

His conduct, like Whirligig's, agreed with his name—When he was accused of uttering falsehoods, he answered that he only spoke poetical prose. Such is certainly the poetry of Whirligig.

April 18.

The LAWS & JOURNALS of the last session of the General Assembly of North-Carolina will be completed and ready for delivery the latter end of this week, when they will be forwarded to the several districts with all possible dispatch. The deprivation of a house and the destruction of a part of my printing apparatus, by the late fire, have in a great measure retarded their publication—these circumstances produced unavoidable obstacles to the speedy execution of business, during the inclemency of the winter, which I hope will be a sufficient apology for their not being ready at a much earlier period.

In consequence of a promise to the members of the General Assembly, to establish a Printing-office at the seat of government, previous to the ensuing session, and in obedience to an act entitled "An act more fully to ascertain the duties of the Public Printer," I have made arrangements for that purpose, and am in daily expectation of receiving from New-York, a complete set of printing apparatus, with every other necessary, for the dispatch of business; which, when received will be immediately forwarded to Raleigh, where I shall hold myself in readiness to perform the requisites of the above mentioned act—and where I intend publishing as soon as a sufficient number of subscribers are obtained to ensure its support, a NEWSPAPER, to be entitled
