make and put an end to the strenuous contest that is now on for the appointment. This course may be taken, and there is a strong impression here that there will be a settlement of the contest very soon, at least by the governor indicating his choice, the commission to be issued May 7.

CITIZENS ASK EXECUTIVE CLEMENCY FOR WINNER

(Special to Daily News.) Wilmington, April 14.—There is no new development in connection with the sensational affidavit of M. L. Winner relative to prohibition violations, except that some 50 citizens have signed a paper to the effect that they would like to see Winner's sentence changed to a fine, in view of his so-called "confession and exposure," and this paper will be presented to Judge Cooke, who will be asked to sign a petition to the governor requesting executive clemency. What Judge Cooke will do in the matter is not known. Rumor has it that Winner says he has no further statement to make, and prohibitionists say they will not give their moral support in the effort to keep off the roads unless he produces something tangible against the "tigers." The matter continues to be uppermost in the minds of the people here and further revelations, if there be any, are awaited with intense interest.

S. C. TRIMS "QUAKERS"

Sand Lappers Put It on Guilford Boys in Fine Game—4-1.

Too much Tillmanism was responsible for the defeat of Guilford college at the hands of the University of South Carolina yesterday afternoon, the final score showing four runs for the "Palmettos" and one for the "Quakers." The victory was decisive and clear cut, the fiery scrapper and loud mouthed methods of the disciples of Tillman and South Carolina completely routing the home boys, especially in the fourth, when strategy that would have made even the Hunk York Yellers green with envy was displayed by the "Sand Lapper" batters. In brief, the visitors were in the game from the word go, full of ginger and determination and never showing the "lagging" spirit that has cost Carolina colleges so much in the past. Artistically the game was the best of the local season and varied to such an extent that the lovers of every style of play got something out of it—kidding, there was plenty of it—pepping—well, Stewart was there for one, and Mr. Belser, of South Carolina, has a peg, an exact duplicate of the Guilford star—and interposed with it all was some good inside baseball and fielding. The stellar roles of the day easily went to Stewart and Harper, the former Guilford's midget catcher and the latter the twister for the visitors. Others who should be accorded honorable mention were Simpson and Belser, of South Carolina, and Doak and Barnes for Guilford.

The South Carolinians started the scoring in the third, when Pitcher Harper lead off with a two-bagger to center and advanced to third on Watt's neat sacrifice. Foxworth hit to Ferree and Harper scored, though Stewart relayed the ball to first in time to catch Foxworth. In the fourth the Tillmanites pulled off some pretty baseball work and incidentally chalked up two more runs. Wideman walked, McMillan bunted and Whitaker, Nelson and Benbow vied with one another in pulling off the most ludicrous errors, while Wideman was romping around the paths. Simpson doubled and McMillan scored, Havard fanned and Waring hit to Doak. Simpson nailed at third, Harper registered his second hit, but it went for nothing, as Waring was caught "anozing" at second.

The fourth and final run for the visitors was made in the fifth when Watts went to first while Ferree was coming gating. Foxworth bunted and nobody went after the ball, all safe. Belser fanned, but Watts scored on Wideman's drive to center. The "Quaker's" lone score came in the sixth when Benbow lifted a neat single and Barnes followed with a drive to the fence, registering Benbow and anchoring himself at second. Whitaker and Moore followed with easy outs. Several other times the home boys had fine opportunities to score, but Pitcher Harper somehow or another always refused to give up a hit at the proper time.

The box score shows what each man did individually:

ONE CONDUCTOR WHO WAS CURED. Mr. Wilford Adams is his name, and he writes about it—"Some time ago I was confined to my bed with chronic rheumatism. I used two bottles of Foley's Kidney Remedy with good effect, and I resumed work as conductor on the Lexington, Ky., street railway. Card, director of the gymnasium, left last Monday to join the baseball team at Spartanburg. Prof. Brooks, of the department of education, has returned from a trip to Little Rock, Ark., where he has been attending the Southern Educational meeting. Last Thursday the "scrubs" went to Roxboro, where they were to play a game of baseball, but just as the game was being called a terrific rainstorm came up, which prevented the game being played. They are planning a trip through the western part of the state for the latter part of the month "Big Bob" Gantt, who was ruled off the first team by the S. I. A. A., is doing the twirling, and has a strong team to back him up. The class baseball teams have been making good use of the team's absence and have been putting in some good practice. The Sophomores will play the Freshmen, and the winner will play the Juniors for the championship. The game will probably be played within the next two weeks. Dr. and Mrs. J. R. Paddison left Monday for their home at Oak Ridge, at last spending several days visiting Mrs. E. C. Brooks.
