The above Lottery is authorized by an act of the Legislature of North Carolina, for the purpose of enabling the Trustees of the NEWTON ACADEMY near the town of Asheville, to complete the necessary buildings belonging to the same—and also to establish a Female Academy in the town of Asheville. Which two objects the Trustees and Managers flatter themselves will be a sufficient inducement, independent of the flattering prospects held out in the above SCHEME, to influence all zealous friends to useful institutions to be come liberal purchasers of tickets—and they deem it unnecessary to expatiate largely in contrasting the advantages these institutions may have (if well supported with friends) over most other Seminaries.—For it is now very generally known that Asheville is one of the most healthy situations on this continent—and lying in the neighbourhood of the Warm Springs, and on the main road from thence, (as well as from the Western to the Southern States) is more generally resorted to by the best characters of both sexes during Summer and Autumn, (for the benefit of health) than almost any other place in the Southern section of the Union.—And being also a place where board and tuition are had on very moderate terms.—Where the Youths of the sister states will lay the foundation of sound constitutions together with their Educations, and receive the visits of their friends and from the Warm Springs.—All these advantages united bear evident testimony of the eligibility of Asheville as a seat for Literary Institutions.—And therefore on these self-evident grounds, we respectfully solicit the public patronage.
