Transactions In Lessened Vol-ume and Rails and Indus-trials In Narrow Limits.

CHEMICALS ARE STRONGER

(By Lease Wire in Daffy Rew.)

(Empricit. 1811, by Philadelphia Public Leages.)

New York, Nov. 21.—So har he they experal market was concerned trading today developed no features of interest aside from aharp upward movements in a few specialities. Transactions were in nomewhat lessened volume and the raile and industrials moved within narrow limits. About the only pressure brought on the market was a certain amount of selling for cash to register losses in anticipation of the new revenue bill becoming a law effective before Friday. Selling of this character therefore held the general list in check, atthough it produced no important weakness.

The chief features of strength were represented by the chemical stocks and

The chief features of strength were represented by the chemical stocks and the gas stocks. Davison Chemical made an advance of nearly 5 points on the day and Allied Chemical crossed 50, reacting only moderately before the close. Rumors of Standard Oll buying, coupled with reports concerning the formation of a new corporation on a favorable basis, were responsible for most of the buying in Davison Chemical. The public utilities group was steady under the leadership of People's Gas and Columbia Gas: Consolidated Gas advanced 2 points on moderate transactions.

The tone of the market at the close

offerate transactions.

The tone of the market at the close as quiet, due chiefly to the restriction of fresh commitments over the holiday.

The wide fluctuations in Mexican Petroleum deter many traders from seeking to guess the vagaries of the price fluctuations in that issue. The stock has been well seld for more than two weeks. The smaller element who are afraid to trade in it, have been selling General Asphalt on the theory that should Mexican Petroleum decline the latter stock also would decline proportionately. MONITOR.

the latter atox and without the proportionately.

C. B. EVANS' CHICAGO LETTER is became wire to taily Ness.

*Coprint, 1221 by Publishenks Point Leger.)

Chicago, Nov. 22.—It is not picking water cress on the American desert or pincking diamonds from an ash heap to call attention to some of the hope for things in the situation through out the farm country tributary to thicago. Attention was called today to a number of localities where there appears to be pinnty of money and the whole area went of this city is called "spotted." Wichita was named as a point where capital appears to be shundant for all ordinary purposes. The bankers of that city indeed have been buying commercial paper in Chicago and ciscwhere. Kansas, Neclariska and lowa are much better of than certain other states, notably the Dakotas, Montana and parts a Wyomlog. This statement doubless means that the cattle industry is in bad shape, but that we have known for a long time.

that the cattle industy is in one analytims.

When one sees the great business in bends in this city he cannot doubt that even the "poor farmer" has money left. The sales of such securities extend from this center throughout a great region around Chicago, even well into the mouth, where there he a better situation than heretofore because of liquidation and a good deal of cotton was sold at the high prices, while in Texas money ozaes into the pockets of the residents from the oil wells.

And as much to the farm country as to any other area applies the statement whenever a good turn country as to any other area applies the statement whenever a good turn country as to any other area applies the statement whenever a good turn country as matter of submishment to the observer. But many a farmer will have to live mainly on what he raises for a long time set, say till the next crop comes along, when he can convert his grain tests cash, it is plain things that this class of people are up against, and the old heres in the bern will have to be satisfied with the hasy if he can't get horseroids.

COTTON STRONGLY HIGHER IN

DEALINA'S AT NEW ORLEANS

New Orleans, Nov. 23.—Reports of a better spot demand, more favorable English mill accounts and the claim from Texas that the whole state was in danger of being quarantined on account of the plins boil worm put the cotton market strongly higher today. Highest prices were reported in the late trading when the market was 57 to 80 points up, with December at 17,82. Just on the close recent buyers took profits in rather a large way, evidently because of the last prices at net gains of 4 to 52 points, December closing at 17,74.

The opening was higher in sympathy with a much better Liverpool than due A crop estimate of 7,621,000 bales, of spots helped values, but after advances of about \$1,50 a bale the upward trand was absorbing all offerings of spots helped values, but after advances of about \$1,50 a bale the upward trand was checked, mainly by realizing of longs, and the gains were reduced to 6 to 11 points. A crop estimate of \$1,00, 500 bales at this time seemed to cause more or loss selling.

Around the middle of the day prices commenced to strengthen again, following cablegrams from Manchestre saying that orders for cloths for In
1 a luge way as the result of the breaksing of the Ghand boycott. A little later the pink holl worm became the main factor. According to to telegrams which reached the market from Manchest for the further spread of the peat.

Higher,

ales at the United States and Great Britain, principally the United States, will try to sharpen some of these principles, so far as it is possible, into definite declarations of policy. What is going on is very simple and understandable if reduced to a human parallel. Nobody wants to fight. All three countries recognize that at a certain point Japan will fight rather than give in, and diplomacy is endeavering to hide the points where a compromise is impossible and emphasize those in which agreement is certain or probable.

1.10%

1.11%

5.5%

**This process may go on for a considerable time. It is bound to be confusing and misleading, but if you conceive that the three principal nations are astern question not with the intention of enforcing any ideas upon each other, but, as I said before, of exploring areas of agreement, you will get an accurate idea of what is going on. Everyone who knows at all of the public and professional carrier of Elihu Root knows how eminently suited he is for this kind of negotiation and recognizes how much better off the United States is in Washington than it was in Paris since it has at least two men in its delegation here pre-eminently fitted to participate and to take a leading part in the negotiations.

West Market Service Teday.

West Market Service Today. There will be a Thanksgiving service t West Market Street Methodist

at west market Street Methodist church Thursday morning at 10 o'clock. Rev. J. H. Barnhardt, the pastor, will preach, and the congregation will be given an opportunity to make an of-fering to the Children's Home at Win-Thankagiving Service.

Thanksgiving services will be held today by the local branch of the Chris-tian Science society at their head-quarters at 110 Banner building at 11 a. m. and 8 p. m. The aubject will be "Thankagiving." Everyone is cordially invited to attend. Mr. Brooks At Park Piace.
A. L. Brooks will deliver an address
at the special Thanksgiving services
at Park Place church at 10:30 o'clock

this morning. All are extended a cordial invitation.
