In every soul a celestial Venus to every other soul! Bad habits usually result from neglected mistakes.

Even light impressions are lasting if they are perfectly made. Ever see a time when railroad schedules were too convenient?

The world is bright enough if you choose to take it that way. The wise man makes opportunities where he does not find them.

Beyond every dark and angry storm cloud there is light and beauty. Associations have more to do with a pleasant occasion than the weather.

The diamond ring in the outlook soon takes the place of the pearl in the cycle. It is a lucky candidate whose friends all live long enough to vote for him in the primary.

PRESS CONVENTION ECHOES.

Some reflections are met—though a little tardy—concerning the delightful session enjoyed last week at Wrightsville Beach by the members of the North Carolina Press Association and some of their choice friends.

It is not intended to repeat the news of the event, except as it is necessary to recall an act of a deed that will live in the heart and at least deserves to be put in visible form on paper.

And Wilmington, including Col. Jimmie Conner and our old friends, Tom Lawson, Ben Hill and a host of others, big hearted and generous old Wilmingtonians, and their families, were present.

The social side of the benefits arising therefrom was not the least of the pleasures. No matter what may have been the opinions of the editors on national politics and events, there may have been friends and contentions on public questions, but they all met at Wrightsville Beach on common ground.

It may be accepted as a fact that this profession has within its ranks a number of men who are not only good but great. You know what can be done with a pen, but there is a difference between giving and giving out.

There are some quiet moments of life without the slightest ostentation of a quality of indifference, when the term "a base of gold" would be meaningless and meaningless.

THE "BRYAN CAPTIVITY."

What the "Bryan captivity" has meant to the Democratic party is briefly sketched in the following from the High Point Enterprise: The recent revolutions in the national Democratic party shows very plainly that it is coming out from under the shadow of Bryan captivity.

There was a distinct Democratic election. Had the party followed Bryan it would have gone the way of the other American parties which had capitulated in the younger days of the Republic. The Federal, the Waag and the United Nations parties.

The Democratic party in the past has been and is being changing every day of its being, ranging after strange and false nostrums, and policies changing only when an idol breaks. It will never succeed because it is too weak.

When we think of an innocent, honest man like President Taft being a Republican, we are almost persuaded that Republicanism is more of a disease than it is a crime. And when a Republican reads a statement like the foregoing, he should be more charitable than angry.

It is not unusual to see a man who has been elected to the Senate and who has served for a long time, and who has been re-elected several times, and who has been re-elected several times, and who has been re-elected several times.

HOSTETTER'S CELEBRATED STOMACH BITTER. In selecting a medicine for Indigestion, Dyspepsia, Costiveness, Malaria, Fever and Ague, merit should be the first consideration.
