

S. S. S. CURES OLD SORES

Every old sore comes from some kind of impurity in the blood. It remains an open, discharging place on the flesh because the circulation constantly deposits into the fibres and tissues which surround the spot, the infectious matter with which the blood is contaminated.

WOMAN'S LONG TRAMP FROM TEXAS TO WASHINGTON

Washington, April 28.—Mrs. Sadie Orutt was a woman as the champion long-distance woman pedestrian will continue her journey on foot from Sherman, Tex., to Clear Lake, Cal., as soon as she is able to leave the Washington Asylum hospital, where she is now under treatment. Mrs. Orutt, who says she is a Texas native, and whose stage name is "Maui Hallard," arrived in Washington Saturday night.

With the exception of a few miles in North Carolina, where she was given money to pay railroad fare, she says she has walked all the way from Sherman, a distance of about 2,000 miles, where the theatrical troupe with which she was traveling disbanded for financial reasons. She decided to walk home, and while Clear Lake is about the same distance from Sherman as Jacksonville, Fla., she preferred the latter route.

Other members of the company, including her husband, went the other way. "But I preferred to come through Florida."

She was almost physically exhausted from her long tramp. Mrs. Orutt was met by a policeman of the South which she crossed the highway bridge. Being without funds the policeman had her sent to the house of detention, but her condition was such that the physician who attended her recommended hospital treatment. She will probably leave Washington asylum in a few days.

"I left Sherman last November," she said. "It has been slow going, but I was determined to reach home, and when the show broke up I decided to start out and walk. Of course I have stopped several days in almost every town, and it will probably be Christmas before I reach Clear Lake."

"I will be all right again in a few days. I have managed to get enough to eat without much trouble, and most of the time I have found a place to sleep, although some nights I had to lay down on the ground along the roadway."

Mrs. Orutt says she has enjoyed the tramp, as it has given her an opportunity to see the country.

SUMMER COURSE FOR THE NATIONAL TRAINING SCHOOL

(Special to Daily News.) Durham, April 28.—The bulletin for the summer course at the National Training school has been issued and, to guarantee the school, the workmen have about made the framework for the first permanent building.

It is to be used as an auditorium for the summer school and will be good for all future purposes. By completing it there will be guarantee of many of the conditional gifts which have been made to the institution when it showed that it is a certainty. These will undoubtedly come. There are now more than 100,000 bricks on the grounds ready to be put in a permanent auditorium and a dormitory as soon as the plans have been given the contractor.

The summer school course will continue from July 5 to August 13, and the best colored educators will be there. The lecture series has some wonderful attractions. Some of the biggest preachers and teachers in the entire country will be on the program.

Dr. James E. Shepard, president of the institution, has secured Governor Glenn for one whole week north. The ex-governor will speak at Newark, N. J., June 2; in Springfield, Mass., June 3; and at Rockville, a New York suburb, June 4. All of these dates are to be in the interest of the school and will be Presbyterian rallies. There will be several others in the following week, and Governor Glenn gives from June 2 to 8, inclusive. His service to the school, a novel plan of uplift through the colored ministry, is considered the best that Dr. Shepard has played. Governor Glenn has made a return Newark before when making temperance speeches.

HORACE WHITE WILL SUCCEED GOVERNOR HUGHES

New York, April 28.—Horace White, lieutenant-governor of New York, who will become governor when Governor Hughes resigns to go on the Supreme court bench, was born in Buffalo on October 2, 1863. He is the son of Horace K. White and a nephew of Andrew D. White, once president of Cornell University and afterward ambassador to Germany.

Mr. White's family went to Syracuse when he was four years old, and there he prepared for college, entering Cornell, where he was graduated with honors in 1887. He took prizes in oratory in both his junior and senior years.

After studying law in the office of Senator Frank Hitchcock for two years, he finished his legal education with a course in the Columbia law school, and was admitted to practice in 1890. He soon formed a partnership with Harry F. King, the managing clerk in Mr. Hitchcock's office, and, after Mr. King's death, in 1893, with Jerome L. Cheney.

At the age of 21 Mr. White took an active interest in politics, and in 1885 he was elected state senator, being the youngest man in the senate. He was re-elected in 1888, 1890, 1902, 1904 and 1906, each time by a large majority. While in the senate Mr. White served on several important committees and was chairman of the cities committee. He was first talked of as a possible candidate for lieutenant-governor in 1900. In 1908, when Governor Hughes was re-elected, Mr. White was elected lieutenant-governor.

Nature's Gift from the Sunny South

Cottolene Is Not a Substitute for Anything

No animal product, such as hog lard, ever has afforded, or ever can afford a satisfaction to compare with Cottolene. It is far superior to lard because it contains no hog fat, and its purity is unquestioned. It is more economical than butter for shortening and frying because, being richer, one-third less is required.

Cottolene is made from cottonseed oil, a fluid extracted from the seed of purest cotton. From Cottonfield to Kitchen—human hands never touch the oil from which Cottolene is made.

Pies, doughnuts and cakes cooked with Cottolene can be fearlessly enjoyed by the most determined dyspeptic, for Cottolene makes food digestible as well as palatable.

There is no substitute for Cottolene, because there is no shortening as good as Cottolene. It is pure, clean, neutral in taste and flavor, and absolutely the purest and most healthful frying and shortening medium.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

NEGROES WITH SMALLPOX PUT OFF AT FAYETTEVILLE

Fayetteville, April 28.—Two cases of smallpox have been discovered in Fayetteville. Yesterday two negro men, Charles Smith and Charles Davis, were found on a railroad platform near the county jail, sick with the disease. Sheriff N. A. The sick men say they were laying rails for the Atlantic Coast Line near Tomahawk when, becoming sick, the foreman yesterday put them on a passing freight and told the conductor to put them off at Fayetteville, which he did. A physician for the company, Dr. J. V. McQuigan, now has charge of the sick men and will transfer them to a pesthouse. No danger of infection is apprehended.

Another Heat Coming. (Exchange.)

An Irishman had recently buried his wife. As he sat one evening disconsolate in the doorway of his farmhouse a woman neighbor thought she'd play a joke on him. She came up behind him and covered with a white sheet tapped him on the shoulder. He turned from the ghost with a yell and started off across the fields on a run, followed by the woman. After a short run his breath failed him, and he staggered against a tree-trunk. The woman, still dressed in terrifying sheet, caught up with him here. "Mike," says she, "we had a fine run didn't we?" "Yes," says Mike, with fear in his eye, "and begob, we will have another as soon as I get me wind back."
