

**TAKE STEP TO OUTLAW
SUBMARINE ACTROCITIES**

Root Resolution Is Adopted in Principle By Arms Conference Delegates.

DISCUSS STRICTER CODE

(By Associated Press.)

Washington, Dec. 29.—The text of the first Root resolution reaffirming existing rules of naval warfare for surface craft and strict application of this code to submarines operating against merchant craft, which was accepted in principle today by the naval committee of the arms conference, after being amended at the suggestion of Arthur J. Balfour of the British delegation, reads as follows:

"The signatory powers desiring to make more effective the rules adopted by civilized nations for the protection of the lives of neutrals and non-combatants at sea in time of war, invite the adherence of all other civilized powers to the following statement of established law to the end that there may be a clear public understanding throughout the world of the standards of conduct by which the public opinion of the world is to pass judgment upon future belligerents."

The second Root proposal that a new rule of international law be initiated outlawing entirely submarine operations against merchantmen, still under discussion when the committee adjourned, and which had been urged in addresses by each member of the American delegation and approved formally for the British group by Mr. Balfour, textually is as follows:

"The signatory powers recognize the practical impossibility of using submarines as commerce destroyers without violating the requirements universally accepted by civilized nations for the protection of the lives of neutrals and non-combatants, and to the end that the prohibition of such use shall be universally accepted as a part of the law of nations they declare their assent to such prohibition and invite all other nations to adhere thereto."

**LONNIE WILSON IN PECK
OF TROUBLE AT CONCORD**

Serving Time For Carrying Gun and Selling Liquor and Accused of Stealing Lot of Goods.

(Special to Daily News.)

Concord, Dec. 29.—Lonnice Wilson, young white man of this city, is very much in demand by the police now. In the recorder's court yesterday Wilson drew chain gang sentences totalling 150 days for carrying a concealed weapon and selling liquor, and when these cases are finally disposed of, he having appealed, several other warrants will be awaiting him.

Police officers say they yesterday afternoon discovered 30,000 Piedmont cigarettes and 100 pounds of chewing tobacco under his house on Powder street. The goods, the officers state, were stolen from a freight car.

While officers here were locating this stolen property Patrolman Henry Purr was in Mooreville identifying some goods which he said to have been sold and given away here, and which the officers claim, were stolen from a store at Oakboro several weeks ago. A silk waist and a piece of silk cloth, given to a friend in Mooreville by Wilson, were identified by the officers and the owner of the Oakboro store, and last night the Mooreville officers phoned here that a suit of clothes Wilson sold in Mooreville also had been found.

**CHINESE ADVOCATE BOYCOTT
OF EVERYTHING JAPANESE**

(By Associated Press.)

Washington, Dec. 29.—Delegates representing seven Chinese national and provisional organizations sent to Washington as "observers" of the proceedings of the arms conference, adopted resolutions at a meeting tonight which called for the "dispatching at once of a cablegram to China urging a general boycott of Japanese goods and services throughout China, to show righteous indignation against the Japanese aggressive policy."

The delegates held that "Japan has adopted a policy of obstruction to the realization of China's aspirations" at the arms and far eastern conference and has blocked in every manner the way for the conference to arrive at any decision in favor of China, particularly with reference to the tariff question. The resolutions also held that Japan has "shown no signs of willingness to amend the wrongs done to China by persistently opposing discussion of the twenty-one demands and the Shantung question by the conference."

**WALL STREET BANKERS ARE
INTERESTED IN BIG LOAN**

New York, Dec. 29.—Several groups of Wall street bankers are interested in a proposal loan of approximately \$50,000,000 to the Dutch East Indies government, to be offered in this market in the near future, it was learned today from a trustworthy financial source.

A dispatch from the Hague today stated that parliament had passed the bill authorizing negotiation of a \$100,000,000 loan in the United States for use of the Dutch East Indies.

Probably that the transaction would be carried through was based on the world wide reputation of Holland's credit, in addition to the credit standing of the government of her colony in the east. The economic development of the Dutch East Indies in recent years and wise expenditures of previous loans for revenue producing enterprises, were said to have strengthened the basis for credits.

The bullet fractured the skull and lodged inside. The fractured skull and the failure to find a bullet hole that would indicate he had taken his own life gave rise on first examination to the belief that he might have been murdered.

A coroner's jury, after viewing the body at the spot where it was found, adjourned until Saturday afternoon.

Funeral arrangements had not been completed tonight.
