Petrograd, Sept. 10.—Premier Kerensky has declared that a state of war exists in the town and district of Petrograd. He also has ordered General Korniloff, chief of the Russian armies, to resign in consequence of General Korniloff's demand for supreme power. General Klembofsky has been appointed commander in chief.

Premier Kerensky in a proclamation says on September 10, a member of the Duma called upon him in the name of General Korniloff to hand over all civil and military powers to General Isimo, who would form a new government at his pleasure. Considering this an attempt to bring about a military dictatorship, Kerensky orders General Korniloff to hand over his functions of General Klembofsky's commander in chief of the armies of the northern front, which lays the way to Petrograd.

Believe His Designation Sought Washington, Sept. 10.—Russian embassy officials believe that the resignation of General Korniloff was forced by elements of the council of workmen and soldiers delegates opposed to enforcement of the death penalty for military offenses and General Klembofsky, the new commander, will modify the death penalty orders. The embassy has not received official news of General Korniloff's removal.

Cabinet Considers the Revolt Petrograd, Sept. 10.—Eleven cabinet members have been in a continuous session in the winter palace today, considering the measure to face Gen. Korniloff's revolt which in conversation with the Associated Press correspondent the minister admit is the gravest event since the revolution.

Outlaws Holding Manchurian City Haier, Manchuria, Sept. 1.—(Correspondence of the Associated Press.)—Officials of the Russian government are endeavoring to remove the Mongolian outlaws who have seized this city to abandon their deputation and return to Mongolia.

For more than two months the Mongolians have been in virtual possession of this large municipality. They have not interfered with the Trans-Siberian railway and property in the railway zone, but their occupation has stopped all business within and the town has interfered seriously with the delivery of hides, wool and other products which normally are shipped in large quantities from Haier.

M. Grave, the counselor of the Russian legation at Peking, is here negotiating with the outlaws, and hopes to induce them to return to Mongolia. Foreigners have not been interfered with to any extent by the Mongolians, but Chinese and Chinese and Chinese property are also lately under their sway.

The inciting party numbers about five thousand. When they first arrived here they carried the red flag of the Russian revolutionists and declared they were in sympathy with the republican movement in Russia. When the Chinese emperor was put back upon the throne in China, the outlaws announced they were Chinese monarchists and flew the yellow flag of the monarchy over Haier. They are flying the red and yellow flags and profess to believe that the emperor is still on the Chinese throne.

NEGRO LABORERS WALK OUT TODAY

Say Demand for 6 1-2 Cents Increase Per Hour Was Not Granted

OVER 300 ON STRIKE Negro Employees of A. C. L. at South Rocky Mount Walk Out, Although Increase of 4 Cents Per Hour Was Granted.

Because their demands for an increase in wages of six and one-half cents an hour—although the railroad had agreed upon a four cents an hour increase—and back pay dating from March the first was not granted, from 300 to 500 colored employees of the Atlantic Coast Line Railroad at South Rocky Mount walked out this morning at 11 o'clock.

According to statements of the colored men, their organization is the Federation of Labor, but this affiliation is doubted among local labor circles. The demands of the negroes were made on last Friday, through a committee of four. They were advised at the time the demands were presented that the matter would take its regular course and be considered by the railroad. However, the committee which presented the demands gave officials until this morning in which to comply. At eleven o'clock there was no indication that the demands had been complied with, so the colored men walked out.

The new scale of pay granted by the railroad company—a four cents an hour increase—would make the average wage of the colored workers range any where from \$1.00 to \$2.50. This average of daily wages for the colored men would be still greater increased if the six and one-half cent rate were granted.

The strikers claim that 475 of their members have walked out, and that there are only about a half dozen negroes at work at South Rocky Mount. The colored men who declared a strike today were drawn from the ranks of the yard helpers, boiler helpers, machinists helpers and porters. This organization is believed to be the youngest labor organization in the city, as it was not represented at Washington on August 24, when the recent railroad controversy was settled and the agreements between the officials and workmen made.

NEGRO TROOPS TRAINED IN STATE

As Far as Possible They Will Be Sent to Cantonment Camps in State in Which Troops are Raised.

Washington, Sept. 10.—Negro troops of the National army will be organized in separate units as is done in the regular army and as far as possible will be trained in the states where they are raised.

The call for negroes to mobilize at their camps will be postponed to allow the officers at the camps to arrange for the organization of these separate units. Both white men and negroes of the selective draft forces will be given an opportunity to volunteer for service in the battalions of troops for service in the lines of communication their work being military but non-combatant.

However there will be negro fighting regiments of the national army as there are of the national guard. Secretary Baker outlined this policy of the war department today in a statement dealing with the method to be followed in the organization and training of negroes.

Both white men and negroes of the selective draft forces will be given an opportunity to volunteer for service in the battalions of troops for service in the lines of communication their work being military but non-combatant.

GERMAN PAPERS IN A FURY

Resent Suggestion That Kaiser Must Be Eliminated Before Talking Peace

WANTS ITS DECLINED Some of the German Newspapers Resent Suggestion and Demand "Hands Off" Policy by the German Reichstag.

Amsterdam, Sept. 10.—There was a fresh outbreak of rage against the United States in Saturday's newspapers in connection with Secretary Lansing's reported denial of the statement that America would not insist on the elimination of the Hohenzollerns before entering into peace negotiations.

The Reich West Falsche Zeitung carries a headline that crosses an entire page in large type reading: "America demands the deposition of the Hohenzollerns," which it follows with a furious denunciation of America in which the alleged demand is alluded to as "the climax of the arrogant insolence of the American government," which it adds, "we hope will be met by an emphatic hands off from the Reichstag.

EXPECT DIFFERENT PEACE PROPOSAL

England Thinks Germany Will Make Peace Offer by the Winter

ASK STOP FIGHTING Status Quo Offer will be Declined by England Just as German Statesmen Plan, But is Preliminary Steps for Future Negotiations.

London, Sept. 10.—Throughout England there is a general belief that a very definite peace offer will come from Germany before winter and that the offer will suggest immediate cessation of hostilities in a status quo basis. Entente statements have indicated that they will refuse such terms and no doubt Germany is aware of this but the German leaders regard a status quo offer from the German side as an indispensable step of the preparation of a German public opinion for further concession.

Paris, Sept. 10.—According to a telegram from Haxe, where the Belgian government is temporarily located, about 150 Belgians have succeeded in crossing the frontier into Holland and freedom in a curious manner.

The German military authorities had decided to have certain trees cut down because they interfered with the view of the trenches placed along the barbed wire fencing and the cable which charged with a strong electric current, prevent persons from escaping from Belgian territory. One hundred and fifty inhabitants of Selmaete were requisitioned and ordered to work at cutting down the trees.

The improvised tree cutters succeeded in doing their work in such a way that several trees fell across the barbed wire and the electrified cable, and made a wife safe opening. They proceeded to Dutch territory, accompanied by their five German guardians, who had long groined tired of their duty and were only too pleased to desert, bag and baggage.

AUSTRIAN PAPERS TALK OF PEACE

The German Papers Declare Nation Would Be False to Self

DON'T ASK TERRITORY The Austrian Newspapers Want Chancellor Michaelis to Declare For No Indemnities or Territory as Peace Basis.

Copenhagen, Sept. 10.—The Nachrichten of Hamburg, in discussing the question of peace, says that both Austrians and pan-Germans declare that Austria would be false to herself and Germany if she advocated a speedy peace based on renunciations of annexations and indemnities by Germany.

The Nachrichten's Vienna correspondent assails the Vienna Neue Freie Press, the Zeit and the Sunday and Monday Gazette, all of which have printed articles intimating that Germany is the great instance to the conclusions of peace and calling upon Chancellor Michaelis to put forth a plain unconditional statement, accepting the base of no annexations or indemnities and to take real steps to introduce a democratic government in Germany.

New Bern, Sept. 10.—The jury in the Henry Connor case, in which the defendant was charged with an attempted criminal assault on nine-year-old Mary Jones, reached a verdict a few minutes past ten Saturday night and court reconvened to hear the verdict and dispose of other matters pending.

The verdict of the jury was that Connor was not guilty, and after the solicitor informed the court by long distance telephone from Beaufort that he had no other charges against the defendant, he was discharged.

Immediately United States Deputy Marshal George B. Waters served a warrant on Connor in which he was charged with retailing whiskey and also having in his possession whiskey on which the federal tax had not been paid. The defendant was carried before Commissioner C. B. Hill for a preliminary examination, which was continued and in default of bond Connor was committed to jail.

VALIANT FIGHTING BY THE AUSTRONIANS TO STOP ADVANCE

General Petain's Forces Inflict Heavy Losses on Verdun Front

ANOTHER OUTBREAK MACEDONIAN FRONT The German Advance in the Riga Region Is Said to Be Definitely Halted by the Russian Army Defending That Sector.

The great battle which General Cadorna is waging for Mont San Gabriele is continuing uninterruptedly despite the inclement weather. The Austrians are now being subjected to unrelenting pressure, but by means of heavy concentrations of fresh troops they have been able to keep the Italians from achieving the notable success that completion of the capture of the mountain would constitute. The Italians so far have captured 145 guns from the Austrians since the beginning of this offensive.

Gen. Petain's troops last night clinched the success they won north east of Verdun on Saturday when they pushed their lines ahead materially in the Pogues and ouriers wood sector. The Germans were obliged to abandon their ferocious assaulting tactics of the day, probably because of the heavy losses they sustained which left the French line unshaken. Paris characterized the repulse sustained by the town Prince as an important one and dwells upon the serious extent of the casualty inflicted by the French fire.

There were only raiding operations in the remainder of the French armies' front and there was a similar lack of activity of a major sort along the British lines. Gen. Haig's troops put in a busy night in successfully consolidating the positions taken by them yesterday northwest of St. Quentin in the neighborhood of Hardcourt, ondon announces Berlin, declares, however, that this ground was taken by the Germans early today.

The Macedonian fighting is again assuming importance. On the extreme west of the front the French have apparently massed a considerable force. Yesterday they reported occupying several villages in the Malik region and the German war office today admits that Teutonic forces were obliged to retreat before superior French pressure.

The German advance in the Riga region is definitely halted according to indications in the current reports. The only events reported here today by Berlin are clashes between Russian raiding parties and German reserves.
