WELCOME TO ROOSEVELT WILL BE REMARKABLE

From Every Corner of the United States, As Well As From Canada and Mexico, Will Come Visitors to Greet the Ex-President.

(Special to Daily News.) New York, June 13.—When Colonel Roosevelt arrives in New York harbor at 9 a. m., Saturday, June 18, he will receive the most remarkable welcome ever accorded a private citizen in the United States. The city, not content with pouring its huge throngs along Broadway and Fifth avenue, will begin the welcome down the bay, where hundreds of steamers, yachts and craft of every description will roar a steam-voiced salute, while bands play and the multitude shouts itself hoarse.

From every corner of the United States and even from Canada and Mexico will come thousands of visitors to add their voices to the tumult when the Kaiserin Augusta Victoria, on which the former President and his party are passengers, casts her anchor at quarantine. Foremost among the boats to meet Colonel Roosevelt will be the revenue cutter Manhattan with Roosevelt's relatives aboard. Close at her stern will be the cutter Mohawk, carrying two representatives appointed by President Taft to meet the famous hunter, scores of congressmen and representatives, governors of states, and members of embassies, who will go down the bay in an official, and prominent citizens from every state in the union.

Colonel Roosevelt will leave the Kaiserin and board the revenue cutter Antrim, which will have Mayor Gaynor's reception committee on board, and followed by a great flotilla, the cutter will proceed up the bay and past the battery to Fifty-ninth street, where it will turn and half an hour later land at pier 8. Here, on the broad lawn of Battery Park, where upwards of 250,000 persons can witness the ceremonies, Mayor Gaynor will receive the distin-

INTEREST IS AWAKENED

Test Farm Work Has Shown Highly Satisfactory Results. (Special to Daily News.) Raleigh, June 13.—It is interesting to note that in the local test farm work under the direction of the state board of agriculture, through which county commissioners designate sufficiently public location, and provide the cultivation, and the state department provides the expert supervision, to demonstrate various methods in the cultivation of various crops, the greatest interest is being awakened, and fine results are being attained.

LOCOMOTIVE ENGINEERS HOLD MEMORIAL SERVICE

Spencer, N. C., June 13.—The Brotherhood of Locomotive Engineers held their annual memorial services at Spencer Sunday afternoon when a large congregation of railroad men and their families heard a splendid address by Rev. R. E. Steele, pastor of Spencer Presbyterian church. The address was addressed especially to the members of the B. of L. E., about one hundred of whom were present. Dr. Steele chose as his theme "let brotherly love continue" and spoke in a most instructive and enterprising manner upon three things, faith, duty and death. He referred to the 24 engineers whose names were displayed in the auditorium on placards, as men of great courage, virtue and fidelity to duty, saying we should emulate their good traits of character. No man, said the speaker, exercises greater faith than the locomotive engineer, trusting as he does, the track, the wire, the signals and equipment; then why not trust God? Referring to duty, the speaker declared that this word contains a greater power than the shrinkings of human nature and illustrated by numerous examples. Of the 24 men whose lives were commemorated by the service 12 of them died at the post of duty on the engine cab. Their names included in the roll of dead: P. M. Arthur, A. B. Youngblood, T. S. Ingram, A. Adams, G. L. Bodenhamer, Sebron Perry, W. J. Kinyon, C. E. Holton, J. A. Holt, C. E. Hall, J. D. McCormick, Owen Norvell, T. V. Owens, R. O. Puryear, F. D. Crafton, D. S. Davis, J. B. Frazier, T. J. Jewell, C. R. Kinney, G. C. Kinney, W. C. Parker, J. W. Rippey, E. E. Shepherd, and A. P. Satterfield.

Dr. Steele admonished his hearers to face death like men with a faith that brings joy and conscious acceptance with Christ. He said that the engineers had chosen wisely when they named their order after a great brotherhood which means more than word union, strong as it is. He urged the members to cultivate the habit of bearing the burdens of others and thus enjoy the pleasures of their fellow men. Those present were admonished to bow their heads upon the living, expressing the highest motive of love for their companions.
