TEN DOLLARS REWARD.

STOLEN

FROM the Subscriber, a GRAY HORSE, about four feet 8 or 10 inches high, 6 years old last spring. He is a little hip-shot, I think on the farther side. It is presumed he was taken by two young men who absconded from the neighbourhood of this place at the time he was missing. The men are small and slender made, and subject to get intoxicated with spirits. Their names I forbear to mention at this time—they are supposed to have gone to the Western Country, and it is not improbable they will sell or exchange the horse by the way. I therefore beg the attention of every honest and honourable person to observe if they can see a horse of the above description, and if they will write me by post to Raleigh, I will come or send and satisfy the above reward and all necessary charges.

MATTHEW SHAW.

Raleigh, June 14, 1810.

STRAYED or Stolen, from the Subscriber, on Tuesday night the 5th instant, a Bay Mare, rising seven years old, near five feet high, with a roach main and tail, a star in her forehead, her left nostril white, and her left hind foot partly white. Strayed

FROM the Subscriber on the 2d of May last, a small Bay Horse, four feet 7 or 8 inches high, neither docked nor branded and has no noted marks that I recollect.—Went off with him a Black year old Filly, with a small white spot in her forehead, pretty well grown.—It is presumed they will aim for Montgomery County. Any person that will secure them and contrive way so that I get them shall be generously rewarded.

Catawba Navigation Lottery.

THE President and Directors of the North Carolina Catawba Company feel solicitous that every delinquent shareholder should be informed that pursuant to an act of Assembly, passed December 1808, all those shares on which four instalments have not been paid—and to whom notices have issued are vacated and have become a forfeit to the Company.

The officers of the company have extended the time of forfeiture to the first day of August and hope every person wishing to retain their shares will close the fourth instalment with the Treasurer, previous to that time—after which period no other than a legal indulgence can be calculated.

The company will resume their operations on the river near the Island ford about the first of August and hope to meet the patronage and assistance of those contiguous to the river—of whose co-operation they will be very thankful.

The Managers of the Catawba Lottery expect to commence the drawing on the fourth Tuesday in July—they request the exertions of those holding tickets to perfect their sales if possible by then, and to transmit an account of sales to the treasurer in Charlotte so as to reach that place on the Tuesday previous to the drawing.

RUDDIMAN'S LATIN GRAMMAR,

TO which is added a concise and highly approved system of Latin Prosody taught in the University, and the Academies of this state, and at various other places.—Price 60 Cents single.

It is believed that this Edition, in point of correctness is not inferior to any which has been published in America. The Prosody above mentioned does unquestionably increase the value of the book, and give it preference to all other editions, because they, in this respect, are all greatly defective.

The above Lottery is authorized by an act of the Legislature of North Carolina, for the purpose of enabling the Trustees of the NEWTON ACADEMY near the town of Asheville, to complete the necessary buildings belonging to the same—And also to establish a Female Academy in the town of Asheville.

Which two objects the Trustees and Managers flatter themselves will be a sufficient inducement, independent of the flattering prospect held out in the above SCHEME, to influence all zealous friends to useful Institutions to become liberal purchasers of tickets—And they deem it unnecessary to expatiate largely in contrasting the advantages these institutions may have (if well supported with friends) over most other Seminaries—For it is now very generally known that Asheville is one of the most healthy situations on this continent—and lying in the neighbourhood of the Warm Springs, and on the main road from thence, (as well as from the Western to the Southern States) is more generally resorted to by the best characters of both sexes during Summer and Autumn, (for the benefit of health) than almost any other place in the Southern section of the Union—And being also a place where board and Tuition are had on very moderate terms—Where the Youths of the sister states will lay the foundation of sound constitutions together with their Educations, and receive the visits of their friends to and from the Warm Springs.—All these advantages united bear evident testimony of the eligibility of Asheville as a seat for Literary Institutions—And therefore on these self-evident grounds, we respectfully solicit the public patronage.
