Whether or not Hicks has been made permanent manager remains to be seen.

Will Go After Sugar Trust.

(By The Associated Press.) Washington, June 4. The American Sugar Refining company is one of the so-called "trusts" against which the government probably will proceed eventually under the Sherman antitrust law on the ground that the company is a combination in restraint of trade. The basis of the proposed prosecution largely will rest on the results of an investigation conducted by Attorney General Wickersham and Secretary MacVegh and transmitted to Congress recently by President Taft.

Fire Near Mt. Olive.

(Special to Daily News.) Winston-Salem, June 4. A fire swept over a large section near Mt. Olive, Davidson county, Friday afternoon, and but for the effective work done by a large number of men, the church at Mt. Olive would have been destroyed. Negroes Made Good Enumerators.

(By The Associated Press.) Washington, June 4.—Of the 35,000 enumerators employed in gathering population statistics for the thirtieth census, 12,000 were negroes. They were appointed after examinations and thus he said, a good class of men was obtained.

President Taft is a quiet man, but his civil engineers who deserted his post at the Panama canal for higher pay in New York will testify with bitter breath that though Mr. Taft's ordinary weight may be only 200 pounds his fighting weight is a ton. The insurgents are likely to find before this campaign is over that no man can play double with William H. Taft with impunity. Kansas City Journal.

WILL GIVE DOCUMENTS

Commission Will Publish History Of Those Reputed Bonds.

(Special to Daily News.) Raleigh, June 4.—In view of the continued misrepresentation of the attitude of the State of North Carolina toward the reconstruction bonds, reputed by the state as fraudulent, the North Carolina historical commission will publish an early date, a complete documentary history of all the transactions of the state of North Carolina relative to the issuance and sale of bonds.

This will be one of the most valuable public documents ever issued by the state. It will contain every bill introduced into the general assembly, every report of the committee of the assembly, every message of the governor and all the financial transactions of the treasury department relating to bonds and every other document that can be found that will throw light on the state's attitude toward her obligations. In short, the volume will be a complete history of the bond issues of the state as shown in original documents.

These documents will be collected and edited by a thoroughly competent editor. Notes as well as the explanatory plain text to the reader uninitiated in financial affairs, and an introduction giving in succinct form a plain, unvarnished history of the state's bond issues. A copy of this volume will be placed in the hands of every governor of a state in the union, in every state library and in every important public library. It will thus make available in convenient form for any person who is interested, or may be interested in the bonds of the state, complete and authoritative information on that subject, and will be the state's answer to such disingenuous and misleading statements as that recently issued by the committee for the holders of special tax bonds of North Carolina, and addressed to the secretary of the stock list of the New York stock exchange.

The state historical commission hopes to have the volume out some time in the early fall. The commission believes that this publication will show plainly that North Carolina did not violate its duty as a member of the union and defy the constitution of the United States, as Mr. Carlisle and his associates would have the country believe, in repudiating the special tax bonds, and will make it evident that, instead, as the above committee says, of making "pitious appeals to the local authorities of the creditor states to refrain from taking judgments on the special tax bonds donated to them and thereby bringing about a settlement for the benefit of their citizens," the state might with perfect safety invite the issue. At the same time, in justice to the other states, North Carolina wishes them to understand thoroughly the character of the bonds which the committee of the bondholders are seeking to impose upon them, and this explanation, completely and plainly, this proposed publication of the state historical commission will give.

(Special to Daily News.) Failure of the company to provide a standard implement for handling poles was the alleged cause of the accident. MILLER & CO'S DAILY COTTON LETTER TO TONE & HEDGECOCK. New York, June 4.—The cotton market did not hold throughout today's session, falling within a narrow range from 10 to 15 cents after a gain then for several weeks past. General crop and weather conditions are favorable and quite heavy, with distress from the local stocks are being commonly talked of and promised, and in the situation which is likely to become enthusiastic and continue to favor the negative side of the market. Prices, to our way of thinking, are too high, and are adjustment of commodity values is, we think, in order. Liverpool is due today. MILLER & CO.

THE BEST

S. S. S. SPRING TONIC

Most persons, even those who are ordinarily strong and healthy, need a tonic and blood purifier in the Spring. Some have no particular ailment, but are weak, debilitated and run-down. Winter life with its decreased amount of outdoor exercise, and the fact that cold weather has kept the pores of the skin closed, prevented the proper amount of waste and refuse matter from being expelled from the system. These impurities entering the circulation have thinned and weakened the blood, and the body therefore does not receive a sufficient amount of blood nourishment. The general bodily weakness, tired feeling, sickle appetite, poor digestion, etc., show how anemic the blood has become. Frequently skin diseases, pimples, eruptions, etc., break out and this is evidence of the impurity of the circulation. S. S. S. is the best Spring tonic, because it is the greatest of all blood purifiers. It is the only medicine on which you can rely to supply the system with the needed tonic effects and at the same time purify and enrich your blood. The use of S. S. S. at this time may save you from a long spell of sickness, and it will certainly prepare you for the strain of the long, hot Summer. S. S. S. is made entirely from roots, herbs and barks; it is Nature's tonic, pure and healthful. It regulates digestion, tones up the stomach, improves the appetite and promotes strong, vigorous health. This will be your best Spring season if you use S. S. S. for your tonic.
