# Are You Supporting The "Infallible Plan"

## In Your Community?

Not only must the movement to reduce acreage and hold cotton receive individual support, but whole communities must unite. The school district, the township, the county, the state and the South must be solidly behind this movement, anything else is economic suicide.

Every individual in the community must pledge himself to reduce his acreage one-third, in other words every cotton community must be solid. The individual who goes back on his community this year will reflect on the good name of the community, every individual has a direct RESPONSIBILITY. No cotton grower is exempt.

HELP ORGANIZE YOUR COMMUNITY AT ONCE, PLEDGE A REDUCTION OF ONE-THIRD IN ACREAGE THIS YEAR. FOLLOW THE "INFALLIBLE PLAN" PLAY SQUARE AND PLAY SAFE.

### Of Course You're Not a Chemist

Fortunately you don't need to be a walking encyclopedia in order to get the best out of your battery. The battery is really the easiest thing on your car to take care of. You don't even have to know what is inside it - or what kind of chemical changes go on. All you have to do is to add pure distilled water once a week or so, keep the battery charged, and don't overheat it. You can take your own hydrometer reading if you like. When readings seem too low, or your start lacks snap, drive your car around and let us locate the trouble.
