WILL ERECT MEMORIAL TO HONOR WAR HEROES

Large Commissioners Take Initial Step—Name Committee to Further Plans.

TALK ABOUT ROAD WORK

Three squads of convicts, consisting of 87 men, and 11 gangs of laborers, consisting of 44 men, are at the present time being used for the maintenance and building of roads in Guilford county.

The first step to commemorate the deeds of patriots took form yesterday at the meeting of the county commissioners when W. C. Jones, of High Point, and L. T. Barber, of Gibsonville, suggested the erection of this monument. The monument went over with a bang by other commissioners. For the purpose of perfecting plans—the selection of a suitable style, the figuring of the cost and the determining of the place where the monument will be erected—a committee was appointed consisting of J. A. Hankin and W. C. Jones, of the board of commissioners; Jack Stevens, commander of the Henry K. Burtner post of the American legion; Mrs. C. D. Benbow, of member of the local American legion auxiliary unit; Dr. J. T. Barber, of member of the American legion post, High Point, and Mrs. John R. Peacock, a member of the High Point American legion auxiliary unit.

While no definite plans have been formulated as yet for this monument, it was intimated yesterday that the huge memorial would be of granite foundation, while a bronze facing of the center, the names of the Guilford county men who served in the late war.

The names of those who were killed in action or who died while in the service would be given a separate place on the monument. It was also stated that the postoffice address of the ex-service men would not be given. Just what wording will be inscribed on the monument is left in the hands of the appointed committee.

The commissioners indicated yesterday that the monument would, in all probability, be erected in the middle of the passageway leading into the courthouse from the Market street side.

L. T. Barber, of Gibsonville, serving his last term as a member of the present board of commissioners, by virtue of his defeat in the recent election by G. A. Garrett, of Julian, was yesterday presented by the grading and sand-claying of the road from Greensboro to company mills by way of Dan Hill's. This stretch of road, about nine miles in length, was started in April and was finished yesterday.

A convict force is now working in the widening and building of a sand-clay road from Oak Ridge to Sumnerfield and another on the road from Guilford College toward Sumnerfield, while still another force of convicts is being used on the county highway leading from Gibsonville toward the Oosteppe Mills to the county line.

The maintenance work is being done by the 11 gangs of four men to a gang. These workers are placed in various sections of the county repairing bad spots in the roads.

At the next meeting of the board, G. A. Garrett, the newly-elected member, will take his seat. Road matters in general were discussed by the board, but road maintenance occupied the major portion of time at the meeting. J. Giles Foushee, in charge of this work, stated that the convict camp at Guilford College, where a convict force consisting of 26 men will be used in sand-claying roads in that vicinity.
