

Should Have Good Light for Studying

A poor light strains the eyes, and the injurious effects may last for life. An oil lamp is best. The light from the Rayo Lamp is soft and mellow. You can read or work under it for hours without hurting your eyes.

The RAYO is constructed scientifically. It is the best lamp made—yet inexpensive and economical.

Lamp, made of solid brass—nickel plated.

Lighted without removing chimney or shade. Easy to clean and rewick. Made in various styles and for all purposes.

THE CITY IN THE CLOUDS.

Dear Children:-

Strange things indeed I have to tell tonight I am miles on miles up in the coulds, spending the night as the guest of the King of the City in the Clouds, I wonder if you ever heard of this beautiful city, if not, I will tell you.

You have heard of a mirage, the strange sight that is sometimes seen by desert and by mountain travelers; the desert wandeter looks up and sees palm trees, green grass and sparkling water, the mountain climber sees a beautiful city with towers of shining gold and roofs glittering like diamonds. Now it is very well known that nowhere near these travelers are either paim trees or cities and so some unkind scientific men have claimed that it is the reflection of these things many buildred miles away, cast on the clouds.

Santa knows better, for hours the airship skimmed along the coast of this beautiful land-tall palm trees hung over the brink, sweet brooks fell tumbling over and over into the sea of surrounding cloud and finally the beautiful city came in view round on a silver bay. The King, who is some kind of a Mormon and is the father of a great many lovely children all with hair of gold and teeth of pearl, came out in a great purple sailed barge to invite me to spend the night, and here I am.

The King is up to date, he has aerial communication with both the earth and the planet Mars and that is why I am talking to you tonight.
