

At the Local Theaters

Death Valley Film Scenes.
 "Death Valley Film Scenes," which will be shown at the Grand theater the last time today is the William Duncan production in which Edith Johnson is co-star. It is an adaptation of "The Princess of the Desert Dream," a novelette by Ralph Cummins which appeared in Snappy Stories.

Some of the most famous locations in California were used, making the production one of scenic beauty as well as of entertaining value.
 The eleventh chapter of "The Miracles of The Jungle," a novelette by Charles Ray, is shown at the Bijou theater last night.

Charles Ray in New Triumph.
 Charles Ray, has scored another screen triumph in "Two Minutes to Go," a corking story of college life by Richard Andre, which began a two day engagement at the Bijou theater last night.

Ray gives an excellent portrayal of a football hero in this admirable First National attraction. The charm and virility which has characterized Ray in past screen successes was never better exemplified than in his interpretation of the role of the college lad, who, through financial reverses, is compelled to quit the team and give his spare time in peddling milk as a means of working his way through school.

The great day comes, however, when Ray saves his team from defeat and transforms a combination of misfortunes into happiness.
 Ray is given excellent support by Mary Anderson, his leading lady, who makes a very charming reverse, is compelled to quit the team and give his spare time in peddling milk as a means of working his way through school.

HOW TO GET RID OF COLDS AND CATARRH
 A Simple, Safe, Inexpensive Method That Clears Out the Head, Nose and Throat.

There must be readers suffering from chronic catarrh who would like to know how they can stop catching cold after cold, for they must realize that sooner or later this may lead to deafness and other serious troubles.

Dr. Blosser, a respected physician, and for years a specialist in catarrh, is the discoverer of a pleasant, direct method that can be used by man, woman and child. His remedy is made from medicinal herbs, flowers and berries which you smoke in a dainty pipe or cigarette, and inhale the vapor into all the air passages. It contains no cubebs, tobacco or habit-forming drugs.

Dr. Blosser's Remedy is effective in all forms of colds, catarrh, asthma, catarrhal headache and ear troubles that may lead to deafness. You will breathe better and feel better after using it. Satisfactory results guaranteed. Any well stocked drug store can supply Dr. Blosser's Remedy.

A trial package containing eight cigarettes will be mailed to any sufferer for 10 cents (coin or stamps) by The Blosser Co., 40 DT, Atlanta, Ga., to prove their beneficial and pleasant effect.

Wilson and the other players also contribute toward the success of this wholesome production.
 Pathe News, showing the burial of America's unknown soldier at Arlington national cemetery, Arlington, Va., November 11, Aesop's Fables and continuous music by the Bijou concert orchestra and symphony pipe organ are the added features again today.

"Three Musketeers."
 Sixteen duels, a man holding up a broken bridge while three riders cross it, the stealing of a queen's jewels, a desperate fight with a conscienceless woman for their recovery, the smashing of one of the greatest intrigues of history—these are but a few of the dramatic incidents in Douglas Fairbanks' sixth United Artists picture, "The Three Musketeers," scheduled for a week's run at the Grand, beginning next Monday, November 21.

History retold in celluloid! That's what is claimed for this feature by the management of the Grand. Based on the marvelous adventures and escapades of the dashing d'Artagnan and three of King Louis XIII's Musketeers, this photoplay unfolds the history of France in the early Seventeenth Century when that monarchy was dominated by the designing and crafty Cardinal Richelieu, a soldier by training but a statesman and churchman only by virtue of intrigues he devised.

Seats are now on sale at the Grand box office. No seats will be reserved for the matinee.
Harold Lloyd At the Isis.
 The management of the Isis has booked for two days one of the best of double programs, Benj. Hampton in "The Killer" and Harold Lloyd and Bebe Daniels in their great comedy, "Pinched."

Melodrama—clean, fine, wholesome, thrilling, fascinating melodrama, and romance—the swinging, sweeping romance of a soldier in distress, abound in "The Killer," one of Stewart Edward White's most recent and most potent stories.

Mr. White met such a character as "The Killer," many years ago, but it was not until recently that he put him into his greatest novel that ran serially in the Red Book magazine.
 "The Killer" was such by nature. Just as Lancelotti was a poisoner by instinct and training and environment, so was Henry Hooper a killer. He was a smooth, oily, cultured creature who planned death while he entertained with a beautiful piano solo of a Chopin nocturne or discussed Henrik Ibsen. His motivating thought in life was killing anything that irritated him, from the birds that sang in his garden and the frogs that croaked in his fountain, to men, women and children who stood in his way.

LOGICAL ADVICE!
 Strike at the root of weakness is logical advice to those rundown in vitality.
Scott's Emulsion nourishes the body, tones the blood and helps build strength.

Men and Business
 By RICHARD SPILLANE.
 On the Road, Nov. 12.—A. H. Woodward, better known as "Rick" Woodward, is one of the big men of Birmingham, Ala. He came into national prominence some time ago when, there being a strike on the Atlanta, Birmingham and Atlantic railroad, he put on overalls, climbed into the cab of a locomotive and acted as engineer for two trips.

Mr. Woodward never asks anybody to do anything he is not willing to do himself. He is chairman of the board of the Woodward Iron company, one of the oldest coal, coke and iron properties in the Birmingham district and one of the directors of the Atlanta, Birmingham and Atlantic railroad. He owns the Birmingham Baseball club, is a golfer and all-round sportsman. He not only attends most of the sporting events of national importance, but usually has a flock of friends to accompany him. The Woodward Iron company has a Woodward club which has its own golf links, officered by employees of the company.

He is extremely democratic. When the Birmingham ball team plays at home Mr. Woodward usually dons a uniform and sits with the players. His son, 12 years old, is in uniform also and practices with the players. Most of the baseballists play golf at the Woodward club links.

Mr. Woodward works hard and plays hard. He is a millionaire, of course, but you'd never know it from his manner. The Woodward Iron company has five blast furnaces, four coal mines, several ore properties and its own railroad between its mines and furnaces. The ore properties are very profitable, as they carry fluxing qualities.

The Atlanta, Birmingham and Atlantic railroad had the distinction of being excluded from the strike list in the recent threatened railroad strike. The reason was that no union men are employed.

There are quite a number of Woodward in the Woodward Iron company. Mr. Woodward's father, uncle and other relatives being included. His sister is the wife of United States Senator Oscar W. Underwood. Although he is not a union man, Mr. Woodward is very popular with labor. Probably it is because of the unusually broad character of welfare work he has introduced in all the properties with which he is identified prominently.

Besides that he is known as kindly a man as you'll find in a day's walk. The Birmingham district is a marvel. You find hills on the side rich with coal and on the other side hills rich with ore. Between them in the valley you find the great mill man has built and to which from one side he draws coal and from the other ore, and out of which he gives to the world steel.

Public health officials of the middle west are not optimistic about prohibition.
 "Every Saturday night," said one of them, "we have the same barroom experience. In former times we had a few cases of persons so badly off from over-indulgence in liquor that they required medical attention. Now each Saturday night we have a dozen or more who are assigned to what we call the 'poor squad'—the members of the hospital staff who begin operations by pumping out the stomachs of the sufferers. The stuff the patients have taken is poison. It isn't whisky. We do not treat them for alcoholism, but for poison."
 "Purveying of liquor is so common as to occasion little comment. Why, men come to me in my office and inquire if I want to buy a few bottles of booze or have a case delivered at my home. My opinion is that there is but a slight decline in the amount of whisky consumed. I base my statement on the number of alcoholic and poison cases that come to us for treatment."
 "To make prohibition effective the public must come to consider violation of the law as something illegal and warranting punishment. At present 'good citizens' patronize bootleggers and buy bottles of alcohol and abetting them in violating the law, think this disregard of the law is growing. Certainly it is not decreasing, in our city."
 (Copyright, 1921, by Philadelphia Public Ledger.)

THOMASVILLE FIRST IN RED CROSS ROLL CALL
 Thomasville Beats Every City in United States in Securing Its Quota—Third Year.
 (Special to Daily News.)
 Thomasville, Nov. 18.—Thomasville is the first city in the entire United States to obtain its quota in the fifth annual Red Cross roll call, this making the third successive year that this feat has been accomplished. Telegrams of congratulation and of appreciation of Thomasville's continued efforts have been received by the local chairman, Charles F. Lambeth, from W. Frank Persons, vice-chairman of the American Red Cross with headquarters at Washington, and from Harry L. Hopkins, manager of the Southern Division, with headquarters at Atlanta.

A whirlwind campaign for 1,000 members, Thomasville's quota was started Monday morning, and by 8:30 o'clock the Thomasville Baptist organization had up the 100-per-cent banner with local industrial plants in whole or various campaigns for 1,000 members. The town was divided into four political wards with a captain in charge of each. Another captain was in charge of the business district and still another in charge of the industrial plants, and the entire city thus thoroughly covered. Leading citizens made talks at the furniture factories and cotton mills at the noon hour Monday before these plants were canvassed.

By 3:30 o'clock Tuesday afternoon the goal had been reached, and the report sent the southern division office. Charles F. Lambeth, president of the Standard Chair company, has been chairman in charge of each of the three roll calls in which Thomasville has gone over first, and has received hearty congratulations by the American Red Cross on this splendid record.

ONE-HALF OF GOAL SET BY THE RED CROSS REACHED
 (Special to Daily News.)
 Henderson, Nov. 18.—Without any reports from the county and only three wards of the city of Henderson heard from, Mrs. W. H. Fleming, general chairman Red Cross roll call for Vance county, reported yesterday that one-half of the goal set had been reached. A well-organized drive was launched Tuesday and Mrs. Fleming believes the campaign goal will be reached before the drive dates are closed on November 24. The main factors being stressed in the Vance county drive this year are: First, to assist the needy ex-service men; second, to retain the Red Cross nurse for Vance county.

Eczema and Tetter
Due To Impurities In the Blood
 To Get Absolute Relief You Must Clear Your Blood Of Waste Products.

The blood is the means by which all the tissues of the body are directly or indirectly nourished. You will at once realize that unless the blood is pure, some part of the body will become diseased.
 Every skin disease denotes with unerring certainty a weakened and impure state of the blood.
 To correct the blood trouble—waste products—the blood must be purified. Don't drug your blood. Just clean it out. Nature will do the rest. Pure, rich, red blood nourishes the body and builds up strength.
 S. S. S., the standard blood purifier and system builder, is the ideal remedy for skin eruptions. The effort of S. S. S. is to rid the system of the waste products which are causing the trouble. For over 50 years S. S. S. has proven to be of untold merit. Begla taking S. S. S. today and write for 54 page illustrated booklet, "Knows About the Blood"—free.
 Personal medical advice, without charge, may also be had by sending a complete description of your case. Address: Chief Medical Director, Swift Specific Co., 712 S. S. S. Laboratory, Suffolk, Va. All drug stores sell S. S. S.
