Famous Mysteries

Who Was Stephen the Little?

While the identity of Catherine I pushing problems of Russian history—the question as to the fat of Dalmatia, and was identified as the possible of solution, there is nothing in the least mysterious about the second Catherine, who was known as "first husband, Carl Peter Ulrich, grandson of Peter the Great, and, in his own right, Carl Peter Ulrich, and who as temper and capacity for intrigue, both private and public, have become a byword in court circles. Through this very tendency toward plotting and conspiracy, however, Catherine II became involved in a plan to usury the full court circles. Through this very tendency toward plotting and conspiracy, however, Catherine II became involved in a plan to usury the full plants of the prison and Catherine I prodaimed head of the empire. Immediately leader, the Wortenagrine offered their kingship to "Stephen," as the stranger in Cattero, a sespect of Dalmatia, and was identified as the supposedly dead oars by several persons who had been familier with the empirer's appearance and mannarism. This stranger, who gave his his own right, Carr Peter III.

Hardly had Peter ascended the formative diametric that he was the rightful ruler of Russia who had escaped the death prison and Catherine II prodaimed for him by his treacherous wife and who had taken an oath never to return to his native land. Being desirous of socuring a strong leader, the Montenegrine offered their kingship to "Stephen," as the stranger in Cattero, a sespect of Dalmatia, and was identified as the supposed was almost forgotten.

While the identity of Catherine II and was identified as the supposed was almost forgotten.

countries.

It was because of the prominence which he attained in connection with this achievement that Venice, Turkey and finally Russia determined upon the subjugation of Montanegre, lest the little kingdem become too powerful. Venice, alarmed lest Stephen ed in his ambition to secure can trol of Dalmatia, joined the Turks in declaring war against Montenegro. Overwhelmed by an attacking force which eutnumbered his little army ten to one, Stephen laid out an able campaign of counter-attack and finally, aided by a terrific storm which purst over the Turkish camp, swept down upon his enemies, seized their stores and completely routed their

Montenegro secured everything which she demanded, it was apparent that the little nation would have to be considered in mapping out the destiny of the Balkans, a task which Catherine had allotted to Russia and to herself. It was for this reason that the empress commenced a campaign notable for her typical duplicity and cunning. The Montenegrins were supplied with large quantities of arms and ammunition by Russia, in arms and ammunition by Russia, in order to prove that Catherine was their friend and, at the same time, the empress wrote personal letters to Stephen's generals and counselors, denouncing the ruler as an imposter and giving apparently certain proof that Caar Peter had been put to death. As a result of this intrigue, Stephen was imprisoned and nubic death. As a result of this intrigue, in Stephen was imprisoned and public amouncement made that he had admitted his impostures. This, however, did not undermine the confidence which the people felt in his leadership and Catherine, convinced that she would have to attain her ends by means of a different plan, finally agreed to the release of Stephen and his restoration to Russia. The situation, therefore, was that The situation, therefore, was that Catherine continued to rule in Russia while the man who claimed to be her lawful husband and whom she tactily recognized as such, governed Monte-negro until his death in 1774.

But in spite of this recognition by Catherine the great, historians have never been able completely to answer the riddle of the identity of "Stephen the little," one of the many unselved problems o fRussian history. (Copyright, 1922, by the Wheeler Syndicate.)
