

BUYING INTERESTS GOOD ONLY THE STOCK MARKET

Number of Issues is Carried to New High Records for Present Year.

RAIL SHARES IN DEMAND

New York, Oct. 14.—Good buying power developed in today's brief and active stock market with the result that a number of issues including United States Steel common, were carried to new high records for the year.

The stock favored by traders were generally those of companies housing huge surpluses available for distribution or likely to increase or resume dividend payments.

United States Steel common advanced to a new high of 107 1/2, the closing price of this stock was associated with a renewal of rumors concerning possible declaration of stock dividend.

Executive of an order for a large block of Texas stock, at the market, the buying being based on dividend possibilities.

Small shares especially in preferred issues appeared to be in good demand. Chicago and Western States touched a new top on a small turnover.

Total sales were \$22,000,000. Foreign exchange rates were firm. Sterling advanced to a new high of 148 1/2.

The weekly clearing house statement showed a decrease of \$17,287,000 in the federal reserve bank's statement of member banks and an increase of \$11,662,000 in the reserve bank's statement of deposits.

Bond prices lost ground as the result of selling of high grade railroad bonds. The market for foreign exchange was centered on three important events.

Commodity prices, as a rule, are still upward, wheat being influenced by reports of a shortage of cotton.

Oil prices are firm, gasoline slightly higher. The market for foreign exchange was centered on three important events.
