

August 15.  
The Hamburg Mail of the 3d inst. has brought the following articles of important intelligence which we extract from our private correspondence:—  
HAMBURG, August 3.  
“In consequence of the refusal made by the Hanseatic cities of Hamburg, Bremen, and Lübeck, to comply with the new pecuniary exactions of the French Government, Bremen has been invested for several days past by a detachment of the French army in Hanover; and no person is suffered to enter or depart from that city. They have even stopped all the supplies of provision, as the enemy completely blockades the place, it is impossible to ascertain by any direct information, whether they have proceeded to levy by military execution the sums they demand, but a rumor of this nature was in circulation this morning.  
“The city of Lübeck persists in its refusal to pay the contribution demanded by the French, who have not yet had recourse to any menace, probably from the fear of hastening a rupture with Russia, whose fleet is now riding in the Baltic. The last letters from St. Petersburg state, that the Emperor Alexander continues to give decided proofs of his determination to espouse the interests of Louis XVIII.”

SAVANNAH, October 9.  
Col. BURR set out from this city on his way to the seat of government, on Friday last. We understand his early departure was owing to a desire of taking his seat in the senate at the opening of the session.

NORFOLK, October 4.  
It is with considerable pleasure we have observed the very many valuable cargoes of late brought into this port; and we are informed by a commercial friend who is in the habit of transacting business at the Custom-House, that the duties on merchandize, tonnage, &c. amounted to the sum of \$120,000 during the month of August last!—and that there is now belonging to this District about 20,000 tons of registered vessels.

*Delaware Election.*—Extract of a letter from Wilmington, (Del.) dated Oct. 4.—“From the returns already received here, there can be no doubt but that the federal majority in the whole state, is 465. Gen. Mitchell is elected Governor; James A. Bayard, Representative to Congress; and the Legislature is federal.”

A letter has been received at Boston, dated Messina, (in the island of Sicily) July 12, stating, that a few days previous, Commodore Preble sailed from thence, with his squadron, for the immediate purpose of bombarding Tripoli.

Capt. Bedel, arrived at New-York from Lisbon, informs that the day before he sailed, a packet arrived there in eight days from Fal-mouth, (Eng.) by which information was received that the French were expected to make an attempt at invading England immediately; and that the British troops were marching to the eastward.

The American Consul at Lisbon informed Capt. Bedel, that Mr. Pinckney was about to leave Madrid, and that he had already sent off his baggage.

Extract of a letter from an officer on board the *John Adams*, dated Gibraltar, July 26, 1804.

DUBLIN, 28th Sept. 1804.  
Dear Sir,  
ENCLOSED is a copy of a letter I wrote Gen. ASHE, proposing a compromise respecting the Election for Elector, which you will please to publish in your Gazette; and also renew my Address on that subject.  
I am, Sir, with esteem,  
Your most obedient servt.,  
D. GLISSON.  
Mr. A. Hall.  
(copy.)  
Dublin, 13th July, 1804.

DEAR SIR,  
WHEN I addressed myself to the voters of our Electoral District, as a candidate for Elector, I had no knowledge of your intention of becoming a candidate for that appointment: if I had, I would not have offered, as I by no means wish a contention. I was urged by some of my friends, to address myself to the District at an early period, and declare who I intended to vote for, as probably that would prevent an opposition on the republican side.—I did so on the 2d of February, some time in March, I saw the proceedings of the Republican Society, where they held you up to the people as the most proper person to fill that place.

Now, Sir, as I offered first, I do not like to decline for no other reason, but because another person has come forward to do the same work that I myself had set out to do; I would sooner poll and lose my election.  
But, Sir, I am willing to cast lots which of us shall decline; and should such a compromise take place, I sincerely wish you to be the successful candidate; for then I will decline, and with great pleasure exert my interest in your favor. I hope you will write me on the subject as soon as you conveniently can, as I have no wish to contend, if I could decline on any terms that would reconcile my feelings.

I am,  
Dear Sir,  
With sentiments of the highest respect,  
Your most obedient humble servt.,  
D. GLISSON.  
The late Hon. Samuel Ashe, Esq.

The original, of which this is a true copy, was delivered by myself to Maj. Sam'l Ashe, on the 18th of July last, which he promised to deliver to Mr. Ashe, from whom I have received no answer. D. G.

To the Voters in the Counties composing the District of Wilmington and Sampson County.

GENTLEMEN AND FELLOW CITIZENS,  
AS the election for electing an Elector to vote for a President and Vice-President of the United States is approaching, I take the liberty of presenting you with this Address, to inform you that I am a Candidate for that important appointment. And believing, as I do, that the present Administration of the United States is pure, and calculated to secure the rights, liberties and true interests of its citizens; should I be honored with a majority of your suffrages, I pledge my honor to vote for THOMAS JEFFERSON, to be President of the United States.

As for Vice-President, I am not prepared at this time to say who I will vote for, as the gentlemen who will be candidates for that office are not yet known.

I am, Gentlemen,  
Your most obedient  
Humble servant,  
D. GLISSON.  
Dublin, Feb. 2, 1804.

INSURANCE AGAINST FIRE.

PHOENIX FIRE OFFICE, LONDON,  
MAY 1, 1804.  
THE numerous and destructive fires which have happened within the period of the two last years, in different parts of Europe and America, (more particularly in the towns of Liverpool, in England, Gothenburg, in Sweden, and Norfolk, in Virginia,) render it proper to remind all persons who possess property in the United States of America, of the utility of insurance.  
The Phoenix Office of London, is an institution sufficiently known by the very large and important losses it has paid, in consequence of the extensive conflagrations in the cities and towns of America, to such sufferers as have had the prudence to protect their property by insurance.—The Phoenix Company deeply regret that, owing to the experience of serious and continued losses upon the buildings and stores in the timber towns, no alteration nor remission on such risks, can be made at present—but the Directors hope, from the increase of brick and stone buildings, and other improvements of security, that the period is not far distant, when they will be able generally, to mitigate the rates of Insurance in North America; and they confidently presume that the promptitude and honor with which they have uniformly fulfilled their extensive engagements, have unequivocally established the solidity, credit and good faith, of the Company.  
The Phoenix Company grant insurance upon buildings, goods, and ships, while in dock or in harbor, from loss or damage by fire, upon the most moderate and equitable terms; and persons desirous of securing their property by policies from this company, are requested to transmit their orders to their correspondents in Great-Britain.

FRIENDS and FELLOW-CITIZENS, Voters in the District of Wilmington for an Elector of President and Vice-President of the United States.

UNACUSTOMED to solicit for offices and appointments, I address you, Measr. and perhaps unpleasantly to some; but in the language of plain and simple Truth.—Oppressed with the weight of age, and tired with more than fifty years bustle in public life, I had retired to the quiet shade of my own vine and fig tree, under the determination not again to intermeddle in public business; but with my wishes still warm and my heart still glowing for the welfare of a country that gave me birth, that sustained me, and to which I am attached by every tie that can bind the human heart. From this retirement I have been called forth by some of my respectable fellow-citizens, to proffer my service in the essential duty of an Elector of President and Vice-President of the United States.  
Unable to repress my feelings, I could not withhold my consent—I therefore step forward, and now offer myself a candidate for the office of Elector for the District of Wilmington.

I trust I need not say any thing of my political principles—they have been known from our earliest revolutionary struggle—they have been uniform. My sentiments of the present administration are equally known—I ever disdained concealment and disguise. It is an administration I wish to continue for the happiness of my fellow-citizens.  
During the Presidency of our late beloved Washington, our fellow-citizens throughout the United States, appeared to harmonize; discord dared not show her forked tongue.—His few errors were of the head, the frailties of nature never reached his heart; but alas! he was too soon removed from among us, and another of different character, temper, principles and views, succeeded.—Despising the plain and simple path of Democracy, he was ambitious, aspiring, intriguing, and reaching after the tinsel trappings of Royalty. Under him the old offices of government, with new ones created, and Congress, the great Council of the Nation, were filling with similar characters—these held their caucuses and conspired the destruction of our happy constitution—they drove with the rapidity of Jehu & the wildness of Phaeton. The Nation saw the danger, was alarmed, and by its commanding voice checked them in their wild career, hurried them from their seats, and wisely committed its political concerns to the known experience and inflexible integrity of a JEFFERSON; under whose administration every citizen has enjoyed peace and prosperity—his rights, privileges and property have been secured. Notwithstanding which there is a set of men (a faction) who, soiled and defeated, who do not despair, but incessantly labour by all the scurrilous abuse and misrepresentation that malignancy and falsehood can possibly invent, to remove this hitherto irreprehensible character from office, recover the reins of Government, and assume their mad career.—But fellow-citizens, I hope your vigilance will repel and defeat all their diabolical machinations, and that you will choose such Electors as are resolved to sustain the present mild and equal government.  
S. ASHE.
