## A GREAT PICTURE "THE BARRIER," TODAY

From the first showing of "The Barrier," by Rex Beach, from his famous novel, at the Broadway Theatre, in New York, this wonderful picture has proved an amazing success. It captured the big audience at the very start. It held them breathless through scene after scene of swift, stirring action. It called forth waves of applause as the thrilling climaxes were reached. And all because "The Barrier" is a great picture, greatly produced—the highest development of the photo-drama.

A unique phase of the New York run is that the press has been absolutely unanimous in praise of "The Barrier."

The entire production was made under the direct supervision of Mr. Beach himself, who organized the Rex Beach Pictures Co. to produce in moving pictures his many popular novels. "The Barrier" is at the Grand Theatre today.

## PEARL WHITE COMING IN A GREAT SERIAL

The Grand theatre has secured Pathe's late serial photoplay, "The Fatal Ring," which will start on Wednesday, October 31st. The biggest feature of this serial is the fact that Pearl White is the star. Miss White has won the enviable record of being the most popular serial star and local fans are anxious to see the first episode of her new picture. Every motion picture trade paper has rated "The Fatal Ring" as being the best ever screened and they all agree that Miss White outdoes even her former records. Don't by any means miss the first installment on Wednesday. A little coupon is printed in today's ad on this page which will admit any lady or child to the afternoon shows, between one and six, free. This is done because we know that we have a picture you will like and we want to get your interest at the start. Anyhow it can't cost you anything if you clip the coupon, to see the first installment, so take advantage of that offer anyway. Other pictures will be shown on Wednesday. The prices on Wednesday will be five and ten in the afternoon and ten and fifteen at night.

The boy who cheered when he marched away will stand knee deep in trench mud, he'll face poison gas and deadly flame. He will endure all the terrors of modern battle. That is his bit. You bit, perhaps, is to save one slice of bread a day in order that he may not fight in vain.

## MARGUERITE CLARK COMING

"The Amazons," starring Marguerite Clark, will be shown at the Grand Theatre on Friday of this week. "Laugh, and the world laughs with you—cry, and you weep by yourself" contains wisdom. Marguerite Clark. There'll be no danger of the latter if you see her in her latest Paramount picture, "The Amazons," for it is a screamingly funny satire and is crammed full of hearty laughs.

## BLAMED SHOOTING ON WRONG PERSON

Kinston, Oct. 29.—Paul Jones, conf. try youth who when he was fatally wounded by the accidental discharge of a friend's pistol at a South Kinston resort, placed the blame upon another to shield the friend, is dead here. Jones, about 18 years of age, a short time before his death confessed to his father that Lillie Gallely, who was held in jail for the shooting, had nothing to do with it. In a previous statement Jones said that the Gallely woman shot him. Evidence gathered by the authorities was that Lillie Gallely was in another part of her house when Jones was shot. Jesse Mabes, a youthful companion, shot him, Paul Jones declared to his father. When Mabes was apprehended, he said, a hole would be found in one of the pockets of his coat. The pistol was in that pocket and was not in sight when it was discharged. There was no malice, the dying youth intimated. His abdomen perforated, Jones' death was expected from the moment of the shooting. The boy and Mabes had been drinking. It is alleged by the sheriff's office here, Sheriff's officers are looking for Mabes, but so far without success. He is believed to be hiding and badly frightened.

## OFFICIALS CAN'T HAVE BUT ONE JOB

Paris, Oct. 27.—To prevent members of parliament from holding any other public office, elective or nominative, or from participating in business dealings with government departments, a bill has just been introduced into the Chamber of Deputies. This bill is supposed to have been provoked by recent excitations and rumors regarding the participation by members of parliament in business transactions with different branches of the French government, neutrals, and it is asserted, even with Germany.

At present the same person may be at the same time a deputy or senator, minister, mayor of a town and member of the general council of his department. There is nothing which prevents him from engaging in business enterprise of the state, department or communal administrations. This bill is intended to prevent cumulative office-holding, excepting that deputies and senators may still become ministers.

## PARIS NOW HAS SOLDIER-POLICE

Paris, Oct. 27.—Some of the soldier-policemen, veterans of the Marne, of the Yser and Verdun, have made their appearance in the streets of Paris, after having done their share of making war, and they are showing themselves quite capable of doing their bit in the keeping of peace.

## GERMANS DESTROY GUNBOAT EBER

Rio Janeiro, Oct. 29.—The German Saturday set on fire and sank the German gunboat Eber, 984 tons, which has been lying at the port of Bahia, fearing seizure of the gunboat by the Brazilian authorities. Torpedo boat destroyers were ordered yesterday to take possession of the Eber.

(Yesterday the Brazilian chamber of deputies and senate declared a state of war between Germany and Brazil, and President Braz sanctioned the proclamation of a state of war with Germany. The gunboat Eber, which was 200 feet long, had a complement of 125 men.)

## VENICE CATHEDRAL MADE BOMB PROOF

Venice, Oct. 27.—Correspondence measures for the protection of Saint Mark's, the most famous monument of Venice from the enemies' bombs have now been completed. The face and sides of the Cathedral are enclosed by an armor of bags of sand held in place by scaffolding which is lined with asbestos as a protection against incendiary bombs such as the one that fell a year ago within a few yards of the main entrance.

The mosaics both inside and out are protected from the rushes of air that might result from explosions by canvas stretched beneath them which would serve also to catch all the fragments that might fall and preserve them for restoration.

All precious objects and works of art that could be removed including the four colossal Greek horses on the facade have been removed to safety in the treasury of the basilica which has been transformed into a strong room, strictly armored. Those in the interior that could not be removed have been covered with mattresses stuffed with seaweed around which are piled buttresses of sand bags.
