## UNVEIL MONUMENT TO PERSHING ON NOV. 11

Imposing Statue Presented to City of San Francisco by Dr. Herzstein.

### EIGHT FEET IN HEIGHT

San Francisco, Nov. 2.—On Armistice day, November 11, a heroic statue of General Pershing, picturing him as if watching troops in battle, will be unveiled in the Golden Gate park here.

The statue is a gift to the city of San Francisco by Dr. Morris Herzstein, a local physician. It was done by an old friend of the doctor, Hug Fatigan, noted San Francisco sculptor.

Eight feet in height, the figure is of gilt-bronze and stands on a pedestal of silver granite. The pedestal is five feet high. It presents the general in field uniform, standing squarely and looking forward, both face and figure animated with the expression of alertness and energy.

On the face of the pedestal is the inscription: "In tribute to General Pershing and the victorious armies of the United States and her co-belligerents during the world war, 1914-1918. Presented by Dr. Morris Herzstein, 1922."

Dr. Herzstein conceived the idea of the statue after he had heard from General Pershing himself the story of the American expeditionary force and saw with his own eyes the fields where that force had won imperishable glory. The doctor toured the battle fields with Representative Julius Kahn, of San Francisco immediately after the armistice and spent

## LAUNCH CAMPAIGN FOR HELP FOR THE CHURCH

Protestant Episcopal Church Starts Drive to Secure Aid From Its People.

### WILL EDUCATE PEOPLE

Chicago, Nov. 2.—To awaken the conscience and intelligence of the people of the Protestant Episcopal church to the needs set out in the program adopted at the Portland general convention, thereby raising the average of regular giving throughout the communion, is the main object in view in the nationwide campaign to be conducted wholly within the ranks of the church, according to a statement by Chicago headquarters of the denomination.

Results of the campaign in the three years now closing encourage church leaders in the belief that the ensuing three years will be equally successful, says the statement, quoting the secretary of the field department.

"In the 33 dioceses of the church in the United States the work of informing our people of the work of the missionary program and explaining the educational methods to the leaders, already is going forward," continues the statement. "Our reports show enthusiasm and determination that will go for another big advance in the missionary, education and social service fields."

## THE CROWD FLOCKS AFTER THE PRINCE

English Sportsmen Follow Prince of Wales to Easton Grey For Hunting.

### ENGLISH SPORTSMEN FOLLOW PRINCE OF WALES TO EASTON GREY FOR HUNTING.

London, Oct. 16.—When the Prince of Wales took up his residence at Easton Grey, the country estate which he had leased for the hunting season, he was followed by scores of persons who had succeeded in renting other property in the vicinity. The announcement that the prince would hunt at Easton Grey was followed by a rush to this lonely section, and houses and estates which have been vacant for years will again be the scenes of house parties and festivities.

Precautions have been taken, however, to allow the prince as much privacy as possible, and the general public will be excluded from the estate. So far no invitations have been accepted by the prince, and he will try to make his visit to the north alone during his visit to the north.

Easton Grey lies just outside the old Roman "White Walls," and near the estate stands the famous abbey of Melrose, which was built by a monk in the twelfth century. The first man to make a flying machine lived as a monk.

Quite an interesting contest is on here now for the office of judge of the recorder's court, and the contest promises to get warmer as election day approaches. For the past two years T. B. **New "Sleeping Sickness" Has Developed Around Kinston**

Kinston, Nov. 2.—Eastern Carolina authorities have taken cognizance of a new "sleeping sickness" superinduced by an alcoholic beverage that has recently come into the limelight. One death has been reported. The victim lay in a state of coma a week before succumbing. He was a negro. The brand was described as "Red Dog" and the bottles were not divulged. The liquor was made in the Tidewater country. It required comparatively little of it to induce a knockout to the lumber, it was said.

Another negro who escaped fatal results described the symptoms as uncanny. "I didn't know my wife and children for three days," he stated.

Officials declare the illicit distilling industry itself is becoming a great aid to enforcement of the prohibition laws in the section. Frequent discoveries of bugs and rodents in mash barrels and the distilling apparatus have caused many tappers to experience a revulsion against moonshine. Ill effects from drinking the products and occasional fatalities have scared many who "like a drink" into habitual abstinence. Authorities are said to be hoping to secure a sample of "Red Dog" for analysis.

**Elon's Faculty Nevele Club Meets With Mrs. F. C. Corboy**

Elon College, Nov. 2.—Mrs. Frank C. Corboy was hostess to the Faculty Nevele club in its meeting this week in regular bi-monthly session. The guests gathered at her home in the village here for their season of merriment on this occasion.

A Halloween program was arranged by the hostess in which the guests participated in a number of games and contests, such as biting bobbing apples in water pails and suspended by cords.

However the feature of the evening was a contest of condiments in which Mrs. J. E. Smith was the individual star, winning first honors. Fourteen various and sundry condiments were placed one each on a little square of white paper.

Café coffee, nuts and apples were served by the host to soothe the parched and burning mouths of the then late contestants of soda tasters, and all indignation was banished and state of tranquility settled over the members.
