WEATHER FORECAST:

FOR NORTH CAROLINA-Unsettled,

The H. & W. Dress Form, Style 386, supplies the figure where nature has been less kind to one woman than another, in the matter of endowing her with a good figure.

Where there is little development to create the beautiful lines so necessary in order that she may dress in the prevailing fashion, these are amply provided for in the H. & W. "Dress Form" Corsel Waist.

This Corset Waist is made doubly welcome with the necessity for having a good figure to meet the present and incoming styles.

It forms the figure: it gives the slim woman a bust without requiring her to wait for a natural development, which the wearing of this Corset Waist augments.

It has all the health qualities of a Waist, with all the figure-improving qualities of a Corset.

18-inch to 26-inch waist measure.
