BINGLES

Rather bad weather for baseball
don't you think, and more especially
since we have a park in heading right
now.

It may be rather late in the season
to talk of putting a team on the field,
but it is necessary to get the ball
started. It is supposed to be a
case of "no more" for a season, and
the Virginia League might "forget" any
team and in a few days the ball
will be in the air.

The more you play the more you
know. It is a fact that the more you
play the more you know. It is a fact
that the more you play the more you
know. It is a fact that the more you
play the more you know.

Manager Gault is expected to
be over at Wilmington in a few
days. It is supposed to be a
case of "no more" for a season, and
the Virginia League might "forget" any
team and in a few days the ball
will be in the air.

There are still a number of
players that are left. It is a fact
that the more you play the more you
know. It is a fact that the more you
play the more you know.

made even though they might
work to be better and if the
club is a good one, it is a fact

**Just Arrived--
The Standard Eight
—Touring and Sedan—
Seven Passenger**

The latest thing in motor car construction is offered to Rocky Mount in the Standard Eight Dark Blue body with fenders in black and the stream line body gives it the appearance of the power and the durability which it has. Equipped with a motor made for the Standard Eight only it performs like a lion on the hard pull and has the pick up or the quick get-away. The double ignition system is largely responsible for the praise with which the Standard Eight has met and is a large factor in the smoothness of action, unity of operation, and the wonderful performance that is keenly noticeable to every owner of this car.

From Pittsburgh, Pa., to New York over the Alleghany mountains, no stops and not a single change of gears, all on high. This is the record of this wonder car that is here in Rocky Mount within your reach. Smart in appearance, although not flashy, it is the ideal car for the lady who enjoys to drive herself. The ease in operation has won many admirers in experienced drivers, allowing them the feeling of security and satisfaction of knowing it will perform when called upon.

The upholstery of the front and rear compartments and seats is made of genuine hand buff leather over curl hair and is all that you could wish for comfort. The rear compartment flooring is covered with plush lined carpet and in the Sedan you will find a complete Vanity Set for the ladies and a smoking set for the men. In fact it is truly a palace on wheels, it has all that you could think of except hot and cold running water.

Ask for a demonstration—whether you are anticipating buying a new car or not—we want the privilege of showing you just what the Standard Eight will do under any conditions.
