### STATE FEDERATION NOTES

By NELL BATTLE LEWIS

Raleigh, Nov. 12.—The meeting of the council of the North Carolina Federation of Women's clubs will be held in Rocky Mount November 29-30 and December 1, with the Rocky Mount Woman's club as hostess, according to official notice issued last week by Mrs. W. Brooks Parham, of Henderson, corresponding secretary of the Federation.

The opening session will be held Tuesday evening. The meeting of the executive board will be Wednesday morning at 10 o'clock. The council meeting will be at 10:30 and the meeting of the Board of Trustees immediately after luncheon. At some time during the meeting, Mrs. John Gilmer, chairman of districts, will have a conference for District Presidents.

The club women of Rocky Mount, of whom Mrs. L. D. Bullock is president, are very much interested in this meeting and are making elaborate plans for the entertainment of their guests.

Activities at Kinston.

Mrs. J. W. Goodson and Mrs. Charles Mangum entertained the Music Department of the Kinston Community Club

### BLACKHEADS GO QUICK BY THIS SIMPLE METHOD

Blackheads—big ones or little ones—soft ones or hard ones—on any part of the body, go quick by a simple method that just dissolves them. To do this get about two ounces of calomine powder from your druggist—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly for a few seconds—and wash off. You'll wonder where the blackheads have gone. The calomine powder and the hot water have just dissolved them. Pinching and squeezing blackheads only open the pores of the skin and leave them open and unsightly—and unless the blackheads are big and soft they will not come out, while the simple application of calomine powder to any part of the face and if you are troubled with these unsightly blemishes you should certainly try this simple method.

at Mrs. Gordon's home recently. The club is devoting its time this year to the study of musical instruments and the program for the day was the continuation of the study of the piano.

Mrs. Ira Hardy gave an interesting paper on "The Greatest Living Pianist." Mrs. Charles Mangum told of the wonderful progress that manufacturers are making now in perfecting the mechanical piano.

The round table talk on "The Care of Pianos" afforded much interesting discussion, and everyone felt that she had gained some fine practical knowledge for home use.

Selections from Hoffman, Rachmaninoff, and Paderewski were given by Mrs. Simon Sitterson, Mrs. V. Mosely and Miss Ruth Pittman. The program was followed by a social hour.

This report was sent to the Federation Publicity Bureau by Mrs. Charles V. Mangum.

To Celebrate Birthday.

The Charlotte Woman's club will soon celebrate the first birthday of the new club house. The New Year's reception last year which was the night of the opening of the club house was a most memorable event for all Charlotte club women, because for the first time in their history, they were in their very own "home," and one well worth being proud of. While the sum of \$5,000 was all the club paid for the property, it is easily worth twice that amount, and it was only through the generosity of A. J. Draper, the owner, that the club women were able to get it at that figure.

Since the purchase the Charlotte club women have left no stone unturned in their efforts to cancel the debt. Almost every form of entertainment by which many or a few dollars could be made has been put over, from the "Womanless Wedding" to serving luncheons at the recent "Made in Carolina Exposition." Nothing has seemed too hard for the loyal club women of Charlotte to do, and they are now working hard to put on a big bazaar in the auditorium in December, the like of which has never been held before in Charlotte. There will be the booths of many nations, in which articles of

every description may be obtained for Christmas gifts. The evenings will be enlivened by vaudevilles of the highest order, and there will also be dancing and concerts.

Departments Are Busy.

The literature department of the Charlotte Woman's club, of which Mrs. Hugh Murrill is the chairman, was delighted recently by a visit and lecture by Mrs. S. E. Everett, the state chairman of literature, whose charming personality and interesting address captivated her hearers.

The civic department under the able leadership of Mrs. W. T. Shore is making a wonderful success of its work. The citizenship class is handling such important subjects as "The Meaning of Woman's Part in Government," "Woman's New Responsibility," "Government and Community problems of City, County and Village."

With all the serious side of club life, Charlotte club women will find time for the artistic and the aesthetic. There is a treat in store on November 24 when Miss Helen Day, the chairman of music (Trebble Clef) will present "The Perlan Garden." Those who know Miss Day and her wonderful ability realize what a pleasure is ahead for those who attend.

There will be an art lecture given on November 21 under the direction of Mrs. W. B. Hodge, the new art chairman of the Charlotte Woman's club. The lecture will be given by John Pennell, an artist of international reputation, his pictures appearing in many of the European galleries. There will also be an exhibit of watercolor paintings from Southern landscapes by Charlotte Hugely Smith.

This report of the activities of the Charlotte Woman's club was sent to the Federation Publicity Bureau by Mrs. Charles Edmond Platt.

Women's News Service.

An interesting communication in regard to the newly organized women's news service has been enclosed in a letter from Miss Margaret Lovell Gibson, of Wilmington, general federation director for North Carolina, to the publicity chairman.

Miss Gibson in her letter calls attention to the fact that although the recommendations by the general federation and the state federations did not succeed in securing the appointment of Mrs. Winter, president of the general federation, to seat in the council on the Limitation of Armaments, she has, however, been appointed by President Harding as one of the four women on the council's advisory committee of 25.

### GERMAN PONZI VILLAIN IN A NEW SCREEN PLAY

The Film Is Designed As a Warning To Easy Marks Who Want To "Invest."

(Copyright, 1921, by Philadelphia Public Ledger.)

Berlin, Oct. 27.—It is not enough that Max Klante, the Ponzi of Germany, became famous for cheating his customers out of more than one hundred million marks, but even more is done to spread his name over the world by making him the hero of a film to be produced here.

The Max Klante film is one in a series of plays called the "Secrets of Berlin," and will tell those who have not yet learned it by the in own losses about the dangers of the betting-bank system. The film is to serve as a warning never to trust one's hard-earned money to any stranger, even if he should promise—as Max Klante did—to double it every month by betting on the race tracks, according to an infallible system.

Now that the frontiers are open again to the German movie world it is sending out numerous expeditions into all countries. Only recently Paul Jacoby, manager of the May Film company, returned from a tour through Italy, Yugoslavia, Greece and Asia Minor with his actors. Encouraged by this successful trip, he is planning a journey with a number of actors to the far east.

## What Is the Difference In the New Improved Essex?

Time and hard exacting service show the real difference in the way cars are built. The care exercised in building Essex cars is not lavished merely on exterior "selling points." It goes equally into parts you may never examine.

You see and profit by that workmanship in long continued smoothness, efficiency and quietness of operation.

The New Improved Essex retains all the qualities through which the old Essex established its noted records and won the esteem of owners. But in addition are refinements and improvements that will delight and surprise owners of the old Essex quite as much as non-owners.

## It Is a Greater Essex Than That Which Men Praised Thus Highly:—

<b>"50,000 Miles—Never Failed"</b>	<b>"48,000 Miles at Low Cost"</b>	<b>"50,000 Miles of Hard Service"</b>
"My Essex was purchased in March, 1919, and has been driven more than 50,000 miles. My car will average 20 miles to the gallon of gasoline in the city and will give greater mileage in the country. My total repair expense has been less than \$100."	"I have driven my Essex 48,000 miles without replacing over \$25 worth of parts. I get about 17 miles to the gallon of gasoline, and about 120 miles to the quart of oil. It has been more than satisfactory in every way. The best car on the market."	"I purchased my Essex August 23, 1919. I have used the car continually in the rent car service, over all kinds of mountain roads and through the oil fields. I have driven the car 50,000 miles. I ran three original fabric tires 24,000 miles and the fourth tire 28,000 miles."
