Can We Of Greensboro Ever Forget Its Services During Our Influenza Epidemics?

And We Know That These Constitute Only a Part of Its Present Activities!

Shall We Deny It Support?

Greensboro never has—never will, so long as such a record of unselfish service is maintained. That is why we are supremely confident that

Six Thousand Men, Women and Children Of Greensboro Will Answer the Fifth Annual Roll Call

Wednesday, November 23, With "A Heart and A Dollar"

E. S. Wills
Roll Call Chairman

TO BUILD BIG ADDITION TO LORAY COTTON MILL

Will Be Used For the Manufacture of Tire Fabric For Many Manufacturers.

200 NEW FAMILIES ARRIVE

(Special to Daily News.)
Gastonia, Nov. 14.—With the completion of proposed additions to the plant announced today by the Jencks Spinning company, of Pawtucket, R. I., owners of the Loray mill here, the mill will be one of the largest tire fabric manufacturing plants in the world. Of the 707,505 spindles in the Loray mill 80,000 are in operation and more are being run every day as help is secured. One thousand people have come to the Loray village within the past two months.

The addition will be 100 by 145 feet, two stories high, and will join the present building at the west end. It will be of the same type of construction as the present building and is being constructed as one of a series of units which, when completed, will make this the largest single unit plant manufacturing tire fabric in the world. Forty-four thousand square feet of floor space was added to the Loray's equipment recently by means of elevating under a portion of the present building. This is now being equipped with looms, several being installed and put into operation each day. Two hundred and sixty looms will be installed altogether, this number being sufficient to take care of the output of yarn of the mills, a portion of which has heretofore gone to other units of the Jencks company in the east. For some months past the Loray, like many other mills, has been running only a part of its spindles but for the past two months or more additional spindles have been put into operation almost daily, the number being limited only by the mill's ability to secure operatives. Within the past

nine weeks more than 200 families have been brought into the Loray village.

In addition to filling up 200 houses with a family in each house, two of the large new dormitories have been practically filled. Just as fast as they can be secured new families are being brought in and the management expects, within the next week or two, to have the entire spindleage running every day. When this addition is completed and put into operation there will be 1,700 people on the Loray's payroll. This represents a mill village of between 5,000 and 6,000 people.

The fabrics manufactured at this plant are used by practically every tire manufacturer in the United States, entering into every kind of tire from the most expensive cord tires to the cheapest tire. The fabric is shipped from Gastonia ready for the rubber composition, secured near the finishing being done here. In the manufacture of the various types of fabric a variety of cotton is used, ranging from the Arizona staple, which is one and three-fourths inches in length, to one and three-sixteenths, including Sea Island and Egyptian types. From 170,000 to 200,000 pounds of fabric is turned out each week, this amount requiring from 200,000 to 235,000 pounds weekly of raw cotton.

THE OXFORD HIGH SCHOOL TATTLE COMES FROM PRESS

(Special to Daily News.)
Oxford, Nov. 14.—The first copy of the Tattle, a weekly issued by the Athletic association of the Oxford high school has appeared. It is a very creditable issue and reflects credit on the training received by the students. The enrollment of the graded school for the first month shows an increase of 45 pupils over last year's attendance. Many new pupils have entered during the past month.

News has been received in Oxford of the death of James A. Fishbourne, who founded Fishbourne Military school at Waynesboro in 1879. He married Miss Mary Annis, of Oxford, daughter of Mr. and Mrs. James S. Annis. Mr. Fishbourne had been in declining health for five months. Mrs. W. A. Devin has returned from a visit to Greensboro. Miss Marie Frasier spent the week-end at home.

Y. W. C. A. NOTES

Today's subject for the world's week of prayer is "The Joy of Christ." Luke 10:21, Matt. 8:19, John 15:11. Special subjects for prayer are the Americas and the work to be initiated by the Young Women's Christian association of the United States in the Philippines. The Young Women's Christian association is working in four South American countries, Argentina, Chile, Brazil and Uruguay.

At 10:30 o'clock this morning the survey of work being done in the mission fields by the Reformed church will be the program in the series of missionary reviews being given at the hut under the religious work department. The Camawella club will have its regular meeting tonight. The girls will have their supper at the hut at 6 o'clock and after supper will spend some time sewing. After the sewing is put aside, games and recreation will be engaged in for a short time.

The industrial department is anxious to have all working girls join the Tuesday Night club, and feels that if the girls come once they will want to come again.

The student industrial commission will also meet tonight in the hut to begin their study course in "workers' education." This course, the girls feel, will be most interesting and beneficial. The commission is composed of three girls from Greensboro college, three from North Carolina College for Women, one girl from Salem college, Winston-Salem; one industrial member from High Point, and six girls from Greensboro, who represent the different industries here.

ELON COLLEGE PEOPLE HEAR MISSION EXPERT

Rev. W. F. Minton Preaches and Delivers a Missionary Lecture. Other Elon College News.

(Special to Daily News.)
Elon College, Nov. 14.—Rev. W. F. Minton, foreign missionary secretary of the American Christian convention, preached for the Elon congregation here Sunday morning, and at the evening services brought to them an illustrated missionary lecture. The college pastor, Dr. N. G. Newman, presided over the services. The stereopticon pictures in connection with the evening lecture drew a large audience. Rev. Mr. Minton has just completed a tour of investigation of the missionary work in Japan and Porto Rico, and had many pictures showing the various phases of the work in these countries.

Rev. Mr. Minton will leave tomorrow for Danville, Va., where he will speak at the gathering of the North Carolina Christian conference.

Mr. and Mrs. L. Roy Johnston, members of the high school faculty of High Point, spent the week-end here visiting Mrs. Johnston's parents, Dr. and Mrs. W. C. Wicker.

Misses Ruth Hawk, Stella Hendricks and Prof. G. F. Alexander, of the college faculty, spent the week-end visiting Mr. and Mrs. P. F. Myrick at Greensboro.

J. J. Lambeth, H. D. Lambeth and little daughter, Maedel, spent Sunday at Brown Summit with relatives.

Mr. and Mrs. J. F. Reynolds spent Saturday and Sunday here with relatives.

Rev. Ben Williams, of Dunn, and Rev. Will Neese, of Henderson, spent Sunday visiting Mr. and Mrs. M. A. Rietzel.

Rev. J. W. Patton and Mrs. Patton spent the last of the week here with Mrs. Algier Rich.

Mrs. M. A. Atkinson, who has been very ill at her home here, is very much improved.

Mrs. C. A. Hughes is much improved after having undergone an operation at Rainsie hospital, and will soon be able to be brought home.

People Who Eat Yeast for Health

LIKE NEW TABLET FORM—VITAMON—TO INCREASE ENERGY, CLEAR THE SKIN AND PUT ON FIRM FLESH.

Countless numbers of people are now turning to Mastin's VITAMON as a simple, easy and economical way to get the health-giving, tissue-building yeast-vitamins in highly concentrated tablet form. If you are weak, thin, pale, generally run-down or feel lacking in brain power and in ambition, you surely need to get some of these precious vitamins into your system at once. Mastin's VITAMON mixes with your food, helps to digest and supplies just what your body needs to feed and nourish the shrunk-up tissues, the worn-out nerves, the thin blood and the starved brain. Pimples, boils and skin eruptions seem to vanish like magic under this healthful purifying

influence. Mastin's VITAMON will not cause gas or upset the stomach, but strengthens the digestive and intestinal tract and helps to overcome even chronic constipation. So quick and remarkable are the results that complete satisfaction is absolutely guaranteed or the small amount you pay for the trial will be promptly refunded. Be sure to remember the name Mastin's VITAMON—the original and genuine yeast-vitamine tablet—there is nothing else like it, so do not accept imitations or substitutes. You can get Mastin's VITAMON tablets at all good druggists.

Are Positively Guaranteed to Put On Firm Flesh, Clear the Skin and Increase Energy When Taken With Every Meal or Money Back

if it isn't MASTIN'S it isn't VITAMON
