Cures the Cough. Price 35c. A free box of  
GROVE'S OPEN-TRATE SALVE for  
Chest Colds, Head Colds and Croup is  
enclosed with every bottle.

CONGRESS CAUSES  
SOLDIER NEGLECT

Representative Evans Takes  
Blame From Door of the  
President

Washington, D. C., March 11.—The criticism that is going around that disabled soldiers are not being properly cared for if merited, it must be laid at the door of congress and not the president," said Representative John M. Evans, of Montana, member of the house appropriations committee, in a recent statement discussing certain press articles and editorial charges that the government was not keeping faith with the wounded and disabled veterans of the World War.

"It will be recalled that both the president and the secretary of the treasury asked for much larger appropriations for this purpose than have been granted," continued Mr. Evans. "The republicans are in control of congress; they have a majority in all committees in both house and senate. Last day the republicans on the house appropriations committee voted in congress, over the unanimous protest of the democrats, that the appropriations of the democrats, in two of the estimates submitted to this service. The eva was so meager as to insist that the president vetoed it. The great supply bills, in which the appropriation was carried, and on a slight bill by the democrats, he veto was sustained and the appropriation was doubled. So if the treatment of these men is allegedly, a republican congress and not the president is to blame."

The supply bill voted by the president, to which Mr. Evans referred, was the only civil bill passed last night. It was voted because the republican majority, in the house, over the protest of the democratic minority, passed it with an appropriation of six billion dollars for rehabilitation work and vocational training among the soldiers. The president's veto and the subsequent vote of democrats in congress resulted in the amount being increased to \$10 billion.

Soon, it is almost ready to fall off. You help it just a little by lifting it with two thumbs and fingers. You don't need to worry about there is no hurt left in it. Millions have proved it the cleanest, surest, safest and most pleasant method.

"Gets-It" the never failing guarantee money back guarantee costs but a little at any drug store, MFD by E. Lawrence & Co., Chicago.

Sold in Rocky Mount and recommended as the world's best corn remedy by May & German, Standard Drug Co., Douglas Drug Co., and T. C. Garber.

As for the work of the federal board

or vocational training, the total number of service men who have registered with this board is 185,000, according to information furnished by James P. Monroe, vice-chairman. Of this number, a total of 35,000 have been approved for training and so notified. Of these, approximately 30,000 have taken or are taking training. In addition, 22,000 men have been awarded what is termed "Section 3 training," that is, they have been given free tuition but not training pay, while 45,000 cases have been ruled because the men were not interested in training, or were ineligible under the law which congress passed. The American Legion is joining the board in urging the 25,000 men awarded training, but not yet taking it, to do so, Mr. Monroe said.

This leaves 60,000 cases pending. On these cases, medical evidence or evidence as to honorable discharge or of relation of disability is yet lacking. This is being obtained with the greatest possible dispatch, declares Mr. Monroe, and it is believed all the pending cases will be cleared up within sixty days.

Mr. Monroe contends that the fact that only 213 men have thus far entered employment after training is to the credit of the board, showing that the disabled men are being given thorough training before being sent out to face themselves. Meanwhile, the board has found employment for tens of thousands of discharged soldiers who did not care to take training, or who were not eligible for it. In average length of a training course, with such extensions as will be necessary, will probably be over eighteen months, based on present estimates, and as it has been about fifteen months since the armistice was signed, there has been a good time for the average course of training to be completed, which answers the charge that but few men have been found employment after training.

LONDON POLICEMEN  
REFUSED FIREARMS

London, March 11.—The intention of some of violence has led to a demand that members of the police force be permitted to carry pistols at least while on night duty. There is strong opposition to the proposal.

# Firestone

This is the  
Firestone  
Year

The mileage records of the Gray Sidewall Firestone Tires are absolutely convincing. These tires were never so good as now. Reports of exceptional mileage were never so general.

Adjustments were never so RARE.

More Mileage Than From Any Other Tire

permanently disappear after drinking the celebrated Shivar Mineral Water. Positively guaranteed by money-back offer. Tastes fine; costs a trifle. Delivered anywhere by our Rocky Mount agents Geo. S. Edwards and Co., Phone

**Easy to Make This  
Pine Cough Remedy**

Thousands of families swear by its prompt results. Inexpensive, and saves about \$2.

You know that pine is used in nearly all prescriptions and remedies for cough. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is nothing but sugar syrup.

To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made for three times the money. It is pure, good and very pleasant to children take, even infants.

You can feel the heat of a cold or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

BERLIN NOW HAS A  
POPULATION OF 3,801,235

Washington, March 11.—The city of Berlin, which adjoins Berne, now includes 3,801,235 inhabitants, according to recent returns of the Swiss census, which published results of the recent census, which started October 18, 1910. The most remarkable feature of the census was that the mean showed ages of more than 8 years in the entire
