The Editors of the Ruleigh News-Pupers

TO THE PUBLIC

BE Editors of the News papers published in Raleigh, or experienced great inconvenience and losses from artling their papers to strangers without having rered the atipulated payment in advance, and from giv-too extensive a credit to their subscribers in general, it absolutely necessary to come to some arrangements. rder to enable them to conduct their business to any

advantage. They have therefore determined.

That after the 1st. of September next no subscriber to any of their Papers will be reserved, without payment of at least half a year in advance.

That, in future, payments from all subscribers, will be required annually. In case of a failure of payment wishing these months after the expiration of the year (notice) become been provinced entering them. having been previously given of such expiration) the pa-per of every such defaulter shall be discontinued. That all arrears at present due for newspapers are ex-

perced to be paid, or secured, at or before the close of the present year. In eases of fadure, the delinquent subscribers will be struck off the list, and their amounts put into a train for immediate settlement :

First payment is expected in all cases with advertisements when sent for publication.

The Printers hope that these regulations will not be taken amiss by any of their friends: That part of their parons who have always been punctual in their payments, (and to whom they consider themselves greatly obliged) will not be affected by them; those who have been mattentive to regular payments, principally, perhaps, from the insignificance of the amount, will see the accessity of the course now adopted, when they are informed that the proprietors of each of the Raleigh papers have several thousand dollarsowing in small sums so scattered over the state that they find it impossible to collect them. Respecting that class of citizens who never intend in pay (and it is feared there are some of this description) the sooner their hames are struck off the Printers Books, the better. Three dollars is a trifle to each subscriber; but when a Printer has a large number of subscribers, in ar rear, not only for one, two or three, but for six, ten and twelve years, the outstanding debt operates a serious inconvenience to him in the management of his business. It is to remedy this inconvenience, if possible, that the Printers have entered into these post regulations.

HAVING understood from respectable authority that these are in circulation various reports which may have a tendency to injure this Seminary by imposing on the minds of those at a distance a belief that many cases of indisposition have occurred which in several instances have proved fatal; to prevent the uneasmess which such reports are calculated to occasion I deem it proper to assure those who are interested that there has been but one instance of serious disposition during the last or present Session, and that the rooms are comfortable, arry and pleasant. How reports of the nature above alluded to have originated, or why they are circulated it is difficult to determine, I have only to request that the parents and guardians of our pupils will rest assured that I shall continue strictly to adhere to the rule, which I have laid downfor myself of giving them the earliest information of any indisposition which may occur.
