

JUDGE O. H. ALLEN ON PROHIBITION QUESTION

Retiring Jurist Has No Satisfactory Views On Solution of Problem.

HE HAS SERVED 36 YEARS

Kinston, Dec. 26.—On the subject of prohibition, I have no satisfactory views as to the solution of this question. So long as a man is a slave to the "lust of the flesh," it will be unsolved. Grown people need education as well as the young. There ought to be campaigns of education by discreet men—not fanatics. Rigid legislation will make better people, and that is the need of the hour.

tion of two of them to life sentences. In discussing the subject of more Superior court judges for the state, Judge Allen said more such officials are needed. "but there is more virtue in the law's delay than in its generally known." These delays he continued "have saved many a man from wreck, especially in hard times."

BEWARE THE COUGH OR COLD THAT HANGS ON

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action; it soothes and heals the inflamed membranes and kills the germ.

Creomulsion is guaranteed satisfactory in the treatment of chronic cough and cold, bronchial asthma, catarrhal bronchitis and other forms of throat and lung disease, and is especially for softening up the system after colds or the flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist, Creomulsion Co., Atlanta, Ga.—(Adv.)

Physicians everywhere will tell you the salicylic acid found in aspirin is powerful combatant of pain, and particularly effective in the case of rheumatism.

Concrete Road Building Again Breaks All Records 75,000,000 square yards of Concrete pavement have been placed under contract this year—a gain of more than 30 percent over last year, the largest previous year. The construction thus provided for, and to a large extent completed, is equivalent to more than 7,000 miles of 18-foot pavement. That is a larger amount of Concrete highway than there was in the country altogether up to 1917. These facts witness the determination of this country to have roads equal to the traffic they bear. Yeteven with this great record, the output of motor vehicles continues to outstrip by far the construction of motor roads. The revolution in road traffic due to the automobile has called for hole-proof, skid-proof, really enduring pavement; and Concrete fills the need. That is the explanation of the steady, rapid gain in Concrete road construction during the last decade—the largest development in basic transportation facilities in this country in many years.
