THE ALLIES IN PARIS!!!

From the Boston Daily Advertiser.

Arrived below, brig Ida, Mantor, 31 days from Rochelle. No papers are as yet received from the Ida : but the following summary of the news by ner has been sent up by the gentlemen passengers. Sailed from Rochelle on the 8th April. Bor-

deaux was taken possession of by the English and Portuguese on the 12th of March, without opposition; the French troops having evacuated it the

The town and fortress of Blaye on the river, was reported and believed to have surrendered a few days before the departure of Capt M. which would leave no obstacle to the English shipping, which was laying in the river, arriving at Bordeaux.

The emperor's head quarters were at Troyes on the 29th March, and he was then directing his march by Sens towards Paris. On the 31st he was at Fontainbleau, but he heard that the enemy had arrived 27 hours before him, and occupied Paris, after a sanguinary conflict. The corps of the Duke of Treviso and Ragusa, and that of Gen. Compans, who had co-operated in the defence of the capital, had joined between Essone and Paris, where the emperor took position with all the army that arrived at Troyes.

A general dissatisfaction prevailed among the people against the system which has so long oppressed them; and they desire nothing more than object of his mission. an opportunity to shake off the tyrant's yoke.

The Duke of Angouleme (nephew of Louis, the present claimant of the Prench throne, and son in law of the late king) was at Bordeaux, and all proclamations, &c. were issued by him in the name of Louis 18th. It was also reported at Rochelle Louis 18th.

Rechefort was daily expected to be besieged, but it was believed that little or no resistance would be

The National Guard of Rochelle had been called upon for defence of that place in case of an attack, which they had refused.

We have used every exertion to procure papers, from the Ida, but without success.—She remains at the quarantine ground, the small pox being on board woodruff of her, and of course our agent has not been per-

mitted to go on board of her, not have we been able to ascertain whether the has brought papers. The shove is sufficient to show, that although Bonaparte withdrew Suchet from Spain, and Soult from before Bordesux, thus having availed himself of his last resource, to protect his capital and his own person, he is still unable to check the progress of the Allies.

ince the above was written, the Ida has been permitted to come up, and the pessengers to laud. We have been politely favored with what is said to be the only paper brought by her, and hastily to transcribe its contents. It was printed in the form of a handbill at Rochelle, April 5, and consists of the two following official bulletins.

FRENCH BULLETINS.

Her Majesty the Empress, Queen and Regent has received the following news of the aituation of the army on the 29th of March

The General of division Pire entered Chaumont on the 20th and thus intersected the line of operations of the enemey. He intercepted many of the couriers and expresses and sook the enemy's bag gage, many pieces of cannon, magazines of clothing and a great part of the hospital stores. " He has been effectually assisted by the inhabitants of the country, who were every where in arms and showed the greatest zeel. Monsteur the baron of Visemberg, the Minister of Austria in England, returning from London with Monsieur the count Pak fi, his secretary of legation; the Swedish lieut. gen. Schildebrand, Minister of Sweden at the court of the Emperor of Russia, with a Swedish major; the Prussian Counsellor of war Pignithen; Mes sieurs de Tolstay and de Marcoff, and two other officers of the ordnance; all going on missions to the different head quarters of the allies, were arrested by the levy en masse, and conducted to the head quarters. The taking of these persons and their papers, all which have fallen into our hands, is of great importance. The park of the army of Russia and all its equip

age was at Bar-sur-Aube. At the first news of the movement of our army, they evacuated upon Berfort, which movement deprived the enemy of his ammunition of artillery, his transports of provisions of reserve, and of many other objects of great importance.

The allied army intending to operate between the Aube and the Marne, had left the Russian Gen Winzingerode at St Dizier, with 3000 cavalry and two divisions of infantry, to maintain the line of operation, and to facilitate the arrival of the artillery, ammunition and provisions, of which the enemy were in the greatest need.

The division of Gen. Milhaud, and the cavalry of the guard, commanded by Gen. Sebastiani, pass ed the ford Valcour the 26th March, marched upon his cavalry, and after many fine charges, routed him. 3000 Russian cavalry, many of them of the imperial guard, have been killed or taken prisoners. The 18 pieces of candon which the enemy had, were taken from him as well as his baggage. The enemy has left the woods and meadows covered with his dead. All the corps of cavalry have distinguished themselves to the admiration of each other. The Duke of Ragusa had pursued the encmy to Bar-sur Ornsin. On the 29th the H. Q. of the Emperor were at Troyes; convoys of prisoners amounting to more than 6000 men, follow the army. In all the villages the inhabitants are under arms; exasperated by the violence, crimes and ravages of the enemy, they wage against him a destructive war.

Ahril 1. The Emperor, who had moved his head quarters to Troyes the 29th, made forced marches by Sens upon the capital His majesty was at Fontainbleau 31st of March in the morning; but he there learned that the enemy had arrived 24 hours before the Freden army, and had occupied Paris, ofter having met an obstinate resistance, which cost him many mep. The corps of the Dukes of Treviso and Ragusa, and that of Gen. Compans, who have united in the defence of the capital, have reassembled between Essone and Paris, where the Emperor has taken a position, with all the army which is arriving from Troyes.

His Majesty enjoys the best health.

The following is endorsed in manuscript and in English on the paper.

'The English and Portuguese troops, to the number of about 3000 men, entered Bordesux without opposition, on Saturday, the 12th of March, the French troops having evacuated it the day be-

The following is all that we have been able to collect of verbal intelligence from the passengers : Capt. Woodruff left Paris March 11. On his arrival at Bordeaux found the place in quiet possession of the English and Portuguesc, and the inhabitants much pleased with the change—the white flag flying, and the white cockade displayed in al-

most every person's hat. About the 6th of March, a severe battle was fought between the armies under Lord Wellington and Soult, in which the latter was defeated

with immense loss. On the 12th of March, about 3000 British and Portuguese troops entered Bordeaux, the Mayor having previously made arrangements for their entry. Lord Wellington was within a few miles of

Bordeaux, when the Ida sailed. Bonaparte with his army was at Essone; about 10 leagues south of Paris. The Empress and Imperial Court were at Tours.

Mr. Crawford was at Paris when Captain Woodruff left there, but had not been able to effect any

It is stated by the passengers, that Marshal Blucher entered Paris with 40,000 men, that he met with no resistance except from 3000 young men in the Polytechnic school, all of whom except 1 were

A ship, nearly ready for sea, called the Shark, that the city of Augouleme had declared in favor of built by Mr. Thomas Lewis for a privateer, was the only American vessel taken possession of at Bordeaux by the British. The schooner David Porter left La Teste in great haste, in ballast, just before the British entered Bordeaux, almost without provisions; in the Bay of Biscay, fell in with 3 or 4 English merchantmen, from which she took an assorted cargo and stores, landed the captain at states in charge of the mate.
