

OFFICIAL VOTE IN GUILFORD COUNTY ELECTION HELD NOVEMBER 7, 1922

GROVER LAWRENCE IS KILLED IN CAR WRECK

Southern Railroad Employee In Greensboro Loses Life When Auto Turns Over.

BROTHER BADLY INJURED

Winston-Salem, Nov. 12.—Chairman J. Elwood Cox, with his associate committee men, representing High Point in the arrangement of plans for opening of the modern concrete highway between Winston-Salem and the Furniture City on November 25, will arrive here tomorrow for a conference at 3 o'clock with the local committee to discuss preliminary plans.

Grover Lawrence, native of Francisco, Stokes county, died last night at a local hospital, following injuries received in an automobile accident near King about 10 o'clock Sunday night, and his brother, Wesley Lawrence, is a patient at the hospital suffering with serious injuries. Grover Lawrence had spent the week-end at his home in Stokes, and his brother was driving him to Greensboro, where he holds a position with the Southern railway, to resume his duties this morning.

As they rounded a sharp curve near a bridge between Rural Hill and King the Ford car in which they were riding turned turtle, falling down a steep embankment. Occupants of a passing car discovered the wreck, and upon investigation found Grover Lawrence in an unconscious condition, with the fender of the car resting on his chest. Wesley Lawrence was also in a serious condition. Drs. Heilsbeck and Stone, of King, were summoned and they rushed the injured to the hospital here. Grover Lawrence never regained consciousness, death following a short while after reaching this city. It is thought the brother will recover.

Federal warrants were served on J. D. Waggoner and G. D. Hill, members of the firm of Waggoner and Hill, livestock dealers, this morning, charging them with aiding and abetting J. S. Barr in making false entries on the books of the Peoples National Bank. Bonds for the appearance of these men before United States Commissioner W. H. Becker, dated on December 1, were given. It will be recalled that J. S. Barr was indicted a short time ago by the federal authorities when it is alleged it was found that his books at the bank were irregular. The amount involved is said to be more than \$28,000.

At a meeting of the pastors of the various Baptist churches in the city this morning in the office of Hugh P. Lattimer, assistant pastor of the First Baptist church, plans were made for the entertainment of the delegates that will come here on December 11, for the Baptist State convention, which is to be held in Salem Baptist church.

NASH COUNTY ERECTS TABLET TO HER DEAD

Memorial to World War Dead Unveiled At Nashville On Armistice Day.

AN ELABORATE PROGRAM

Rocky Mount, Nov. 12.—With a program of oratory and patriotic exercises clustered around the dedication of a memorial tablet to 35 of her native sons who made the supreme sacrifice in the world war, Nash county paid tribute to her war heroes, living and dead, at Nashville Saturday.

Sandwiched in between the beginning and the ending came a boundless array of oratory with Congressman E. W. Pou, of Smithfield, as the speaker. Mr. Pou's patriotic address and eulogy of the war heroes and their ideals, the tablet, erected by the county commissioners in memory of the county's sons who gave their lives in the war, was formally dedicated by the speaker.

The program got under way shortly after 10 o'clock Saturday morning with a monster parade which formed at the Nashville graded school and marched through the town to the platform in front of the courthouse. Heading the parade came Col. L. E. Shucker, generalissimo in charge of the celebration, and his staff mounted on the same the various county officials and speakers in cars, while

REPARATIONS BODY MAKES NO PROGRESS

No Decision Reached by Commission Which Has Been in Session Some Time.

Paris, Nov. 12.—(By Associated Press.)—The reparations commission at 8 o'clock this evening, after three hours of discussion of the situation of Germany financially and economically, as viewed under the commission's recent visit to Berlin, found itself just as far from agreement as when the session began.

A deadlock in the commission again seems imminent, although it is reliably reported that M. Barthou, the chairman, has been favorably impressed with the proposed solution contained in the report of the foreign experts who recently went to Berlin to study the situation. It is stated that Premier Poincare insists upon the imposition upon Germany of field guarantees before anything else.

It is suggested in one quarter that the reparations problem might be left in essence until the inter-allied conference at Brussels on the question of reparations and interrelated debts is held, but those members of the commission who can see no good in delaying the matter are confident of urging a decision by the commission. The fear of the collapse of the present government in Berlin is also considered a factor which it is argued should hasten some conclusion on the reparations question.

REICHSBANK WILL LOAN 20,000,000 GOLD MARKS Berlin, Nov. 12.—(By Associated Press.)—The German government to-night forwarded a formal note to the reparations commission in Paris informing the commission that the reichsbank is prepared to advance the German government 20,000,000 gold marks toward a loan to stabilize the mark, provided an equal amount is forthcoming from abroad and subject to the conditions proposed by the foreign financial experts who recently visited Berlin as essential to the success of the stabilization project.

Narcotic Thieves Busy In Many Cities of Virginia Richmond, Va., Nov. 12.—A series of burglaries in which narcotic thieves recently have stolen large quantities of drugs was responsible for a warning from federal narcotic inspectors today to drug stores throughout the state to take every precaution against burglary of their stores. Two local stores have been robbed within the past week.

NEIGHBORS WERE ASTONISHED AT CHANGE IN HER

"I had lost nearly all faith in medicine, but I am thankful a thousand times over that I ever believed in Tanlac strong enough to try it." Recently I saw Mrs. Martha Baker, 508 East Sixth street, Gastonia, N. C. "My daughter thinks I might not be here now if I had not used Tanlac, and no doubt she is right, for I was feeling pretty bad. The lightest kind of food hurt me and many times I could not retain anything I would eat. I was also fearfully nervous, couldn't sleep, and got up mornings completely worn out.

PENNSYLVANIA MEN TO GET IMPORTANT POSTS

Chairman of Committee on Committees Now Holds Tremendous Power.

MANY CHANGES MADE

Washington, Nov. 12.—Pennsylvania, with seven, will top all the states in big committee heads in the new Congress, unless the seniority rule is abrogated. All told, there are 60 standing committees, but some of them have little to do with important legislation. The seven important chairmanships Pennsylvania is expected to have are: Banking, claims, foreign affairs, judiciary, naval, postoffice, and printing.

Some of the far west—all big ones—will have and mean all-powerful of itself: roads, agriculture and insular affairs, although Chairman Tower of the latter could relinquish his office to take education, but to Ohio through the shift of Representative Fess to the senate.

Illinois will hold on to appropriations, the biggest committee of the house, and the proposed committee as to New York, rivers and harbors, accounts, and Indian affairs will remain with New York, which has few Indians like those who used to be there.

In the present house, with a solid delegation, Ohio has the chairmanship of only one big committee—education. Ohio members insist the old seniority system ought not to keep them out of honors they claim as their due.

The far west will hold on to several important committees, labor, military and territories. Minnesota last Tuesday lost the heads of judiciary and post office, holding on to petition and northwest is beginning to clamor for greater representation.

Some of the committees were shot to pieces by the committee on expenditures and industrial arts looks as if a cyclone had struck it—eight of 10 Republicans being off after March 1, 1923.

Indiana will get the chairmanship of census, which must frame the bill for house reapportionment. There will be a big shift around reorganization whether the seniority system holds up or falls down. About 10 vacancies are to be filled on appropriations. A scramble already has started for four of the chief Republican places on the rules committee, which will be vacant.

Massachusetts will cling to merchandise and interstate commerce, two committees in which important legislation will be considered. The steering committee, which also legislates, consisted of seven members, two of whom will not come back. Greene, of Vermont, was elected to the senate, and Dunn, of New York, did not run. The others who held over are Harrow, Pennsylvania; Longworth, Ohio; Sanders, Indiana; Anderson, Minnesota; and Nolan, California. New England and New York will insist on continued representation.

Two committees may be abolished. One is woman suffrage and the other is control of the liquor traffic. Members say they might as well be wiped out.

As chairman of the committee on committees, which picks men for the hundreds of places, Representative Mann, of Illinois, the veteran of many legislative battles, is in a position of power greater than that of any other man in shaping the organization of the next house.

GUILFORD SCHOOL TAX PLAN MAY BE ADOPTED BY THE ENTIRE STATE

(Continued from Page One) therein. And in the third place, plaintiff contended that the provision for paying the antecedent indebtedness of the special tax districts out of the special tax levied under the local act impaired the obligation of the contract existing between the bondholders and the school districts in which the tax had been levied.
