New York, Dec. 5.—Considering the extent of reactionary sentiment in professional circles, today's stock market displayed a surprising amount of streagth. Volume of trading was fairly large, and, while the scope of the advance was not as wide as it has been in some of the recent markets, the buroyancy displayed by certain groups indicated a favorable technical position and altequate burying powes. The rails were inclined to heaviness, and a few issues, notably Rock Island, were somewhat weak. There was heavy selling of a few specialties, such as Sears-Roebuck, American Sugar and Standard Oil of New Jersey, and American Car and Foundry reagted sharply on profit taking.

The tone of the market, however.

## Five Points Filling Station

Monday morning we took over he filling station at Five Points.

It will be our aim to give high grade service at this station as well as at our station opposite the City Hall.

Our customers who use trucks should instruct their drivers that gasoline, oil, free water and air may be had at the new station at Five Points, if that is more convenient than the uptown station.

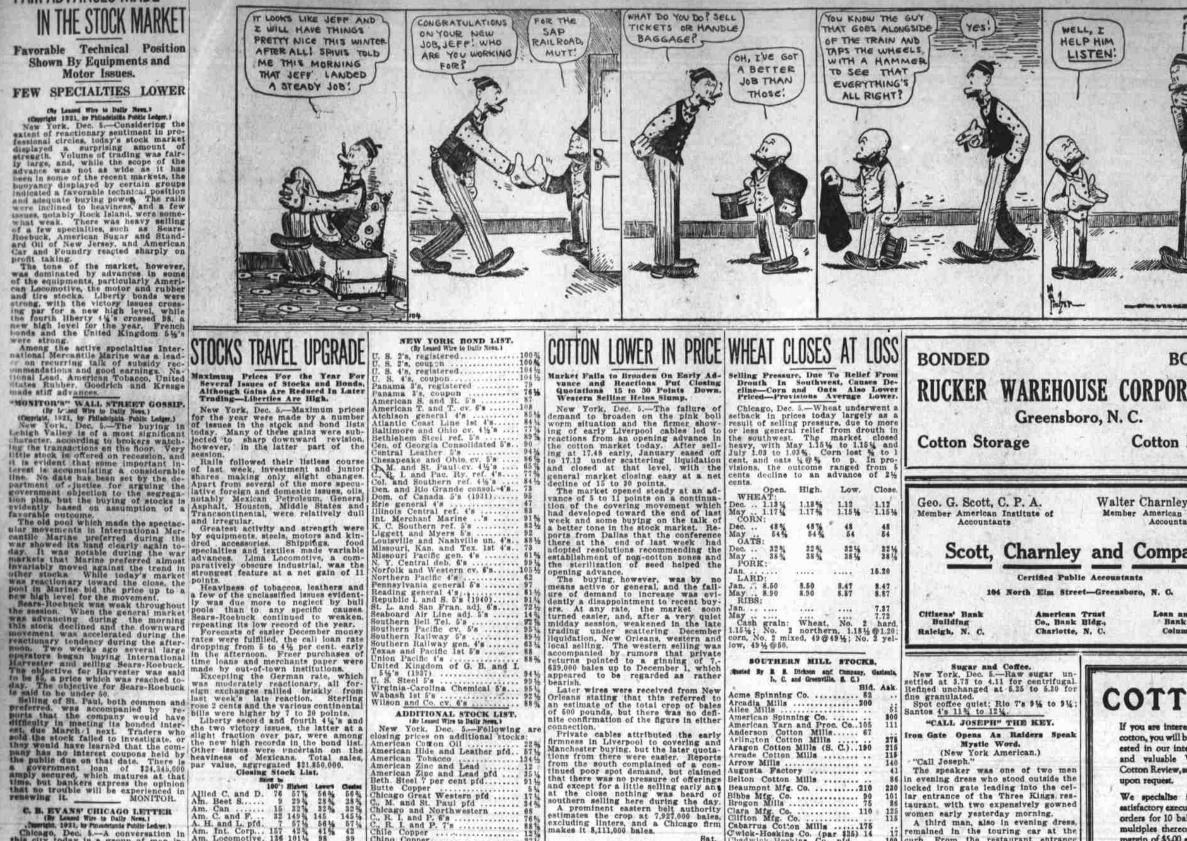

Automobile owners who have been trading at Five Points are cordially invited to continue to trade with us. Others are urged to give us the opportunity of serving them with gasoline, oils, secessories and free air and water.

establishment of seed helped the opening advance.

The buying, however, was by no means active or general, and the failure of demand to increase was evidently a disappointment to recent buyers. At any rate, the market soon turned easier, and, after a very quiet midday session, weakened in the late trading under scattering December liquidation, New Orieans, western and local selling. The western selling was accompanied by rumors that private returns pointed to a ginning of 7, 639,000 bales up to December I, which appeared to be regarded as rather bearish.

New Orleans, Dec. 5.—Momentarily on the first call today the cotton market was at an advance but following this short period of steadiness there was a long sag, prices finally closing at their lowest at net losses of 12 to 13 points. At the highest of the day prices were 9 to 15 points higher than Saturday's close. January rose to 16.80 and fell off to 16.44.

The opening rise was caused by a better Liverpool market than due, after which the market came under the spell of bearish ginning talk. The decline became more pronounced following rumors that a private bureau was out with figures of 7.639,800 bales as the total quantity of cetton ginned from the first of the season up to the first of December, a larger total than meet people were looking for.

Heaviest selling of the day came in the last half hour, as the result of a private crop estimate of 3.114,000 bales. The market got next to no support at the decline and felt very little realising from the short side. Less sitention was paid to pink boll worm news, although reports from Texas over Sunday predicted a marked decrease in consequence of the worm in some of the largest cotton producting sections of the state. Some traders looked upon the cold wave, which brought freezing temperature to a good part of the cotton region, as likely to reduce insect life to some extent.

"CALL JOSEPH" THE KEY. Iron Gate Opens As Raiders Speak Mystic Word,

(New York American.)

"Call Joseph."

The speaker was one of two men in evening dress who stood outside the locked Iron gate leading into the cellar entrance of the Three Kings restaurant, with two expensively gowned women early yesterday morning.

A third man, also in evening dress, remained in the touring car at the curb. From the restaurant entrance to the Hotel Continental there were more than a score of cars parked, while sounds of merriment came from the second floor of the restaurant.

The two men with the women before the locked iron gats were Federal The two men with the woman before the locked fron gate were Federal Prohibition Agents Wittenberg and Kerrigan. The third man in the car was Agent Toplitz. The name "Joseph" was enough for the lookout behind the gate. He unlocked it As the four passed inside the lookout did not speak, but stood regarding them. Inside Wittenberg again showed the card and was usinered upstairs, where he and his party were given seats in the cafe, in which they estimated 150 men and women were eating and drinking.

drinking.
According to Wittenberg and Ker-rigan, they were served with Scotch whisky and ginger ale highballs.

"CREAM PUFF" ON TEAR. Horse Bolts and Upset Load of Char-

(New York Tribune.) Cream Puff, usually a gentle, plod ding quadruped, resigned to the hum-ble task of pulling the charlotte russe wagon of Abraham Griesberg through the prosale streets of the city, revolted yesterday morning against her humdrum existence, and attempted to aclike a circus horse.

like a circus horse.

Willie Gurailck was in the driver's seat at the time, making his rounds with a load of charlotte russe for Mr. Griesborg's best customers. Cream

Puff was doing all the work.

Just as the wagon crossed One Hundred and Thirty-third street on Broadway Cream Fuff blew up. Back went her ears and up went her feet A moment later, as horse and wagon and meeting.

ment later, as horse and wayon and driver sped south on Broadway, boxes of pastry began to bounce from the wagon to the street.

Cream Puff was finally stopped by a patroliman from the La Salle street station. Children of the neighborhood, however, feel deeply for Cream Puff and sincerely hope that she will revolt again in the near future—and in their neighborhood, if possible. **GILBERT C. WHITE CO** Reductio Ad Absurdum.
