SAYS DISARMAMENT PLAN IS POSSIBLE

Leading Japanese Newspaper Says Plan of Harding in Realm of Possibility

Tokyo, March 13.—President Harding's idea of approximate disarmament is "quite within the realm of possibility," said the Jiji Shimpu, a leading conservative newspaper, in a new editorial discussion of the President's inaugural.

The newspaper continued: "There is something in the inauguration of ideas that makes us reasonably expect the call of an international convention by the new Washington administration with a view to promoting the cause of armament restriction."

"The growing popularity marking the proposed Triple Agreement on armament limitation in America leads us to expect and to believe that the above proposal by the American government, and this, coupled with the universal sympathy with which the proposition is greeted, will result in the proposed scheme quite within the realm of possibility."

"Japan, which has hitherto made so much of her defense scheme, must now be prepared for the execution of a most rigorous armament restriction, which is no longer an empty theory of idealists but has already a practical application and importance."

The Jiji goes on to express regret that so much indifference towards the project has been shown by the Japanese association of the League of Nations which was recently organized in this country. It remarks: "Knowing the necessity and importance of the proposed cause, the association has hitherto been passively waiting to aid in the organization of this project. It is the responsibility of the Japanese government to give the public and the League of Nations, for which the League of Nations has been called into existence."

"But it is not the Japanese government of the League of Nations, which is to blame in this respect. Japanese scholars and statesmen are more interested than any other in doing in promoting the proposed cause."

WAR DEPARTMENT HAS OPPOSED BUNNY PROBE

Washington, April 29.—The war department is strongly opposed to the adoption by the house of the Flood resolution asking why Brigadier General Bagley was not recommended for promotion to brigadier general. Secretary Weeks says in a letter to Chairman Kahn of the military committee, that is how the issue today.

A spokesman here says an amendment to the resolution is being introduced, probably a setting of backlogs is responsible.

They Look Like New!

Why, my dear sir, they ARE like new except that you had them made over in a repair shop instead of getting them from a factory through a shoe shop. The upper is perfectly good, almost as good as the day you got them, and now we've made the leathers, the soles and heels—good. There's no more repairing, one way, pays and pays BIG.

TWO YEARS AGO TOOK DRECO FOR SLUGGISH LIVER

Stanton Man Says It Did Him Worlds of Good and Has Been in Fine Shape Ever Since.

It is not unusual to hear of people who have taken Dreco one, two or three years ago and state that they are still in good health which demonstrates the lasting results of this great remedy. Read what Mr. P. J. Rohr, of 411 Bowling Street, Stanton, Va., says:

"Two years ago I suffered greatly from gas in my stomach, seemed my food never thoroughly digested but lay there and fermented, causing acid risings and cramps. My bowels were constipated and my liver very sluggish which brought on dizziness, coated tongue and food trouble."

"I took a treatment of Dreco and it thoroughly cleansed my system and restored my organs to full action. Dreco worked off my liver so perfectly that I haven't been bothered with dizziness or biliousness. My digestion was so thoroughly restored that the gas quit forming and I'm never bothered anymore, and my bowels have been as regular as clockwork. The good I got from Dreco stands with me, so that is why I praise it to all."

Dreco is being especially introduced by May & Gorham in Rocky Mount and sold by all druggists.
