## EXPRESS SURPRISE AT DEBS VISIT TO ATTORNEY GENERAL

Three Hour Conference Was Over Before Newspaper-men Knew of Presence

### OUTCOME OF PARLEY NOT YET ANNOUNCED

Attorney General Brought Debs to Washington as He Had Acted as His Own Lawyer—In Accordance With View of President

Washington, March 25.—Surprise more than mild lingered in the wake today of the unheralded visit to Washington unattended of Eugene V. Debs, imprisoned socialist leader to discuss his case with Attorney General Daugherty.

Stepping into Washington early yesterday, Debs had gone to the Department of Justice, held a three-hour conference with the attorney general and left to return to the Attrens penthouse before his visit was announced by Mr. Daugherty to a group of dandified newspaper men whom the socialist leader had successfully evaded throughout the day.

In announcing the visit of Debs, whose case he recently was directed to review by President Harding, the attorney general said he had called the socialist leader to Washington after conferring with the President. In as much as Debs had defended himself in his trial, Mr. Daugherty said, it was decided that he should come here to answer such inquiries as the government desired to make. The attorney general refused to comment on Department of Justice or indicate what recommendation he might make in the matter of clemency.

### DEBS REFUSES TO TALK ON VISIT

Atlanta, Ga., March 25.—Eugene V. Debs, socialist leader, reached Atlanta at 11:25 a.m. this morning en route to his trial at the Federal penitentiary here after his visit to Attorney General Daugherty in Washington. Mr. Debs, who had been in the South connected with his trip to Washington, appeared in Washington, D. C., and his attorney, Samuel Cuchin, left the station immediately for the penitentiary.

## AUTOMOBILE SHOW ON MAY 10 TO 14

### Decision to Have Show and Definite Dates Announced By Committee

The Eastern Carolina Automobile Show will be held here May 10 to 14. The announcement made today by Chairman F. P. Davis of the committee recently named at a gathering of local automobile dealers to take action and make arrangements for the show if they decided to hold it means that the third annual automobile show for Rock Mount is all set and that from now until the date of opening every effort will be put forth to bring about its success.

The special committee, the members of which include Mr. Dunn, Howard E. Rose and Henry W. Cuchin, is busily engaged in making preparations for the show and especially in getting exhibition space to the dealers. It is expected that the show will be held in Fenners' warehouse where it has been held for the past two years, but the various details are yet to be worked out.

It is known, however, that there will be special entertainment features such as vaudeville, music and dancing.

The committee which is handling the project as announced that the show will be held this year after making a care-

ful investigation and that such as in the conditions which it believes, is such as to justify the exposition. This year's show, as has been the case in the past, will be given under the auspices of the automotive branch of the chamber of commerce. The executive committee in announcing the date and making all arrangements for the show is acting under the authority invested in it by the auto dealers of the city when they met several weeks ago and delayed even further into the matter of confirming the exposition with the result that everything was left in the hands of this representative committee.

### Erect Pyramids Where German Advance Ended

Paris, March 25.—To mark the line where the German advance in the spring of 1918 was stopped it is proposed to erect pyramids along the entire front bearing the inscription: "Here was arrested the rush of the Barbarians."

The number of pyramids and the places where they are to be erected will shortly be determined by Marshal Petain.

### MILITARY ALLOWANCES AND ALLOWANCES EXPIRE JULY 31

Washington, March 25.—Military allowances and allowances under the war risk insurance act will expire automatically on July 31, Comptroller Warren of the treasury holds in a ruling made public today.

## Governor Calls Conference Of Institutions To Take Up Their Contemplated Building Programs

Chief Executive Believes Money Can Be Saved by Concerted Action

### ROAD CHAIRMAN BUSY

Chairman Page Is Busily Engaged in Preparing Recommendations for Initial Meeting of Commission in April

Raleigh, March 25.—Governor Morehead called a conference of the state institutions which will have building to do during the coming two years in order to get over with them negotiations for continuation of the state institution building. Each institution will have to get its own contractors to work and plans for the buildings the legislature has authorized them to build, but it is believed many can be saved by getting some general organization of the contract work.

At the present time H. A. Anderson, in charge of the work left hanging when the forming commission was dissolved. Mr. Anderson was called to the budget commission and the contracts that are soon to be let for the work already under way and the contracts that are soon to be let thereafter. A large amount of funding authorized by the 1920 session of the legislature for which the plans were completed only a short time ago is probably that arrangement will be used at this conference in order to expedite the work forward.

Through a general understanding between the governors the council of state and state institutions, the work on the new building program will start off before the coming summer. All contracts with the new

authorities, however, will be held over with the work already under way and the contracts that are soon to be let thereafter. A large amount of funding authorized by the 1920 session of the legislature for which the plans were completed only a short time ago is probably that arrangement will be used at this conference in order to expedite the work forward.

Then is a leading planning house which has been following the events that surround the bill in probability for the sake that were filed during the spring of 1920, but the engineer added that long and other material being into the manufacture of gas lines shown. The engineers are beginning to file their bills so that they may be submitted to the legislature in time for the session in April.

During the interview the council of state and state institutions, the work on the new building program will start off before the coming summer. All contracts with the new

authorities, however, will be held over with the work already under way and the contracts that are soon to be let thereafter.
