Scientific.

YELLOW SPRINGS, VISC.

To the Editor of the Enquirer.

As every observation, which tends in any degree...

enlarge our views of the Natural History of a Country...

is not unworthy of attention, I take the liberty of forwarding...

to you a few experiments and observations upon one of the...

Mineral Springs of this State. I know that this sketch...

forms only a small portion of those researches to which...

the naturalist devotes himself, but we must begin; we...

must consider every faithful narrative of facts as essential...

to the structure of that grand temple of Science, which...

can be reared only by a particular knowledge of all those...

valuable materials, with which nature may have enriched...

any portion of the Globe. Its various natural productions...

however necessary for the accommodation of man; whatever...

sources of wealth they might open to industry; whatever...

extension they might give to the most useful arts; by...

The Star.

RALEIGH.

FRIDAY, JULY 19, 1811.

Robert Smith's Address.—Our readers will share...
