

NEGRO IS WONDERING IF SHE WILL BE GIVEN AID

But Greensboro Has No City Physician and She Still Wonders and Hopes.

SECOND WOMAN WONDERS

Greensboro has had no city physician since Dr. H. B. Williams resigned several months ago and Fannie Smith, negro woman, lives at her home, 291 Washington alley, in a serious, if not dangerous condition, unable to obtain medical attention because she has no money with which to pay a physician and because the city of Greensboro has no physician to administer to its poor who become sick.

The sick woman was discovered by an officer several days ago. Her right foot had been injured in some way—her neighbors told the officer that she had been hit with a brick—but one of her neighbors yesterday afternoon, after being assured that a reporter was not an officer, stated that she had been shot through the foot by a negro man of whom all the residents of Washington alley are afraid.

Anyhow her foot was hurt, the skin was broken, and a bad infection developed. It has steadily grown worse. From the looks of the foot and judging from the foul odor, gangrene has apparently set in. But Greensboro has no city physician and Fannie lives and suffers, wondering if she will ever be given assistance.

Dora Hunt, with whom the injured woman lives, states that she has called the city hall and has asked that a physician be sent to see the girl. About two weeks ago a physician did see the girl and dressed the foot which

was not in such very bad shape at that time. But through lack of attention it is now in much worse shape than it has ever been.

Last week a baby was to be born into a white home in which there was no money available with which to pay for the services of a physician. It is admitted by all concerned that the head of the family is not over-industrious and that he is recognized by all of his acquaintances as being poor pay. Due to his reputation he failed to obtain a physician himself and called the city hall.

All that officials at the city hall could do was to try to obtain a private physician and this they failed to do because every doctor called was busy. After several hours had passed the man called again in desperation and a physician, knowing that he would obtain nothing for his services, answered the call out of sympathy for suffering humanity.

City officials state that they have tried to get a city physician but that they have been unable to secure a physician to undertake the work at the salary offered. It takes a number of years of preparation to pass the state board and a physician is a highly trained man who cannot afford to work for salary offered by the city.

Merchant Has Keen Memory.
(Special to Daily News.)
Kinston, Nov. 28.—George Everington, chief of police here, will not doubt in future that clothing salesmen have been memories and an uncanny way of identifying stolen goods. An elderly Craven county negro who came into the vision of Wolfe Adler was recognized partly by a coat he wore. Adler sold him the coat 27 years ago for \$1.50. When Adler expressed an opinion as to ability of salesmen to recall whether or not they had sold large quantities of goods alleged to have been stolen and discovered in a recent raid, Everington decided there was "more to it" than he had divined.

MOVING PICTURE MEN FLOCK TO CHARLOTTE

Some Screen Stars Are Also There to Attend Motion Picture Exposition.

HOPE HAMPTON IS PRESENT

(Special to Daily News.)
Charlotte, Nov. 28.—A thousand or more moving picture men are in Charlotte today to attend the Southern Motion Picture exposition, the first session of which was held this evening at the city auditorium.

The biggest men in the profession, from New York to Texas, are here—men whose names are famous the world over in the moving picture business. The Setwyn hotel is headquarters and there all day yesterday and today, the men of the screen have been unofficially discussing the business. R. D. Craver, of the First National, of Charlotte, is host.

There are about 50 different corporations represented in the personnel of exhibitors here. Joining the big men who are already here will be Adolph Zuker, the biggest film producer in the world, who comes tomorrow morning straight from New York. He will address the convention tomorrow. Another big man coming with Mr. Zuker is Bob Cohe, president of the Motion Picture Theater Owners of America, an organization composed of 12,000 theater owners. Another big man also coming from New York tomorrow is Sumner James Walker, the minority leader of the Democratic party, and counsel for the national organization of movie corporations. He is to address the exhibitors tomorrow.

Vivita Moses, publicity man for the Fox Film corporation, is also coming tomorrow, and accompanying him will be Miss Shirley Mason, star, and Mrs. Mary Carr, another Fox star, who plays the role of mother in the picture, "Over the Hills."

A notable arrival of this morning was Paul J. Hudson, assistant manager of the Association of First National Pictures, Inc., New York. He came to accompany one of the very biggest men in the whole profession, Richard Barthelmess, leading star of Griffith's "Way Down East," now making pictures for the First National and playing "Tolerable David." The picture men in talking about him today said, "He is a wonderful actor—a great artist of the screen."

Today is "Hope Hampton day" with the exhibitors, the little actress being here with her manager. She arrived yesterday and was featured on the Broadway in screen and in person, appearing on the stage and receiving a great ovation. She was guest at the Rotary dinner last night and sang and talked. She is beautiful and is one of the richest women of the screen today. She is a native of Houston, Texas, but her life has been spent east. She is young and marvelously fascinating, and said she, in throwing away all my money either Not I have what I want but my money is invested as soon as I get it." Miss Hampton receives \$50,000 and over for pictures.

The convention, or exposition proper, opens tonight in the auditorium with an address by Dr. Charles A. Bland, former mayor of the city.

THE MEN AND MILLIONS DIRECTORS MEET TODAY

Will Be Attended By Representatives of Christian Churches in Alamance.

(Special to Daily News.)
Burlington, Nov. 28.—The campaign directors of the men and million forward movement of the Christian church will meet in Burlington tomorrow afternoon at 2 o'clock at the Christian church in this city. This meeting will be a very important one, and will embrace representatives from the various Christian churches in the Alamance county district, including the state directors of the movement. The conference will be made up entirely of the campaign directors, state directors, pastors, local captains, women leaders and four-minute men of the district. Fifty-one leaders in all have been invited to attend the meeting. The definite purpose of the conference was not announced, but it is thought that matters of very great importance concerning the general advancement of the denomination will be discussed. The campaign directors are Rev. C. B. Riddle, of this city; Rev. J. O. Atkinson, D. D., Dr. W. A. Harper and C. D. Johnston, of Elon College.

One of the manufacturing plants of Alamance county has adopted a unique plan of advertising Alamance county. The Scott-Mebane Manufacturing company has prepared a label to put on the products of the mill, bearing the name, "Alamance." The label bears the picture of the monument at the Alamance battleground, located about nine miles southwest of this city. "First Battle of the Revolution, May 16, 1771," also appears on the label, which is about 2 1/2 inches in size. The plan will serve two purposes—give the product individuality, and to teach and keep in memory an important historical fact.

Mr. Saleeby, of Salisbury, was the speaker at the Baptist church in this city Sunday morning. He taught the Baraca class in the Sunday school and occupied the pulpit at 11 o'clock, delivering a very helpful address. In the absence of the pastor, Rev. M. W. Buck, the Baraca class held their rally day exercises, securing Mr. Saleeby to be speaker for the occasion. Mr. Saleeby is an enthusiastic Baraca and energetic Sunday school worker of national reputation. Seventy Baracas were present in the Baraca class to listen to teaching of the lesson and a large congregation assembled for the address at 11 o'clock.

The local chapter of King's Daughters will hold an important meeting in the chamber of commerce hall Friday afternoon at 3 o'clock. Among the matters to be discussed will be the preparation of a Christmas box for the inmates of the county home. Mrs. H. R. Sellers is president of the local organization.

T. R. Cole recently underwent an operation for appendicitis at the local hospital, and is reported as improving nicely.

J. P. White was a visitor at Elberta, Va., during the week-end.

Dr. J. C. Joyner has returned from a week's visit with relatives in South Carolina and eastern North Carolina.

Lacy Ross, of Richmond, Va., has returned to his home after visiting his parents. Mr. and Mrs. W. R. Ross, in this city.

Miss Edna Perry, of Selma, spent a few days recently with her sister, Mrs. A. L. Davis, in this city.

Rev. J. H. Abernethy and son, James, of Thomasville, were here yesterday, returning to their home from Carolina Mills, where Rev. Mr. Abernethy preached Sunday.

Miss Edna Burke spent the past week-end with her sister in Greensboro.

Mrs. Elizabeth Isley, of near Mount Hermon, is visiting her nephew, Rev. H. L. Isley, in this city.

Mrs. E. A. Isley is visiting her son, C. H. Isley, in Caswell county.

Two-thirds of Canada's forests have been destroyed by fire in 75 years. At the present rate of consumption, the amount of timber burned would have supplied the entire world for 450 years and represents a loss of a billion dollars.

To the Physicians of Greensboro

SUSTO is the Only Vitamine Tonic Food Ever O. K'd by a World Famous Nutritional Expert

Dr. Philip B. Hawk is the Professor of Physiological Chemistry at Jefferson Medical College, Philadelphia. He analyzed SUSTO, checked up its action, scientifically tested its nutritive value and digestibility in normal human beings and its therapeutic and reconstructive powers in numerous cases of Run-Down Conditions, Loss of Flesh, Anemia, Lack of Strength, Convalescence, Malnutrition, Under Weight and Under Nourishment of men, women and children. After which he made a most favorable report, extracts from which we hereafter reprint.

This is the first time in history that a tonic reconstructive has been offered to the public backed by the full approval of world-recognized, scientific authority. It is the first time such a preparation has been ethically tested in every possible way before being placed on the market.

Here is What Dr. Hawk said concerning this test:

"In all cases of a general run-down system or in convalescence from such diseases as typhoid fever or influenza, SUSTO played a very important part in stimulating the appetite and causing increases in body weight.

"In practically every case the tonic or stimulating effect was apparent at the start of the feeding and persisted.

"In every instance where under-nourished infants and children were given SUSTO, important body-weight increases were registered. A notable case is that of a boy of eleven who had been under weight for three or four years in spite of the best medical and dietetic treatment. The feeding of SUSTO produced a gain of six pounds.

"SUSTO also caused normal adult persons to put on weight. One of our cases (a normal young woman) gained seven pounds in two months by the use of it. And still another, a married woman, gained twelve pounds in three months.

"One old lady of 75, who had weighed under 96 pounds for 30 years, increased her weight to 100 pounds by the use of SUSTO.

"In no case did any patient object to the taste of SUSTO. In fact, one physician associated with us reports that one of his child patients now refuses to take any milk unless it contains SUSTO.

"Some individuals were found who could not digest straight milk but who could handle milk with SUSTO very nicely.

"SUSTO as improved by us is an excellent nutritive tonic and growth-promoting therapeutic product. It should prove useful to all convalescents, to normal adults who wish to put on weight, to under-nourished children and adults, and to men, women and children in general who show signs of a run-down system."

It would be impossible to secure higher testimony as to the tonic food value of SUSTO.

SUSTO is rich in the Vitamines of Rice, Eggs, Milk and Yeast—notably rich in Fat Soluble and Water Soluble Vitamines A, B, C, together with Beef Protein, Nuclein and Iron—and indicated for malnutrition and allied diseases.

A copy of Dr. Hawk's full report will be sent to any physician. A postal request will bring it. Address Chester Kent & Co., Chemists, Boston, Mass.

SUSTO is for sale in Greensboro by the Greensboro Drug Company.

Great Variety Toys

Most of those who look over our stock of toys and dolls unhesitatingly state that not only are our prices lower but that we have so much greater variety to select from. Some very frankly remark that ours is the only store that has any new things on display.

In all lines we handle we have tried to make ours the

Ideal Gift Shop

and we feel sure that when you have looked us over you will get many valuable gift suggestions. We sell only dependable goods of highest quality.

APPLY SULPHUR TO HEAL UP YOUR SKIN
Broken Out Skin and Itching Eczema Helped Over Night.

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even itchy, itching eczema is dried right up.

Get a small jar from any good drug-gist and use it like cold cream.
