Subscription Rates table with columns for duration (One Year, Six Months, Three Months, One Month, One Week) and price.

No communication will be published in THE EVENING TELEGRAM unless accompanied by the name and address of the writer, though the name will not necessarily be used.

Entered as second-class matter Oct. 27, 1911, at the Postoffice at Rocky Mount, North Carolina, under the Act of March 3, 1879.

TRAINS LEAVING AND ARRIVING.

Train schedule table with columns for Train No., Destination, and Leave/Arrive times.

Thursday, July 13, 1916.

The city has some high weeds all its own to go after and they are along the railroad right of way through the city and while we are willing to yield a vote of thanks to the street committee for doing the work, it looks to us as a mighty little incentive in so long as old scales and bales of cotton, badly washed ruts and old tool boxes, and a lot of undesirable rubbish is stored nearby.

We don't think we would have a great amount of trouble convincing the most ardent non-progressive in the community of the fact that a public library would be a good thing for Rocky Mount, not a bit of it. Of course there might be some who would place the limitation there and would then declare that we didn't need it and it is this sort of fellow that we enthusiasts for the cause must set out to convince. Let's work among them and when the Chamber of Commerce committee gets ready to start the ball to rolling let's count the cratwile opponent on the right side for this proposition.

The fact that Rocky Mount isn't able to land at the top of the column in the league standing isn't any reason that they are not playing baseball or that the team should not receive the financial support of our citizens, in tickets bought at the gate. Baseball is a great big thing for Rocky Mount and this thing of having the only Class C franchise in the State puts this city in the forefront with towns all over the nation. We couldn't afford to drop it here, and there is no such idea, and there is no "S. O. S." signal being sent up by the management—but just a little friendly warning that attendance, more attendance would be appreciated.

The way France and Great Britain are attempting to satisfy the world that the German submarine freighter, the Deutschland is a war vessel is really amusing to the rest of us. The Central powers have certainly scored and scored heavily since necessity is the mother of invention and the demand for such a craft from its turning such a craft from its even declining to give it more supplies enough for the trip to nearest German port, wouldn't naturally hurt the Germans. What they are doing is the money that the Americans are for either dyes, medicines and oils and, while we might wish to neutral in this matter it looks very to us as though we would be the allies if we attempted to do so, to harm or to interfere with the island.

no longer a question of "harp" a proposition and it has passage with pretty nearly all of the merchants and it is high time we were fixing that South Whitewater road, four miles of road. It will be left for work before tobacco market opens. There are a lot of peddlers that have in the past selling their bright leaf here that are going to try that road but once, and in most impassable condition now and winter rains can be counted on to do the rest. Rocky Mount cannot afford to let this four miles of road isolate them from so rich a market and it is high time that we do it. The Chamber of Commerce tonight and we don't want to be more timely subject, at that would do any

White Pumps

Are the most popular sellers in summer footwear. The "WHITE" season is now in full blast.

aided that \$1,800 is enough to pay a submarine that is unarmed, but that whole time health officer and they are now advertising for just such a man to fill that capacity. It is to be hoped that the advanced step for health that has been taken by Nash county will not now be lost and this county one of the foremost in the State in this work is now hanging on the brink. The commissioners are said to have satisfied inquirers with the declaration that since it appeared that Nash county was to prove a training school for the whole time health workers that they would pay prices that were commensurate. And so the salary has been cut from \$2,400 to \$1,800 per year.

If Mr. Wilson hasn't had more than one man's share of problems to deal with in connection with the European clash, we can't recall in history where there has been a President that has him beat. The latest problem shoved upon him is the interpretation of whether or not a

There is no denying the fact that the talk of a sand-clay road for Falls road to replace the worn macadam isn't going to get the approval of a great big number of residents along the street, and really we don't know that we blame them. However the best information on road building declares that gravel, sand and clay, with concrete gutters can be rounded into about as good a road as there is anywhere and especially as one represents thousands

HOW APPENDICITIS CAN BE PREVENTED

Rocky Mount people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adlerika, often relieve or prevent appendicitis. This simple mixture removes such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE of constipation, sour stomach or gas. A short treatment helps relieve stomach trouble. Adlerika has easiest and most thorough action of anything we ever sold. The Griffin Drug Co.
