THE Subscribers having been appointed by the Trustees of the University of North-Carolina Commissioners for completing the main building of the University, are determined to avoid all unnecessary delay—it will, therefore, be expedient for any person who is disposed to contract for the whole of the Brick Work to address their proposals as speedily as possible to the subscribers, either at Stagville or Chapel Hill, Orange county. It is estimated that the work now to be done will require four hundred thousand Bricks.

Hycy Academy Lottery.

THE Trustees of the Hycy Academy, solicitous more liberally to encourage and perpetuate the advantages arising from this Seminary, and conscious of the ill success in a direct application to the generosity of the public, obtained an act of the Legislature of this State, to raise a sum by way of Lottery to be applied by said Trustees to the use and benefit of the said Academy; and now most respectfully offer the scheme to their fellow-citizens and solicit their patronage.

The particular friends to the Institution will require no further injunction on their liberality to embark in the Scheme, than a knowledge of its utility. The friends of Science in every quarter where the Scheme may be presented, there is no doubt, will have sufficient motives to extend their generosity.

The moderate Price of the Tickets, and the fairness of the Plan, it is hoped, will be a sufficient inducement to individuals, who wish to become adventurers in Lotteries which they may do for the small sum of Three Dollars, and for which sum, One Thousand Dollars may be gained. Who would not enhance his fortune at so moderate an expense.

The advantages of Literature are so generally felt and acknowledged in this our enlightened and Republican Government; that the Trustees think it unnecessary to enlarge on the utility of the Plan.

All prizes not demanded within 12 months after drawing, will be considered relinquished for the benefit of the institutions.

The above Lottery is authorized by an act of the Legislature of North Carolina, for the purpose of enabling the Trustees of the NEWTON ACADEMY near the town of Asheville, to complete the necessary buildings belonging to the same.—And also to establish a Female Academy in the town of Asheville.

Which two objects the Trustees and Managers flatter themselves will be a sufficient inducement, independent of the flattering prospect held out in the above SCHEME, to influence all zealous friends to useful Institutions to become liberal purchasers of tickets.—And they deem it unnecessary to expatiate largely in contrasting the advantages these institutions may have (if well supported with friends) over most other Seminaries.—For it is now very generally known that Asheville is one of the most healthy situations on this continent—and lying in the neighbourhood of the Warm Springs, and on the main road from thence, (as well as from the Western to the Southern States) is more generally resorted to by the best character of both sexes during Summer and Autumn, (for the benefit of health) than almost any other place in the Southern section of the Union.—And being also a place where board and Tuition are had on very moderate terms.—Where the Youths of the sister states will lay the foundation of sound constitutions together with their Educations, and receive the visits of their friends to and from the Warm Springs.—All these advantages united bear evident testimony of the eligibility of Asheville as a seat for Literary Institutions.—And therefore on these self-evident grounds, we respectfully solicit the public patronage.

100 Dollars Reward,

FOR six deserters who deserted from this post on the 3d inst. viz.—John Wynne and Thomas Stewart, of captain Armstrong's company of the first Light Artillery: Stewart was born in Ire and, (but came to this country when an infant;) he is five feet eleven and an half inches high, twenty-two years of age, has grey eyes, brown hair, good complexion, by occupation a labourer; took with him citizen's cloaths, and armed with a rifle and pistols.—The pistols are of uncommon make, the property of the United States.

John Wynne was born in Georgia; he is five feet six inches high, thirty-five years of age, has grey eyes, light hair, fair complexion, by occupation a taylor; went away in citizen's cloaths, and armed with pistols, and probably a rifle, as the parties stole two rifles and a number of pistols, previous to their desertion. The rifles are very ordinary in their appearance, the pistols uncommon particularly with respect to the locks, and fixing of the ramrod.

John Hopkins, of captain Laval's troop, was born in South Carolina, is five feet nine inches high; has dark complexion and hair.

Charles Merul, of said troop, is a native of South Carolina, twenty-three years of age, five feet ten inches high; has light complexion, and dark hair; went off in citizen's cloaths, and armed with either pistols or rifle.

Daniel Holloway, of captain John K. Span's company of Light Artillery, is a native of Virginia, twenty-three years of age, five feet nine inches high; has fair complexion, blue eyes and dark hair.

Willie Barlow, of said company, deserted at the same time, of whom an accurate descriptive list cannot be given.

The above reward, with all expenses will be paid (or in that proportion for either) to any person who will deliver the said deserters to me at this post, or secure them in goal, and give the necessary information to me, or to any commanding officer in the army of the United States, A. UNITED STATES.

CONGRESS.

HOUSE OF REPRESENTATIVES

DEBATE

ON THE JOINT RESOLUTION

Approving the conduct of the Executive in relation to the refusal to receive any further communication from Francis James Jackson.

January 3, 1810.

Mr. STANLEY said he did not flatter himself that he could add any thing to the information which the House already possessed on this subject. Yet, as a measure was about to be adopted, which without the possibility of yielding any advantage, would in his opinion fix a stain on the national character & put at hazard the peace and prosperity of the country, he felt impelled by the imperious call of duty to raise his feeble voice against it.

Permit me, here (said Mr STANLEY) to express the surprise and regret with which I have heard observations from those who support the resolution, which having no connection with the resolution itself, are calculated if not intended to excite the passions of the House or of the People; to furorize the public mind; to mislead our judgments in deciding the question, and to obtain a result rather from passion than reason. I allude to the repeated recital of British outrages, the bombardment of Copenhagen, and the attack on Constantinople. A calm discussion of the question itself, would probably lead to a correct decision, and be not less honourable to the American Congress. The danger of foreign influence has been mentioned to us, by way of caution, I presume. A solicitude on this point can be but countmendable, though I hope unnecessary. It may be the fate of this country to be cursed with men whose ill directed ambition and predominant selfish views lead them to support the interest and the designs of foreign nations, though adverse to the interest and honour of their own. If such there be,
