

PASSAGE OF TAX BILL BOOSTS STOCK MARKET

Strength First Displayed in Oils and Later Spreads to the General List. MARKET IS A BROAD ONE

(By Leased Wire to Daily News.) (Copyright, 1921, by Philadelphia Public Ledger.) New York, Nov. 9.—Today's stock market had more of the earmarks of old time bullish activity than any session of the present year.

Among the industrials heavy buying made its appearance in the motors, with the Transcontinental in General Motors an outstanding feature.

Trading in General Motors was on an enormous scale. After selling at 12 1/2, the stock was offered in blocks up to 3,500 shares each, under which it declined to 1 1/2.

The most impressive movement of the last hour of trading was that of United States Steel. A block of 1,400 shares was taken at 41 1/2.

There were some laggards in the day's trading. United Retail Store and Tobacco Products both met substantial offerings on each rally during the week.

STOCK QUOTATIONS RISE

Large Buying Orders Sent Prices of Oils, Steels and Kindred Shares Appreciably Higher—Mexican Petroleum Leads Market—Shorts Squared.

New York, Nov. 9.—Large buying orders from speculative sources came into the stock market over the election day recess and prices of various popular issues, especially oils, steels and kindred shares were substantially enhanced.

The bond demand for oils was materially assisted by more advances for the crude products in almost all parts of the country, particularly Texas, Oklahoma, Louisiana, the middle west and other large producing centers.

In the case of Mexican Petroleum, however, which dominated the market at a net gain of 7 1/2 points, the movement was based mainly on technical conditions, the shorts paying heavy toll.

Shares of concern which may reasonably be expected to be increased by increased business, such as the department stores, also strengthened, but to a lesser degree.

Liberty and most other active bonds were in demand, the market showing a marked trend. Total sales, par value, \$1,100,000.

Closing Stock List. Alcoa C. and D. 12 46 1/2, 46 1/2, 46 1/2. Am. Beet S. 2 28 1/2, 27 1/2, 28 1/2. Am. Can 11 1/2, 11 1/2, 11 1/2.

COTTON LOSSES HIT TO 121 POINTS AT NEW ORLEANS

New Orleans, Nov. 9.—The one influence in cotton today was heavy buying and it cost prices 117 to 121 points, the market closing at practically the lowest of the day at 15.92 for December and 15.47 for July, new low levels for the downward movement which has been underway for some time.

The total of 6,646,126 bales ginned to the first of November, according to the report issued by the census bureau on the opening, compared with general expectations of not more than 6,300,000 bales, but its real bearingness is in the fact that it is 100,000 bales higher than the crop estimate made some time ago by the department of agriculture.

COTTON PRICES TUMBLE

Break of About One Cent a Pound Follows Gaining Report Showing 6,646,126 Bales—Close Steady at Loss of 25 to 100 Points.

New York, Nov. 9.—The census report showing 6,646,126 bales of cotton ginned up to November 1 or about 100,000 bales more than the total crop estimate of September 25, was followed by a break of approximately a cent a pound in the cotton market here today.

The market opened easy under a decline of 25 to 28 points and sold off sharply and there were some heavy selling pressures from local, southern and Wall Street sources.
