JAPANESE ARE DENIED NATURALIZATION RIGHT IN THE UNITED STATES

Supreme Court Passes On Question and Says "No."

AN IMPORTANT DECISION

Act of Congress Prohibits Other Than Whites and Blacks Becoming Citizens.

YELLOW RACE EXCLUDED

Justice Sutherland, Writing Opinion Says That There is No Question Race Inferiority in the Court's Opinion

Washington, Nov. 13.-Japanese cannot be naturalized in the United States and can not become citizens of this country, the Supreme court of the United States decided today, in its first construction of federal statutes bearing on the subject. The decision was the first delivered by Justice Sutherland as a member of the court and was handed down in a case brought by Takao Ozawa, who in 1914 applied for cit'zenship in Hawaii.

Hawaii.

The ruling is expected to attract wide attention, not only in the United States but abroad, notwithstanding the failure of the court to make any reference to its diplomatic make any reference to be diplomatic significance. The case has been long pending in the Supreme court, and last term when reached for argu-ment during the conference on limi-tation of armament and far eastern questions its consideration was postquestions its consideration was post-poned at the request of the depart-ment of justice. No reference is to be found in the decision to the "gen-tiemen"s agreement," under which Japanese immigration into the coutry has been regulated.

No Mention of Inferiority In the Ozawa case the court stated that "there is not implied— either in the legislation or in our interpretation of it-any suggestion of terpretation of it—any suggestion of individual unworthiness or racial inferiority. These considerations are in me manner involved." It also referred to the "complimentary" terms used in describing in the papers presented to the court "the culture and enlightenment of the Japanese people." With such an estimate, the court said, it had "no reason to dis-saree." Such matters, however, Justice Sutherland stated, could not en-ter into the decision of the case.
"We have no function in the matter,"
he said, "other than to ascertain the will of Congress and declare it."
The questions decided by the court

were whether the general naturali-nation act of June 29, 1906, was lim-ited by the provisions of section 1158 of the revised statutes, author-laing the naturalisation of "free white persons" and those of African birth and descent, and whether, if so limited, Japanese were eligible to limited, Japanese were eligible maturalisation. In an exhaustive an-alysis of the history of the legisla-tion the court held that section 2169 was in full force, and that under it se could not obtain citizen-

ahip in this country.

The court stated that "in all of the haturalization acts from 1790 to 1996 the privilege of naturalization was sonfined to white persons (with the addition in 1870 of those of African

addition in 1870 of those of African hativity and descent) although the paract wording of the various statutes was not always the same."
"If Congress in 1996," it added, "desired to alter a rule so well and so long established it may be assumed that its purpose would have been definitely disclosed and its legislation to that end put in unmistakable terms."

Sober Reflection By the Turks Causes Them To Quit All Provocative Gestures

Constantinople, Nov. 13.—(By Associated Press.)—There was an appreciative slackening today of the tension which prevailed during the week-end over the successive demands of the Kemalists for greater control of Constantinople. Although no official announcement was made, it was stated in allied circles that sober stated in allied circles that sober reflection by the Turks has caused them to decide to make no further provocative gentures before the opening of the Lausanne confer-

The departure today for Lon-don of Colonel Gribben, British chief of staff, and the decision of Sir Horace Rumbold, the British high commissioner to leave Wed-nesday for Lausanne is interpreted as indicating an improvement in the situation. Nevertheless, a persistent impression prevails in some quarters that the allies may find it expedient to evacuate the capital before peace is concluded. It was learned today that the

allied authorities are considering the question of waiving passport vises for Greeks, Armenians and others who desire to leave the city immediately. This expedi-tious movement of population would lessen allied responsibility when the actual transfer of Constantinople to the Kemalists takes place.

Meanwhile the economic situation grows worse; prices of food-stuffs are steadily soaring; busi-ness houses continue to suspend, their owners departing. Owing to the unwillingness of merchants to import further merchandise, supplies are running short; there is only a 20 days supply of the principal foodstuffs. The Greek and Armenian employes of American firms are leaving their posts, seriously hampering operations, and thousands of depositors are withdrawing their funds from the banks, fearing seizure by the Kemalists.

Considered editorial opinion, however, with one exception, sees the incident in a dif-

reception, sees the incident in a dif-ferent light and today's press deals none too kindly with Mr. Fortescue. "The joke appears to be against the secretary of war," says the Ex-press, "until we come to the passage to which he objects and we are bound to agree with him. If any American of repute indulged in that form of criticism against Esglish-men which Mr. Fortescue chose to omploy in his book our war secre-tary, too, would be justified in di-recting that he should be barred from addressing our budding of-ficers. It is reported Mr. Fortescue has abandoned his proposed lecture tour of America and we congratu-late him on his decision."

The President himself has admitted at times that his legislative program could probably not be finished before the members of the present Congress went out of office in March. Two factors, according to the President's advisers, will make an extra session necessary. One is the heavy legislative program. Another is the doing of the progressives to orce an extra session.
