The bar was repaired, however, and allowed to stay in place. Evidently they used in prizing back the weak bar and providing an opening suffi-ciently large for the smaller of the two rouths to erawl through. After getting out of the cell, it was a simple matter to break the lock on the outside of the cell door, release his companion and the other white prisoner and make their escape from the jail

The police are still holding the stolen car for Boston authorities, but up stil a late hour this morning had se rured no clue as to the whereabouts of the escaped prisoners although an unknown party who said that he was talking from Richmond called police headquarters this morning and in the nature of a practical joke inquired how the fellows arrested in the automobile theft case were getting along.
