France Does Honor To American Dead

Paris, May 30.—Memorial exercises were held today in every American cemetery in France, and even on the isolated graves of Americans who died in this country during the war, the war wreaths were placed. The French government exerted every effort to make sure that not a single American hero was forgotten. At the suggestion of the government there were guards of honor at the principal cemeteries. Whenever Americans were unable to send delegations to conduct services, the French offered to lead the exercises as well as to participate in the program.

KITTY COTTAGE.

The Kitty cottage, Wrightsville Beach, is ready for the 1921 season. The cottage has been thoroughly renovated under the direction of the owner, Mrs. John A. Snyder, and very attractive rates are announced for the summer. Mrs. Snyder had made an extra concession for the delegates who attend the meeting of the State Federation of Women's clubs, the rate being very low. The Kitty cottage is the nearest one to the Oceanic hotel, convention headquarters. adv. 11.

It Started Something

"I have not said anything to you, but have been saying to others and have induced many to take your medicine and be convinced. Myr's Wonderful Remedy is correctly named. It removed stuff from me I never thought could be in a human being and I feel like a different person. The pain in my right side disappeared at once, which four doctors said would require an operation; also the bloating and indigestion." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. May and Gorham and druggists everywhere.

Great Britain Urges Meeting of Council

Paris, May 30.—A note from Great Britain received today in reply to Premier Briand's recent communication with regard to the meeting of the allied supreme council insists upon the desirability of that body meeting this week. Great Britain accepts the principle laid down by France for an examination of the Silesian question by a special commission of experts but holds that the council should first and not delay its session until after the experts had reported as France suggested.

FORD PRODUCING 4,000 CARS A DAY

Present Production Greater Than For Same Period Last Year

Ford is building cars at full speed. And according to an official statement from the factory at Detroit, the demand for Ford cars and trucks still exceeds the output, despite the fact that a new high level of production has been reached. By the first of May the figures representing daily production were in the neighborhood of 4,000 a day, so the May schedule was set at 101,125 cars and trucks, not including the output of the Ford Canadian plant or any of the foreign assembling plants. The output mounted daily: May 12th brought forth 4092, the greatest number that have been produced in one day so far this year. Since the month has 25 working days, present indications point to a new high record. A comparison of Ford production figures for 1920 and 1921 discloses the fact that for April 1921 the output was greater by 34,514 than for the corresponding month of a year ago. The output for May 1921 will probably overshadow May 1920 by between fifteen and twenty thousand cars and trucks. Approximately 45,000 men are at work in the Detroit plant of the Ford Motor Company. The factory is operating full time, six days a week and three shifts a day. "We were never in better condition than we are right now," said Henry Ford recently.
