Five Desires We met in Shaving Cream,

Gentlemen:

We asked 1,000 men what they most desired in a Shaving Cream. Then we set out to meet those desires as no one else had done.

For 60 years we have studied soap making and developed a world-wide fame. The leading toilet soap in existence—Palmolive—is one of our crea-tions. So we are qualified.

We spent 18 months on this Shaving Cream. We tried out and tested 130 formulas. So we have done our best.

Now we simply ask a trial at our cost, Five supremacies

In these five ways Palmolive Shaving Cream excels any soap you know. The lather is abundant. The soap multiplies itself in lather 250 times.

The action is quick. The beard is softened in

The lather lasts—maintains its creamy fullness for ten minutes on the face. The bubbles are strong. They support the hairs for cutting, while weak bubbles let hairs fall down. The after effects are delightful, due to palm and olive oils.

The soap you are using, however well you like it, cannot match Palmolive in those five respects. We ask you to prove that. Make this free test, in fairness to yourself and us. Cut out the coupon

A furniture manufacturer said that once as a reason for making only good, substantial, well-designed furniture, instead of a showy, poorly constructed and deceptively finished grade which he might have sold just as easily at as good a price.

That is the way we feel about it, too.
