

AGREEMENT ON EXCISE AND SOFT DRINK TAXES

Four Per Cent. Manufacturers' Tax on Perfumes, Extracts, Etc., Are Stricken Out.

LIST OF THE NEW TAXES

Washington, Nov. 15.—Agreement on excise and soft drink taxes was reached today by the house and senate conferees on the tax revision bill. The striking out of the senate proposal for a 4 per cent. manufacturers' tax on perfumes, essences, extracts, toilet waters, and the like, the managers agreed to the excise taxes as finally approved by the senate. They are: Automobile trucks and automobile wagons, including parts and accessories, 3 per cent. Other automobile and motor cycles, including parts and accessories, 5 per cent. Cameras, weighing not more than 100 pounds and lenses for such, 10 per cent. Photographic films and plates (other than moving picture films), 5 per cent. Candy, 3 per cent. Firearms, shells, etc., 10 per cent. Cigar and cigarette holders or pipes, composed wholly or in part of metal, 10 per cent. Humidifiers and smoking stands, 10 per cent. Yachts and motorboats not designed for trade or fishing or national defense and pleasure boats and pleasure canoes if sold for more than \$100, 10 per cent. Works of art, 5 per cent. Excise taxes now in force the repeal of which is agreed upon are: Articles made of fur, 10 per cent. Musical instruments, 5 per cent. Sporting goods, including pool and billiard tables, 10 per cent. Chewing gum, 5 per cent. Portable electric fans, 5 per cent. Moving picture films, 5 per cent. Manufacturers' taxes on soft drinks, to be in lieu of the present levies, were agreed upon as follows: Upon all beverages derived wholly or in part from ferment, 2 per cent. Upon all still drinks (except pure apple cider) 2 cents a gallon. Upon all finished or bottled syrups for use in compounding drinks, 3 cents a gallon. After limiting it to admissions to moving picture shows, the conferees agreed to the senate amendment providing that no admission tax shall be collected where the charge does not exceed 10 cents. The excise profits and transportation tax reports were agreed upon, but this was purely perfunctory, as both house and senate bills provided for their repeal on next January 1.

HAVE ELEVEN JURORS FOR ARBUCKLE'S TRIAL

Five of Them Women, All Housewives. May Complete the Jury For Case By Tonight.

San Francisco, Nov. 15.—The end of the second day in the manslaughter trial of Roscoe C. "Fatty" Arbuckle saw 11 temporary jurors in the box, five of them women. The questions did not differ materially from those asked at the opening of the trial yesterday. Arbuckle remained almost aloof. He did not consult with counsel and at the recess periods remained by himself. There were vacant seats in the courtroom throughout the day, although the crowd in front of the building was larger than yesterday. Gavin McNab, chief counsel, said that there was a possibility of the jury being finally selected by tomorrow night. The women in the box are all housewives and some of them have children, who they said enjoyed the Arbuckle motion pictures.

Says Pile Remedy Worth \$100.00 a Box

"I have had itching piles ever since my earliest recollection. I am 53 years old and have suffered terribly. I have tried many remedies and doctors, but no cure. About 3 weeks ago I saw your ad for Peterson's Ointment. The first application stopped all itching, and in three days all soreness. I have only used one box and consider I am cured. You have my grateful, heartfelt thanks, and may everyone that has this trouble see this and give your ointment, that is worth a hundred dollars or more a box, a trial. Sincerely yours, A. Newth, Columbus, Ohio." Peterson's Ointment for Piles, Eczema and old sores is only 60 cents a large box at the leading drug stores, or by mail from Peterson Ointment Co., Inc., Buffalo, N. Y. Greensboro Drug company will supply you.

Rheumatism

The belief is generally accepted that rheumatism is caused by an acid accumulation in the blood. This acid is a dangerous poison and should be removed. Prescription C-2223 is a compound of medicinal ingredients, so selected and proportioned as to relieve the pain and eliminate the acid poison in the blood. It is a doctor's prescription—was used by him for years in relieving his patients. Prescription C-2223 should be equally beneficial to you. It contains no dangerous or habit-forming drugs. Prescription C-2223, large bottles \$1.00 trial size 50c. Plough's 2223 Liver Pills 5c must be used with Prescription to help eliminate the poisons. Your druggist can supply you. Write The 2223 Laboratory, Memphis, Tenn. for free samples of the Pills, a leaflet, and 1922 Almanac.

Four Powers Accept In Principle and Get To Work on the Details

(Continued from Page One)

ish idea that by limiting the size of the submarines could be tied down to defensive operations in their own home waters. To agree to such a plan, it was said, would be to sacrifice a weapon on which the United States has every reason to rely. As to the suggestion in British circles that submarines are not a proper weapon of naval warfare, the American view is that the use of submarines in warfare is a question aside from that now being discussed. It will be some time before a code of rules to govern submarine warfare, preventing "ranching" without warning" similar barbaric practices in which Germany engaged, may be adopted. Provision is made on the agenda of the conference for that and for aircraft and gas warfare rules. The American proposal are to be thrashed out by sailor men of high degree. On the naval committee to which was referred the problem will sit the ranking naval advisers of the five powers, Admiral Beatty for Great Britain, Vice Admiral De Bon for France, Vice Admiral Acton for Italy, Vice Admiral Kato for Japan and Theodore Roosevelt, assistant secretary of the navy, for the United States. At the suggestion of Mr. Balfour, Mr. Roosevelt will act as chairman.

BRITISH EXPERTS SUGGEST CUT IN UNDERSEA STRENGTH

Washington, Nov. 15.—While Arthur Balfour, head of the British delegation, did not go into details at today's plenary session of the armament conference as to modifications in the American plan desired by the British, it was explained later for the British naval experts that as to submarines they believed that not more than 45,000 tons each in the aggregate in those craft should be allowed to Great Britain and the United States and a proportionate reduction of the allowances of the American program should be applied to Japan. The British naval experts thought, it was said, that the 50,000 tons allowance of the American plan was too large. In addition, it was said, the British experts considered it essential that a limit be put on the size of individual submarines as they said had been "admirably" proposed by Secretary Hughes for battleships. The purpose, it was said, was to confine submarine to purely defensive work and make them incapable of offensive operations. "If you stop building big battleships, you should stop building submarines," it was said. It was asserted that big sea-going submarines especially affected Great Britain's overseas possession. It was emphasized also that Great Britain regarded the submarine "as a very undesirable form of naval vessel anyway, and contrary to the principles of humane warfare, if there is such a thing."

RESOLUTION PROVIDES THAT NAVAL CONSTRUCTION CEASE

Washington, Nov. 15.—Decision was reached at an executive meeting of the committee on limitation of armaments late today to appoint a commission of admirals from each delegation to draft a report on naval armaments. The report will be ready in details under the plan broached by Secretary Hughes, which has already been accepted in principle. The commission will be composed of one admiral from each delegation under the leadership of The Hon. J. P. Morgan, assistant secretary of the United States navy, and will be assisted by the naval technical experts and advisors of the several delegations.

M. A. PAYNE BUYS LAND IN DEEP RIVER, \$4,000

This Tract is Located Near Bascomb Idol's Line On the Old Greensboro Salisbury Highway

A. L. McCallum has decided to M. A. Payne 44 acres of land in Deep River township for a consideration of \$4,000, according to a deed filed here yesterday with R. H. Wharton, register. This tract of land begins in Bascomb Idol's line on the old Greensboro Salisbury road. This was the most important deed, from a monetary standpoint, filed yesterday.

SEEKS WORLD BARE OF COTTON NEXT SUMMER

Senator Smith, South Carolina, Analyzes Census Report—Wants Farmers' Banks. Washington, Nov. 15.—Prediction of a world shortage of cotton next summer was made in the senate today by Senator Smith, Democrat, South Carolina, in a speech analyzing the situation on cotton consumption for October, made public by the census bureau. Should the rate of consumption for the coming month equal or exceed that of October, he said, there would not be a bale of American cotton in existence by next August 1.

FRENCH AND ITALIANS WANT THEIR NAVIES MADE BIGGER

Washington, Nov. 15.—French and Italian navy experts making an intensive study of how limitations to be imposed on the United States, Great Britain and Japan would affect them, came to the conclusion that their naval forces should be increased rather than reduced. The Italian viewpoint, as it prevails among their experts, is that Italy should be permitted to have a navy as large as that of France and in any event on a ratio of eight to 10. The naval question, as it affects Italy and France, is not now under discussion, having been reserved by the conference until the status of the United States, Great Britain and Japan can be disposed of. But, meanwhile, Admiral Dehon, head of the French experts, and Admiral Acton, who occupies a corresponding position in the Italian delegation, are, with their experts, preparing themselves for consideration of the subject. Experts of both countries point out

MINISTERS IN FAVOR OF AN EVANGELISTIC CLUB

Meeting of Most of Greensboro Pastors Last Night Discusses Organization.

LIKE BILLY SUNDAY PLAN

Most of the ministers of the city and a few laymen, meeting in the Guilford cafeteria yesterday evening, considered in some detail the matter of organizing an inter-denominational evangelistic club and decided to ask each church to select three or five representatives and interested laymen, who should meet sometime in the near future and go further into the proposition. There was much interest in the meeting yesterday evening, but it was thought best to delay the matter of organization until more of the laymen could be made acquainted with the work, plans and purposes of the proposed club. E. J. Davis, who presided at the meeting, Chas. H. Ireland and Dr. C. W. Moseley compose a committee who will prosecute the plans suggested by yesterday evening's meeting. Chairman Davis, Rev. Wade C. Smith, Rev. E. P. Billups, C. C. McLean, J. F. Peebles, Rev. R. Murphy Williams, and others took part in the discussion. It was pointed out that there are Holy Trinity, Episcopal, Baptist, and other clubs but none whose sole purpose is to lead men to accept Jesus Christ as their personal Savior through personal work and testimony, and some such organization as the "Billy" Sunday club of Atlanta, Chattanooga, and other places is proposed. Rev. Mr. Smith, who had observed the working of the Chattanooga club, gave an interesting account of its workings, being limited to a membership of 30 men, of every evangelical denomination, it meets every Wednesday at 12 o'clock and spends an hour planning personal work for the coming week, and the results have been marvelous.

SHOOTING SURGEON, KILLS HIMSELF

Montreal, Nov. 15.—Sir Andrew McPhail, eminent surgeon and professor at McGill university, was shot and severely wounded today at his home by Louis Ogulnik, who later committed suicide by shooting. Sir Andrew was rushed to a hospital.

AN ORDINANCE PROHIBITING THE SALE, POSSESSION OR USE OF FIREWORKS. Be it ordained by the city council of Greensboro: Section 1. That sections 441, 442, 443 and 444 of the "ordinances of the city of Greensboro" be, and the same are hereby repealed, and there is enacted in lieu thereof the following: Section 441. It shall be unlawful for any person to have in his possession, or to fire or cause to be fired, within the corporate limits of the city, any dynamite, pop crackers, Roman candles, sky rockets, torpedoes, dynamite canes, cannons, or any other fire works or explosives of any kind or character whatever. Section 442. That it shall be unlawful for any person, firm or corporation to sell at retail within the city any of the fire works or explosives mentioned in section 441, or to sell any such fire works or explosives to any person, firm or corporation to be re-sold or used within the city. Section 443. That the preceding two sections shall not be construed so as to prevent the sale by wholesale merchants of any of the articles mentioned in said sections to merchants whose places of business are outside the city of Greensboro, but so as to prevent the sale by wholesale or retail merchants of explosives to be used for agricultural purposes, hunting or construction work. Section 444. Any person, firm or corporation violating any of the provisions of the foregoing three sections shall be subject to a penalty of fifty dollars for each and every violation thereof. The foregoing ordinance was adopted by the council of the city of Greensboro, November 14, 1921. W. L. MURRAY, City Clerk
