At the Local Theaters

"Musketeers" A Gorgeous Film.

If anybody is in doubt about the costume play as an excellent form of motion picture entertainment, he should see Douglas Fairbanks' picture version of Alexander Dumas' classic story, "The Three Musketeers," which closes its run at the Grand theater tonight.

Featuring the costumes of the early Seventeenth century, this film stands as one of the most impressive and gorgeous photoplays of motion picture history. It is thrilling, romantic, crammed full of red-blooded adventure and reveals Douglas Fairbanks in a type of work which is in some respects typical of past performances, but on the whole differs from any other interpretation he has ever given us.

A special musical score is played for "The Three Musketeers" by an augmented orchestra. Seats for the last performance are now on sale at the box office.

"The Iron Trail" at Bijou.

The newest Rex Beach production, "The Iron Trail," now at the Bijou theater, is a real blood circulator that will be hailed with delight by the movie enthusiasts looking for a change from the long list of society problem plays.

"The Iron Trail" is a railroad story the action of which takes place in the Alaskan gold fields and there is excitement galore in every incident and situation. There is a love theme running through it—in fact there are two romances and they are both delightfully free from the villain element and pleasingly different from the stereotyped love affairs.

A cast of the highest excellence plays the leading roles and in appearance as well as in artistry they fill their roles faultlessly and convincingly.

John McCormack.

John McCormack, the noted tenor, who will be heard in this city on December 1, at the National theater under the direction of the Greensboro Concert Course, is the minstrel—the bard—par excellence.

"What's a Wife Worth" at Isis.

"Beauty is as beauty does," is an old saying that has covered up a multitude of jealousies and envies. But its value has not been underestimated by those seekers of expression, whether of art, music, literature, face or form. Nowhere is the search for beauty of expression more earnest, more sincere, than in the motion picture industry. Not a day passes but what something new has been added to the list of perfect detail,

which goes to make the ideal photoplay.

In "What's a Wife Worth" the Robertson-Cole production which opens at the Isis theater today, Christy Cabanne, the director, pays homage to beauty. It is Mr. Cabanne's contention that because a play deals with the homely truths of life, the daily treadmill of existence, it must need of a necessity be shorn of all romance or beauty. "The tree which blooms on a lonely mountain peak is just as beautiful as the one cultivated in a hot-house, because nature ordained that it should be so," he avers.

There are other added attractions such as comedies, scenes and news reels.

OFFICERS FIND STILL IN A CHICKEN HOUSE

Four Men Are Found Operating It and Two Are Captured—Burlington News Notes.

(Special to Daily News.) Burlington, Nov. 23.—Deputy Officers Hensley, Stockard and Isley went to the section beyond Snow Camp Sunday afternoon in response to a call, giving them information of a distillery in that section of the county. The officers arrived at the home of Bob Overman, about two miles from Snow Camp, and found a 40-gallon still in operation. The outfit was located in a chicken house about 15 yards from Overman's house. Five men—Overman, Oart Steward, Henry Johnson and another man—were in the chicken house operating the still, it is alleged. The officers succeeded in getting to the place before the men heard them, and captured two of the men, Steward and Johnson. Overman and the unknown man made their escape. The officers brought the two captured men to Graham, where they were placed in jail, being unable to furnish bond of \$1,000 required of each man.

The officers stated that two little girls, one apparently 12 years of age and the other about six years of age, were at the still with the men. It was thought that the little girls were Overman's. The outfit, consisting of a 40-gallon capacity still, four barrels of wood, and about 60 gallons of liquor, were destroyed by the officers.

Thanksgiving Day will be appropriately observed by the people of Burlington. The various stores and business houses will close for the day and services will be held in nearly all of the churches. All of the tobacco warehouses will be closed Wednesday and Thursday and the public library will be closed also on Thursday.

Relatives and friends of Mrs. Geneva Hargrove and son, C. I. Hargrove, gathered in their home here Sunday and joined them in the celebration of their birthdays. A sumptuous dinner was spread and about 60 persons, including relatives, neighbors and friends of the family, participated. Mrs. Hargrove was 69 years of age, while Mr. Hargrove was 32 years of age.

Rev. D. N. Caviness, a former pastor of the Methodist church in this city, will preach a Thanksgiving sermon to the local council of the Junior Order next Sunday afternoon at 3 o'clock in the First Baptist church here.

The grammar department of the Burlington graded schools will celebrate Thanksgiving on Thursday morning at 9 o'clock when a program of exercises will be presented in the graded school auditorium.

Pinley L. Williamson, Jr., has gone to New York city, where he will take a steamer for a Mediterranean trip, which will include stops at Gibraltar, French ports, Naples, Sicily, Athens, Constantinople, and other places. Returning he will visit England.

for the local express office for several months, has been promoted to the position of assistant manager of the express office in Charlotte, and left Sunday for Charlotte to assume his new work. He is succeeded here by Willis Gregory, of Cheraw, S. C.

E. O. Way has begun the erection of a beautiful five-room bungalow on East Morehead street.

BIG CHEMICAL PLANT AT HENDERSON READY

Cost \$1,000,000 and Has Capacity of 60,000 Tons of Fertilizer for the Season.

(Special to Daily News.) Henderson, Nov. 23.—The big chemical factory covering three acres of ground with one building, two miles north of Henderson, has been completed and set into operation. It has taken a year to build this enormous plant, but today it stands out as one of Henderson's leading industries, and one of the largest owned by the chemical company in any part of the country.

The plant adds another industry of merit to the state and the city of Henderson. It will have an annual payroll estimated at \$200,000 to \$300,000, and will do approximately \$2,000,000 of business. The cost of the new plant was approximately \$1,000,000. An artesian well was sunk some 300 feet and sufficient water was provided for a fire department which is maintained by the company.

CONTRACT IS AWARDED FOR NEW ENGINEERING BUILDING

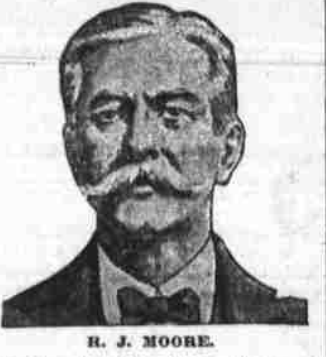

(Special to Daily News.) Raleigh, Nov. 23.—The contract for the new mechanical engineering building at State college has been awarded to Hester and McIlwain, general contractors of Raleigh. The meeting of the trustees of the college was held Saturday in Charlotte with the chairman, W. S. Lee. The bid submitted by the successful local firm was \$88,500, exclusive of the plumbing and heating which will make the entire cost amount to approximately \$7,000 more.

This is the second contract for new construction at the college under the appropriations authorized at the last session of the general assembly. The agricultural extension building, which is being erected at a cost of \$200,000, was started in September, the C. V. York Construction company, also of Raleigh, handling the contract.

The new mechanical engineering building will be located immediately in front and as a part of the shops, forming another unit in the group of mechanical engineering buildings. It will be 50 feet by 180 feet, two stories high, with an above ground basement under the entire eastern half. Steel and concrete fireproof construction is called for in the specifications.

CO-OPERATIVE ASSOCIATION TO ASSUME CHARGE IN 1922

MR. MOORE GAINED FLESH AND STRENGTH Rapidly By Taking Vinol After Everything Else Had Failed.

Noroton Heights, Conn.—"I am a carpenter, and got all run down and contracted a chronic cough, so I could hardly keep about my work. It seemed as though I had tried all kinds of medicines without help, but one day I saw Vinol advertised and decided to try it. Before I had taken half a bottle I felt better and after taking six bottles I found I had regained my normal weight and never felt better in my life."—R. J. Moore, Noroton Heights, Conn.

The reason Vinol is so successful in such cases is because it contains the curative elements of cod liver oil in a highly concentrated form together with Iron and Beef Peptides which for centuries have been without a peer for such conditions. Price \$1.00 a bottle, guaranteed. Greensboro Drug Co., Greensboro.
