

UNIQUE APPEAL MADE FOR EVERGLADE FOLKS

DR. LEATHERS CHOSEN PRESIDENT OF MEDICOS

Dr. Lawrence Royster, of Norfolk, is First Vice-President Southern Society.

Flood Victims of Devastated Area Want to Borrow Money to Begin Life Anew.

WILL REPAY IN FULL

Jacksonville, Fla., Nov. 16.—A unique appeal for assistance has been sent out by a committee representing the flood victims of the Lake Okeechobee section of the Everglades. Rev. W. M. Moore, minister at Moore Haven, is chairman of the committee. According to the appeal, \$10,000 in the nature of a neighborly loan is needed to prevent actual want and to put the section's industry, now at a standstill, on its feet.

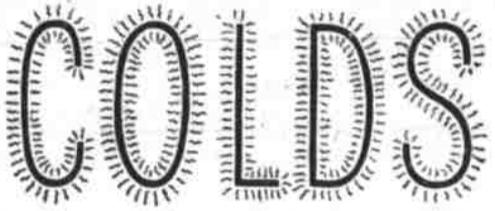

It is emphasized that a loan and not charity is sought. The committee describes conditions in the section growing out of almost unprecedented heavy rainfall this year, and the resultant damage to crops, credit and the two banks of the Everglades. It was out of the section that they have been forced to turn their affairs temporarily over to the state comptroller. As a natural sequence, merchants are demanding cash for their wares. Consequently those who have always enjoyed comfortable bank accounts are hard put while the non-property holders who subsisted by their day's labor are destitute.

The people firmly believe in their community, the appeal continues, and hope to pay back every penny borrowed by the committee.

Mindful however that some donors do not want them the money back, the committee plans to administer subscriptions from \$5 up in two funds. Where the donor so specifies his money will be distributed from the "charity" fund, while in the administration of the "loan" fund promissory notes will be taken.

Leader Will Ask Lausanne Conference to Clear Out the British Troops.

Lausanne, Nov. 16.—(By Associated Press)—Real independence for Egypt and the Sudan will be demanded of the British troops and no special privileges there for Great Britain is the demand of the Egyptian people which will be placed before the Lausanne peace conference. Hassib Pasha, head of the unofficial Egyptian delegation, told the Associated Press today that his statement revealed the fact that Egypt and the Egyptians have their way will form one of the disputation problems of the conference.

Hassib, who was former minister of public works, said his great aim was to develop direct economic relations with the United States at this conference which is so portentous for the future of Europe and Africa, he hoped America would stand by Egypt in her just demands for freedom. His colleagues around him interjected words of admiration for the United States, seemingly making it evident that at Lausanne, as at Paris, all nations seeking fulfillment of their aspirations will look yearningly toward the United States.

HALL-MILLS LETTERS ARE TO BE PRODUCED

Attorney For Miss Charlotte Mills Will Give Them to the Authorities.

New Brunswick, N. J., Nov. 16.—Original letters, said to have been written by the Rev. Edward Wheeler Hall to Mrs. Eleanor Reinhardt Mills, who were murdered on September 14, are to be turned over to the authorities tomorrow by Miss Florence Hart, attorney for Charlotte Mills, daughter of the slain woman, it was announced tonight by Special Detective Mason.

James Mills, widower of the choir leader, today received \$500 of the \$1,000 which Miss North is said to have obtained through the sale of the publication rights of the letters. Five other letters are expected to figure prominently in the case in connection with the prosecution's claim that Mrs. Frances Noel Stevens Hall, widow of the rector, had knowledge before the murders of the intimacy which existed between her husband and his choir leader.

Detective Mason also announced that the coroner would present to the grand jury testimony of two more witnesses whose stories have never been made public. The stories of these witnesses, he said, were considered "trump cards" in the case which would almost surely result in the returning of indictments.

The story of Mrs. Jane Gibson, the woman alleged to be one of the two killers, has been checked up in every way, Detective Mason said, and all attempts to find flaws in it have failed. Her story was strengthened further today by the announcement of the authorities that they had found the driver of the ramshackle wagon which Mrs. Gibson said she followed to the scene of the murders when she was searching for corn thistles.
