GAINS IN CHICAGO STOCKS

(by lessed Wir in Daily News.)

By C. B. EVANS.

(Chyright, 1921, by Philadelphis Public Ledger.)

Chicago, Nov. 5.—When the heart misses a beat the body does not die. The suspension. of financial performance in New York because a mayor is in process of election leaves the Mississippi still flowing and the long of the Rocky mountains still in the sky. If may be assumed also that Chelsea in as lively as over.

We have in this city today marks quoted at a shaving over a third of a cent, sterling at 2.96, frames 7.25 and lire at 4.20. These figures come from London, where there is no mayoraity election, and converted into American funds. We have also local quotations and fond and foolish people still chassing the mark in the hope of finding a pot of gold somewhere in its ioner. We have also that world medium of exchange, wheat, performing its function and a feeling a little better than heretofore as indicated by a moderate advance in price.

But more especially are we all in-

heretofore as indicated by a moderate advance in price.
But more especially are we all interested in the local security market. Those things that have heretofore been rising are rising still in utter disregard of the leadership of New York Formarly few dared to trade on the local exchange unless New York was ticking prices into their ears, and accordingly a shutdown in New York meant suppression of business in that line.

meant suppression of business in that line.

An interesting incident is the advance in Middle West Utilities preferred to 49 bid. It has been strong above 47 latterly, but these prices compare with 24% January 3, 1921, and 22 at the low in 1929. The reason for the rise is, first, a prosperous condition of the property, and, second, the recasting of its finances, including the acquisition of new capital and a plan under which dividends were resumed, 2 per cent for one year, then 4, 5, 6 and 7 in succeeding annual payments, with 1 per cent extra if over 45 per share its paid on the common in any years. It was war that caused the suspension of dividends on this stock in 1918. Under the read-justment plan the stockholder has 20 per cent more stock than formerly.

New York, Nov. 8.—In spite of the rather moderate volume of trading disclosed by daily stock exchange transactions recently, the market has shown unmistakable firmness throughout most of the general list; weakness has been exhibited only in rare instances, and positive, huoyancy has made its appearance in an encouraging number of cases. Investment demand continues almost unabated. Tax exempt securities are far above their level of six months ago, and sound investment bonds have advanced materially.

Nevertheless, the situation as a whole is greatly confused, and there is a feeling that caution should be used in following advances. It should be understood that this is far different from the pessimism so rampant a year ago, when discouragement expressed itsely.

of cases. Investment demand continues aimost unabated. Tax exempt securities are far aboye their level of 8tx months ago, and sound investment bonds have advanced materially.

Nevertheless, the situation as a whole is greatly confused, and there is a feeling that caution should be used in following advances. It should be used in following a feeling that recovery may be delayed to a disappointing date. In November last year grave fears were graces of reparting financial stability. How we merely hear expressions of deubt as to the economic progress toward rehabilitation. The gain in the federal reserve ratio in the last stamonths from 42 to 71 shows that all danger of financial collapse in this country has passed.

Despite our financial improvement however, the situation contains many hemments is mailedjustment in the earning pr-wer between various groups, such for instance the drivers of New York milk wagons receiving an average of \$42 per week, or more than \$1000 per year, while the owner of a fair sized dairy farm probably is poperating at a loss. WHEAT MAKES ADVANCE

Some Renewal Of Transatiantic Baying and Receipts Fall Off—Wheat Clores 1% To 1% Up—Corn and Oats Gain. Provisions Rule Lower.

Provisions Bule Lower.
Chicago, Nov. 8.—Bullish sentiment became more apparent in the wheatmarket today than for a considerable time past. Some renewal of transatiantic buying of United States breadstuffs, together with falling off in receipts, helped as a stimulus toward confidence. The fiolish, although unsettled, was 1% to 1% net higher with December at 1.04% to 1.04% and May 1.09% to 1.09%. Corn gained & to 1% 9:1% cents, and oats % to 2% cents, in provisions the outcome varied from 17 cents decline to 5 cents advance.
